

REVELATION DELIVERED THROUGH FRANCES M. KLUG
ON MARCH 4, 1997 AT 1:09 P.M.

SAINT JOHN OF THE CROSS

I am Saint John of The Cross. There are millions of Christians throughout the world who do not fully understand the Greatness, the Beauty that is in Christianity. Christianity hands to mankind morality, hope, and love for the Goal God intended life to be.

There are millions of so-called Christians throughout the world. Many differ in their basic rules, ***but the Rules of God are the Rules for all of mankind, Christian or not.***

When certain men, even women, decide to plan out a new form of religion they do not always use the basic rules for how they approach what they profess to believe. They encourage many people to make an act of profession, an act of sincere commitment to what they are stating are the ground rules for religion, usually omitting the Ground Rules that God placed for mankind to obey, to follow.

Bible History is many times determined by the individuals who feel that they are competent in discerning the proper method that mankind should follow spiritually. They often omit important practices, involvements, and also, ***the Very Important Part of human life that mankind cannot see or feel***, but is conscious of there being Something within their mind that drives them on to understanding the full meaning of what is right, what is wrong. ***This, of course, is the Soul.***

There has never been so much Information given to mankind since the time the Apostles walked the earth with The Son of God. This Information contains the importance of human life, and the necessity to strive for purity in all things, mental, physical, and spiritual.

We hear many men, women rave on about what they interpret God to

be, and how others should feel about Him. They preach with their own ideas and ideals; also, their interpretation of what they have read and translated through what they call Scripture. They feel that if they word it, using Scripture as the foundation, the basis for what they are instructing others on, that this very fact of Scripture gives credence to what they are telling others to do, to be, to follow, to practice.

When The Son of The Father walked the earth, and others tried to imitate what He was all about, they too, oftentimes did not capture the Full Meaning of What He projected in What He spoke.

This Precious Gift of The Father's Love, called The Miracle Of Saint Joseph, is in many ways dictating in such a Practical, Logical Form of Words, the importance of man's understanding to practice what is moral, what is pure, so that mankind will use every part of his or her life, always remembering to follow God's Commandments to the letter, and to be example of all that is pure, moral, because in this way others will learn, others will follow, and others will become more God oriented.

In some places throughout the world there are men and women practicing fanaticism, ignoring the beauty, the strength, the value, that logic in practicing love for God allows each human life to be constantly alert to the close association man has to God.

So much has been delivered and spoken in so many ways, so that what one individual can fully understand, another way of understanding the subject is suitable to someone else, practical, and helps all types of intellect to understand, ***through this Miracle of Divine Love***, the importance of human life and the importance of each individual understanding that ***human life was designed to have a Goal, and that Goal was to return to God Forever***. So be it."
