

OUR HEAVENLY FATHER

“This *little one* I use to deliver What I Will others to know, to learn about, and to be able to recognize the Importance of being created in the human way of living, speaking, thinking, understanding, and many abilities to more fully understand and realize, *to be created as a human being is a Blessing beyond what it is thought or known to be.*

The Words I have just spoken are Words Important to Me as well as to those who will read Them; the *closeness*, the *relationship* possible for Us to have, to be able to understand so much in an equal manner, for a purpose of unification between Us, of all degrees of what human life was created for.

I speak these Words to help those who will read Them to understand that *the Gift of human living, human life*, gives human beings a *oneness with Me* that nothing else has.

I hold *the little one* tightly, because My Words feel so strong within her, and bear so much responsibility in how she understands Them. I chose *this little one* a long time ago, because there was so much I Willed others to learn about and to know. Her time with Me is many times how I am going to communicate My Will for others to learn about what I expect of them, what I encourage them to understand, and what I Will them to practice, to one day return to Me their Soul.

I have given to the world *one voice* for a long time, thus allowing so much to be seen and heard in a personal manner, way, and degree, but also through *the Written Words that verify* what I feel, how I think, and What I Will human lives' association with Me to be.

I could speak hours on this Subject each time I bring it to a point where I am speaking of it, but I use it only to the degree for those reading it, so it would not be more than they could handle mentally, or in their communication with Me.

Needless to say, I could speak hours and hours and hours and hours, on how I feel regarding My Love, My Communication, and My Will for human lives of all degrees of intellect; but, I assure you, that many times I instill the *Thoughts* and *My Sensitivities* regarding certain acts, that I automatically address the time to encouraging silent communication called '*thinking*'. This Gift to human life is a Blessing beyond what it is understood to be, because the privilege of thinking gives hope, understanding, and the ability to understand more indepthly when a subject has much credibility, and will give hope when it is needed.

I smile at *this little* one, and I say, 'Thank you' to her for taking the time to listen to Me, because now others will know What I Willed them to know, and hopefully, it will bring Us closer together when they know how I feel about them, and *My Closeness to them, without them seeing Me in a physical form.*'
