

SAINT BARTHOLOMEW

He's smiling. He says:

“**M**y Presence is rare in the Speaking Part, but I oftentimes visit you at other times.

The world has been blessed abundantly, because there are so Many Here in the Heavens Who desire to partake in 'This Gift' of The Father's Love for human life.

Children should be instructed on the importance of not just manners, but how they think, how they feel, and how they accept ***What is The Father's Will*** over their will, ***The Heavenly Mother's Will*** over their will.

I speak these Words because so few children are talked to about The Divine. If it is spoken, it is oftentimes rapidly done without full measure of interest in what the wording will mean to the little ones.

There are always so Many of Us present. I will surprise you perhaps when I say My next Words. Even those who do not walk like *this little one* walks, that We speak through so much, but do not forget, the Souls of every living human being are Important to Us, because through the Soul The Heavenly Father shows Great Love, and wants the love returned in a respectful manner, but also a manner of belief, knowing indepthly in them, that in the Creation of human beings, there are many *Gifts* that the human lives are endowed with, plus the mentality to be able to know many things, plus the eyes that give sight to so much, above and beyond sound; and also, the capability of human life, wherein an individual has the

ability to use their arms, their hands, their legs, their feet, whenever they find it necessary for them.

Always remember, in your creation to become a living means of life, you were also given the ability, or I should say, *the abilities*, to sense, the ability to see, to smell, to taste, and of course, to hear, were greater than they are often understood to be; plus, for the rest of the body to have all the *gifts* to give the strength to be a human being.

The purpose for instructing so much to the human way of living, is to remind all human beings that they were blessed with **a Soul, 'a Portion' of The Creator of All Things**, plus the innate sensitivity to not only sense, but understand there is a **Goal for the Soul** that awaits every human being created in the way of human living.

I will close these Words, but as I do, I want to say: **Remember, you were created based on Divine Love for human life, human living. Use it, so one day when you return this body to The Creator, you will be called 'Saint'.**
