

SEVERAL SAINTS

“**T**here are Several of Us present, and We feel you should know that this occurrence is very prevalent wherever this *little one* shows.

In each way of life there is an Importance, not always seen, not always felt, but it is *innate* in the mentality, even when an individual does not speak openly on many subjects.

These Words may seem strange to some who will read Them, but if you consider your own personal way of thinking, you might find that you too follow the pattern of What was just spoken.

Human life is gifted with so many *Gifts*. Each *Gift* has a purpose, a meaning, because each human mind, though it understands the same subjects, there is an *innate difference* in how they think and how they understand certain subjects to be.

Human life was created. It is a Gift of Divine Love, *greater* than most understand it to be. It is a Gift designed to give to the one in whom It is, abilities that are often unseen.

Each day in a human life's way, there is much to be understood: First of all, regarding all the differences in the world through the appearances of human beings; secondly, in how they think; third, in how they respond to other human beings; fourth, in how they accept right from wrong, good from evil, justice from injustice, hope from hate.

The *Gift of human life* is beyond what the human mentality ever considers it, or understands it, or appreciates it to be. It is the

motivation to do so many things that give strength to the mentality and to the moral aspects, conditions of a human being.

In the Creation of human life, when it first began, it was the foundation for instructing many things, giving to human life logic, projection of what they felt, thought, could speak. Protection is always combined with whatever an individual seeks to do, to have, to plan, or to write.

The *Gift of human life* is, in many ways, that *Gift* that is to return to from Where It came. You have heard these Words before, but to hear Them is a Blessing, because ***it instills into the mentality what is 'reality', in the Gift of being created a human being.***"
