

“**T**hough it is difficult for many human beings of all ages to feel, to sense, to acknowledge, and/or to believe there is a Creator of All Things, there are also many Saints Here in the Heavens Who partake in much service to The Creator when They are requested to follow through on an issue, a condition, or a situation that needs immediate care for the benefit or benefits of those who are involved in what the results might be.

In giving to the world a Blessing of This Structure, through Words, according to service, or physical, or moral or immoral conditions, or the very facts in which human lives depend upon to be a part of daily, in the Creation of human life, in the beginning, much had to be learned for the individuals to partake in what would be beneficial, feasible, or helpful in some form, some degree, some way, not always for the body, but for the mentality that was consistently or constantly aware of many things.

The Creation of human life was a Gift Far Beyond what it is seen to be. It is the ‘stepping stone’. It is the ‘foundation’ for Another Life for every individual who becomes created in the human way. The Goal is to return from Where It came, ***‘That Portion’*** of it that is physical, mental in many ways.

Ask yourself: If there were never any human beings created, what would the world be like? Would it be only animals, and what would their place be, reason be? It would not be to become Saints. That is why, in the Creation of human life, it was ***to share a Blessing*** that was inconceivable to the human mind, but it was Something to look forward to, and that is the Gift of Divine Love to return to from Where It came and ***be ‘a Portion’ of The Divine.***

Every human being created has the privilege to become 'a Saint', and do not forget, every human being created has the Gift of being able to know what is right over what is wrong, pure over impure, just over unjust, and yes, that there is A Supreme Power that knows All. It is This Power that will one day judge the Soul.

There are so many Mysteries in Words like this, but They are Facts for you to remember that as you live each day and want it to be successful, remember, it is based on your *innate knowledge* that you have the *privilege* to live in Another Way at a later time, and serve The Creator in how it is designed to be.

Life, human life, is a Gift of Divine Love. Never avoid this in how you think, how you pray, and how you live each day."
