

OUR HEAVENLY FATHER

“I am your Heavenly Father.

At a given time, a Son was given to the world to give Strength, Understanding, and many other things that had to be learned about so that human beings could exist in the proper manner, way, on the earth.

In the beginning of Creation, it was a time in which so much Divine Love was instilled into the mentalities that were available so that others could follow Divine Will.

I take you now to your time. Granted, it is a far distance from the time in the beginning of human life, but by stages, human beings have learned many important things, and have been given the strength to endure, to follow, and to excel in new things that would aid the human minds and bodies to progress in an advisable manner, way, and for a purpose that would give more to human life to live with, to live for, and to live by.

I speak differently, I know, but at times like these that I am able to speak Words to others who will put Them into script, so that others may see *the Importance of the Connection between The Divine and human beings.*

I will close My Words at this time, because there is so much to talk about and to help those now in the living state, to appreciate all that has been accomplished for the *Goal* of the Souls of human beings.

I bless you and I say, 'As you say your prayers and call on a Saint Here in the Heavens, you are heard, and the Saint, having lived the human way, knows how you feel and how much courage it took to say your words to One you cannot see but you know is there, and you know that your words will be passed on to other Saints, letting Them know of what occurred.'"
