

**REVELATION DELIVERED THROUGH FRANCES M. KLUG
ON MARCH 2, 2005 AT 12:07 P.M.**

“In the Design of human life, many *Gifts* were instilled, not just to aid a human being, but to supply them with the ability to do, to practice, to accept and to participate in manners and ways not known by them at another time.

So much has been described and put into script for a long time, helping human beings of all degrees of intellect to grow more adequate, more understanding to the various degrees that they are exposed to, because of how much has been created above and beyond the given time when the first human beings were created.

So much has been spoken and instructed upon through this Gift of Divine Love, wherein human lives of all ages have been caused to alert ‘what a Special Gift human life is’, but also, the fact that in hearing, in understanding and the ability to respond, put not just strength into the mentality, but the abilities beyond what they were first seen to be, because it would be needed and is needed for progress to succeed.

Though I speak differently, I speak clearly because the human mind sometimes does not realize the Importance for which it was created, and that there is a Purpose Divine for it to return to The Creator, called ‘*being a Saint*’.

Thousands of Words can be spoken on this Specific Gift of Divine Love, but the human mind also has the capability of learning much because of the *instilled mentality*, and also, the *Gifts* acquired through being a human being, gives the opportunity to learn what is Willed for them to know, Willed for

MARCH 2, 2005 AT 12:07 P.M.

them to participate in, and Willed for them to practice, because The Creator of All Things, in design of human lives, knew that the time would come and it would be necessary for human beings to be ready to understand in a greater dimension of learning because, do not forget, *The Divine is Capable of Many, Many Things.*"
