

REVELATION DELIVERED THROUGH FRANCES M. KLUG
ON JUNE 3, 2005 AT 2:05 P.M.

SAINT CATHERINE OF SIENA

“I am Saint Catherine of Siena.

We All smile at *the little one's* response when We tell her We will speak. She always sees Our Time with her as a Time of Divine Love, but her main worry is, the Words We will deliver bear much responsibility, and much of her ability to read What We speak so that others will understand It for What It is, not for what they propose It to be.

At a time, some time ago, The Father decided to give **'a Gift of This Measure'** to the Aid of Souls. The human mentalities, even when they are brilliant in concept, in meaning and in fulfillment, *the words are not in the same category as the Words spoken by the Saints*, because **Each Word spoken, delivered by a Saint, is to encourage, or to instill, or to demonstrate what a privilege it is to partake in service and in Divine Love for one's Soul or the Souls of many, many others.**

The Soul, to millions of human beings, is oftentimes eliminated in how they act, how they display their personality, their nature, or their belief in being the possessor of a Subject of Greatness for the Blessing of the Soul that they were told they possessed, and It would remain when they no longer lived the human form.

So many children are not being alerted to, or given the proper information that they have within them **a Gift of Divine Love** that has been given to them, because they were created by The Divine to one day return **'a Portion'** of them to The Divine, forever and ever and ever.

I know it may be difficult for many to understand how little, how few children are given the correct wording for **'this Gift from The Divine'**. Some parents or relatives or friends oftentimes think it is too soon to discuss a situation or condition of such Great Importance to the young mind, but I assure you, spoken in the proper manner, with the proper words, **it will leave a 'mark of Importance'** on the individual child, and when it is brought up at another time, it will give more strength in understanding, because though a child is often dismissed at not being able to remember, I assure you, when something of interest is repetitive, it has its way of lingering, and also being remembered.

These Words, I know, may be difficult for some to understand, but **I assure you, even children need to know the Love God has for them."**
