

REVELATION DELIVERED THROUGH FRANCES M. KLUG
ON AUGUST 26, 1996 AT 1:44 P.M.

SAINT CATHERINE OF SIENA

I am Saint Catherine of Siena. When We hear children play, We always search for the manner in which they are playing, the constructiveness in what they are doing, because at this time throughout the world, children are not being instructed on the Importance of the Presence of God wherever they are, whatever they are doing, and He is aware of everything they are saying.

There is so much human liberalism in regard to how children are directed. There is a great lack of sound direction in their learning, in their time with each other called playing. There is also a lack of moral instruction when they are dealing with those who are in charge of them.

The world is going through a very terrible, impure state of mankind literally ignoring God's Commandments, and as the adults ignore Them, children are not finding the example necessary for them to be able to understand the value, the truths, and the necessities that the Commandments of God protect them with.

A few of the Commandments seem obvious in their statements: Thou Shalt Not Steal, Thou Shalt Not Kill, but these are also diminished, leaving an individual or individuals to see one meaning to each of these Commandments. Each Commandment is extensive in its meaning, to the point where it covers every facet of human life to a degree, and in a manner easy to understand when it is explained in a normal way.

Many adults underestimate a child's understanding, so they ignore the fact that their presence, their actions, are instructors on all the Commandments of God. Then, of course, there are the words that should be elaborated upon so that the full meaning of each Commandment is fully understood. But I ask you: How many adults think of God's

Commandments on what they practice in their daily life, and how many of them truly understand the full measure of meaning in each one, or do they just see them in a concise, quick, learning format that does not cover one hundredth of the full meaning that each one means in regards to the behavior of human life, human beings?

This Gift of The Father's Love, this Miracle of His Divine Love, has in many ways opened doors to the minds of mankind, helping them to more fully understand the true significance of human life and its Goal for which it was created by God.

So much has been delivered and We see so much arrogance, not just intellectual arrogance, but jealousy over the Importance of What We deliver for the good of the Souls of all of mankind, all races, all types, degrees, and beliefs in God.

It is important for mankind to stop, think, and see the Value in What this Gift of Divine Love has intentionally delivered, to awaken all of mankind, all degrees of intelligence, all degrees and types of spirituality, all ages, informing mankind that **human life is a Gift of Divine Love** and that each human being must be thankful for it, and understand **there is a responsibility for this Gift, and it must never be taken for granted.** So be it."
