

OUR HEAVENLY MOTHER

“I am your Heavenly Mother. I come to speak today on some very important issues.

Mankind is acting against all that The Father has decreed to be honored. These are His Commandments, given to mankind to live by in every facet of life. When these Commandments were delivered it took a lot longer than man has spoken about.

When The Father handed to a man at that time the Rules for mankind for all time, they were spoken in great detail, putting much emphasis on the importance of human life, and the reason for these Commandments was so that mankind would know what was expected of him or her, and what was right over what was wrong, because of the nature of mankind, and the free will that mankind was born with.

It is sad to see such conciseness in each Commandment, leaving out the full meaning, the full direction that each one means. At the time they were delivered to Moses it took a great deal of learning, because the deliberateness in how they were delivered showed the importance of each one, and the extent of each one covered many areas that are totally left out as these Commandments are reiterated in your time.

Every home should carry these Commandments as a constant reminder of their definition, and the intention for these definitions, because the definitions are of the utmost importance, giving to them a fuller degree of understanding of why it is important to be obedient to them.

Every Commandment had a specific definition, extensive in its

meaning, leaving no part of human life out of the direction, because The Father, knowing mankind, the weaknesses of mankind, and how mankind's personality, ego, free will would interfere with the importance of The Commandments, gave The Father the reason for the full meaning to be heard by Moses, remembered by Moses, and delivered by Moses, because of the Souls he was leading at that time.

Time and man's innate desire to make everything concise has eliminated so much in each Commandment's Wording. It is an important mission to set one's goal on, and that is to see that each of the Commandments are placed in an open place to attract the eyes so they can be read, but remember, the full content must be shown, because to many who will read them, it will give strength, courage, stability, understanding, and a desire to follow them.

This is not impossible, this is not something that should be denied being accomplished. To teach mankind the full meaning of God's Commandments is a mission of love for God that nothing can replace, because obedience to these Commandments is the foundation for Sainthood. So be it."
