

REVELATION DELIVERED THROUGH FRANCES M. KLUG
ON MARCH 11, 2005 AT 11:42 A.M.

**OUR HEAVENLY FATHER
SEVERAL SAINTS**

“There are Several of Us present, because it is Important, in What We relate to this *little one* will be repeated by her so others will have the privilege to understand how close The Heavenly Father is to everyone. Also, Many Saints move in and out, not recognized of course, or seen, but They do this because it is a privilege to Them, The Father’s Will, to help others understand that they are not alone in the world, they are never not seen, and they are never not accountable to The Heavenly King.

I hold her tightly because her physical is spent, due to the fact that so much is passed through her, not always spoken about to others she meets or met.

This Gift is Far Greater in Concept, in Content and in Divine Love than It is seen to be. It is not all spoken or put into script, but a Gift of this Measure has other means, ways of showing what is important morally, mentally, physically, psychologically, spiritually.

Many of Us are present, because *the little one’s* exhaustion is more than it shows to be.

This Gift of Divine Love, wherein so much is revealed verbally and put into script for others to read, is based on Divine Love from The Holy Trinity to an unlimited amount of human beings.

The world should know of this Miracle, and All that has thus far been put into script should never be kept where It cannot be distributed and read, because every human living individual needs All that is written, so human beings of all ages can have a closer, more personal understanding of Divine Love and Will that constantly is present, available to aid in all measure, manners of human life.

My Words are so strong to this *little one*, because she recognizes the Generosity and the Importance that is available to millions of human beings. The Script always speaks of what is requested by The Divine, and that The Divine is always aware who responds regarding morality, Divine Love, and hope in the human way.”
