

MANY SAINTS

“**T**here are Many of Us present. We All smile at this *little one* who listens for Us continuously.

The world has been blessed abundantly, and these Words have been spoken at another time, but They are not always understood in Their Full Dimension, because those hearing It are oftentimes bound mentally to remember only one incident that could be possibly the One thought about.

Today, Many of Us gather to help you more fully understand, that to be created a human being is more than just a Plan. In the Design of what would be right, best, and more acceptable in what it was concerned about to be, ***human life has been a wonderful gift*** to those chosen to walk the path. So many areas within it address hope, interest, challenge, and much to be able to think about regarding Who would be The Designer of so much, The Planner, and The One Who would give the ***privilege*** of human beings to one day become ***a Saint in Heaven***.

Some who read these Words are what is called ‘*old timers*’ in thinking about the Importance of human life. Throughout the world today, there are many just learning about ***the privilege of what human life is gifted with, the Goal designed for it, and The Divine Love that controls all things***.

Granted, for some, it is difficult to just imagine how things were put together, causing all things to have purpose, reasonability, closeness, and yes, a means to one day return to The Creator and be ‘***a Saint***’.

So Many of Us Here in the Heavens try very hard to encourage individuals of all ages to understand that there is a Goal Greater than they can design, Greater than they can fathom ***for a Future, and that is to return to The Creator and be 'a Saint'***.

There are thousands and thousands of Saints in the Heavens Who do not bear the Beauty of Their Name being announced, but They are aware of all the good that surrounds so many human beings, that They, too, oftentimes ask The Creator if They can help in some way, to give strength or more endurance to what an individual must face.

To be a human being is much more than it is seen to be, thought to be, known to be. ***A human being is a Gift of Divine Love***, wherein it carries so much of Divine Interest in its abilities, in its knowledge, in the manner in which it lives every day the human way.

Needless to say, All of Us Here in the Heavens could speak hours and hours on this Subject, but thus far What is spoken because of Our Love for human beings, to more fully understand ***there is a 'Goal' for the Soul that you carry every moment since your conception as a human being. The Soul is a 'Portion of The Creator'. What more can you ask?"***
