SAINT TERESA OF AVILA

“I am Saint Teresa of Avila. We All realize it is difficult for many, many people to believe this Gift of The Father’s Love, that so generously passes on to mankind Words of Direction that mankind receives from no other place.

The world is saturated with egos, with self-love, with a tremendous zeal to be important.

This Miracle of Divine Love has continuously Instructed on the Importance of the Soul that is in each human life. There is a great sadness for All of Us Here to see the downfall of **sound spirituality based on putting God First, love for God, and seeing God As The Ultimate Of All Things.**

Humanism is destroying many spiritual avenues and truths regarding the Importance of the Soul that each human being has within him or her since the moment of conception. It is sadness to see so many religious organizations become so negligent in regards to the importance of leadership in sound spiritual values, facts, helping others to understand the Importance of the Soul, and the Goal for which human life was created, to reach for Sainthood, to become a Saint.

So little is being instructed to the little ones; everything is materialistic, humanistic. There is so little that children can imitate because of the non-existence of prayer in a humble, loving way. **Mankind should look at spirituality in its degree of obedience to God’s Commandments, understanding these Commandments and the value they are to everyday living, morally, physically.**

In some places the Commandments of God are no longer the rules

that mankind lives by, or are they rarely mentioned as a guideline, even in churches throughout the world. It seems for the most part that those who preach, supposedly teach, and are open example to others, have a more prideful attitude than a spiritually oriented demeanor.

There is so much for mankind to think about and to see as downgrading what mankind was created for. It is important that children begin to learn that truth is important, values are important, prayer is important, and that all these things be on a keel of logic, soundness, putting God before any humanistic acceptance.

Sometimes We Saints say: 'What happened to mankind? Why has man reverted back to all the sins against the flesh that make mankind animalistic?' Even animals have more respect for their own breed than mankind has for human life. Sound values are being ignored, cast aside, and it is sad for me to say ***Sodom and Gomorrah was not as bad as this day.*** So be it."
