

REVELATION DELIVERED THROUGH FRANCES M. KLUG
ON APRIL 5, 2005 AT 3:24 P.M.

OUR HEAVENLY FATHER

“I am your Heavenly Father.

I speak so many times through this *little one* I chose a long time ago, knowing that she would put My Words into the print that others would write, and then she would respond personally to Me guarding the results of what she found to be advantageous, beneficial, and in many ways a Blessing to those who would read Them as They were written to be.

I often speak through her, but she requests I announce Who I Am. This always pleases Me, because she was chosen a very, very long time ago, to do what she is doing for the sake of Souls.

In the Creation of human life so many *Gifts* are instilled, some not ready to be used at an early stage, but eventually prepared at the time necessary for them to be able to share in this Gift of My Divine Love, that I use for others to more indepthly speak about, or speak subjects on the Value of the Words, because in Words there is many times Sound Direction, Sound Purpose and definitely Sound Reasoning.

In the Creation of human life, *speech* was an important fact; *memory* was an important portion of it; and *the ability to repeat word for word*, gave strength to what was spoken and what was to be read verbally.

Today I speak with much Love for human life. Do not forget, I was given the privilege to participate and to better

understand what an important communication it gives to subjects of all degrees of importance, and then other degrees for other ways, other means, other things to be made known of, or to enjoy what they say.

I could speak hours through this *little one*. I have done it many times, because Our Words penetrate her senses, and her listening is mainly for the emphasis on certain Subjects that We request to be made, Important for the ears of others to hear.

There are thousands of all ages of human beings that need to know What We speak through her, because of the Importance of the Subject Matter, or the Importance of how It will affect a mind, a mood, a condition, or just an act.

Children throughout the world need to know about This Gift that is for all ages of human life, because It stresses, in a manner and way, what It wants others to learn from or about, maybe not for the present, but for what might be spoken some time in the future, and they will be ready to understand indepthly *what* the Subject Matter, *how* the Subject Matter pertains to them.

Millions of words could be dictated on recorders and then transcribed, but the sound of a voice puts more Importance on the Words than a piece of mechanical device.

Before I close, I thank those who have taken upon themselves to assist, and also to learn *how close The Divine is to the human way of life* mentally, morally, physically, and spiritually.

I bless you before I leave you when I say, 'In Nomine Patris, et Filii, et Spiritus Sancti. Amen.'"
