

“**T**here are Many of Us present wherever *this little one* is, because there is so much The Father Wills others to learn about through someone they know, someone they care about, someone they feel good with, but also, someone that will follow What The Father wants to give to those He loves, **a Closeness in Words** that will be understood to be Personal, not ordinary; to be Directive, not just something to say.

At this time, for so much to be delivered in a Manner and Way not ordinary to human beings, but **Divine in Background, Wording and Love**, every human being created must learn right from wrong, good from evil, truth from untruth, but also must learn responsibility, to capture and to adhere to what is obviously good for the **Soul**.

The **Soul is a Gift of Divine Love**, and sad to say, the **Soul is a victim of human behavior**. It is wonderful when the behavior is pure, kind, just and caring, but it is very sadful when none of these things are apparent in what is spoken or what is put into print.

Every human being created has an opinion on what is right, what is wrong, what is good, what is not good for them. The list is so endless, because in the Creation of human lives, there were so many things instilled, giving the strength to observe what would be moral over immoral, pure over impure, and again, just over unjust.

Children are not learning how to correlate how they do things, how they practice things. Children are looked at in a manner and way that needs help, because they do not have the protection of being told if something is impure or unjust. So much is oftentimes denied, because of the conversational factor.

I could speak hours on this Subject, but My Desire today is to alert those who take the Words and those who will read Them, ***please be aware of all you think, say and do***, not just for the benefit of your Soul, but the Souls of others, because you see, the very look on your face, the motion of your body and every word you speak could be part of what another individual observes and follows. You have much responsibility morally, psychologically. Do not forget this, I beseech you, because your Soul that you are the custodian of, loves you, but also loves All the Other Souls and those who are part of ways of life, of living.

I will close because I could speak hours on this Subject, because one Subject covers many various characteristics that are practical in human life, feasible, usable, and yes, interesting to be able to say the Words that draw attention to the Context of What is meant.

I close and I say, ***'You can be assured, for every good act you perform, you are blessed abundantly.'***”
