

“**T**here are Many of Us present because of the necessity to help others know the importance of not taking things for granted. This means almost every subject of what you would think about physically, mentally, morally and with your conscience.

I know I speak differently, but I speak with Deep Concern, due to the fact that there is no protection for your Soul or your body or your mentality. There is so much casualness, indifference, and little purpose to how individuals consider dignity over indignity, fact over fiction, truth over untruth, dignity over a lack of dignity on every subject, on everything that is looked at physically, and everything that is spoken about mentally.

My Words may be very difficult for some to handle, or to agree with Me, but I do not speak in this manner unless I have the information necessary to cause Me to speak so bluntly.

Morality is not thought about in its full scope of understanding, in its full measure of what it means regarding subject matter on different areas, wherein an individual can partake innocently when the conditions or situation looks so natural or trivial in what it contains.

Many human beings of many ages and much intelligence are falling into *a trap of satanic abilities*. Some will not believe this. Some will not accept these Words, but I assure you, you live in a time wherein so many things are not looked upon for the necessity to be **morally correct, or refined, or suitable** to how you think, how you live, and how you understand **the Importance of purity of the mind**. The list is endless.

Sometimes when We see weakness, We try to put things in the vision of the one doing or speaking or acting out of context, in how they usually reply to partaking in something that would not be suitable to how they sense dignity, how they practice refinement, not just of a mental nature, but according to how they feel it causes them to respond physically, openly.

I could speak hours on this subject, because you do live in a time where the *enemy* of God and man is gaining ground through the application of causing individuals to *ignore* what is obvious, and accept what is *an excuse* for what they are thinking, speaking, seeing or doing.

My Words could be endless on this subject, and it saddens Me to even speak What I have just spoken, but the *enemy* of The Heavenly Father is working to destroy Souls.”
