

SAINT AGNES

“I am Saint Agnes.

The Father requested I speak because of My background since, evidently, He heard you speaking of certain important factors in human life, in human living, in human manners, in human desires.

In the Creation of human life, there were many things instilled to give to human life, human living, many advantages, many different paths to more fully, indepthly understand the advantages that were created, giving to human lives variations of how to live their life morally, mentally, psychologically, spiritually, but also academically and socially; the list is endless.

I have come to speak on this day, because there are so many things that should be thought about, considered, based on the Importance of being a human being and the **Goal** that your **Soul** wants to one day be considered for, **this Gift of Divine Love, ‘to be a Saint’**.

So much misinterpretation causes decisions that appear acceptable, but they are not all morally acceptable. **Remember this.**

Children should be instructed more indepthly on **what is pleasing to God, for He created that child**; also, so much subject matter is available that is not always beneficial to the morality in a human being, or to them psychologically or physically.

Some individuals feel that to learn about life in the human way, they should be involved in, or associated with what is popular at that

time, what sounds more feasible because others are active in it; thus, not looking at the whole picture, but looking at what the enemy would try to interest them in: impure thoughts, words, actions, associations, communications, and living factors.

I could speak hours on this, but I must add to it: Think before you act, and always remember, you are accountable to your Soul because ***your Soul is a 'Portion' of the Most Important Gift of Divine Love in the whole world. You know Who It Is.*** Remember this.”
