

REVELATION DELIVERED THROUGH FRANCES M. KLUG
ON MARCH 25, 2005 AT 1:41 P.M.

SAINT JOSAPHAT

“**I** am Saint Josaphat.

There are Many of Us present wherever this *little one* is, because We All enjoy how she responds to Our Presence and to What We are possibly going to speak through her, for others to learn different things necessary to give them Information that will guide them spiritually, or sometimes morally or physically.

It has been a great pleasure for Those of Us chosen to speak The Father’s Words, for Us to be able to deliver Them for Them to be read, thought about, and given to others in how things will be spoken, acted out, or stopped.

So much is in the human language, allowing an individual to have a broad scope of being able to communicate on many subjects, subjects they sense, they feel are up to date on subject matter that bears the brunt of human behavior at different times.

When this *Particular Gift* was given to the world, so much was brought into conversation regarding what a Blessing it would be for others at this time, to be able to have Personal Script enlighten them, or give them strength on different subject matter that otherwise would only be practiced in communication verbally. Granted, this does not always work, because the sound of the voice fades, and the Words do not always have the same meaning when there is no sound that was originally there.

Today is an important day in the lives of millions of human beings: First, a day that they will be accountable for when the time

comes and the human side of life no longer exists, but the day has a lot of what We call '*energy*' in it, because through association with others, it gives to human life interest, communication and sometimes a better under-standing of what their association means to them; of course, communication is possibly always available, but sometimes it is the *sound of a voice, or just being together* that gives a stronger sensitivity to judgment and to communication.

I know I speak differently, but it is so important for those who are yet in the living state, look to this privilege in many ways, because it bears so much help, hope, interest and memory.

As I close these Words, I assure you that each day of life is a Blessing, and each time you practice using it for some source or interest, it gives you a new lease on life, or a better understanding in knowledge of conditions, situations, friendships, and yes, hope in the future.

I will close My Words. I could speak endlessly on this Subject, because when a human being is created and the birth is ready, the little one has no concept of all that it has to look forward to. This is a Blessing beyond what it is seen to be, but then, as time goes and there are so many experiences that give to human life hope, but interest also, in how it is lived amongst other individuals, and there is so much to be learned by just participating in something that is not practiced all the time.

I know All of Us speak differently, but there are Several of Us present, because, do not forget, We too walked the road of living a human life using the talents we had, and other people we knew, but never forget, when you leave someone else and you are walking away, silently say to yourself, ***'God bless, and thank You for the day.'***
