

REVELATION DELIVERED THROUGH FRANCES M. KLUG
ON OCTOBER 2, 1998 AT 2:00 P.M.

SAINT JOHN THE BAPTIST

“I am Saint John The Baptist. Mankind has been instructed down through time, the Importance of the Gift, the Sign, the Purpose for Baptism.

At the time in which I lived, I was instructed to introduce this Gift of The Father’s Love, because mankind needed a sign, a physical sign to act with, upon, and use this sign, drawing attention to the importance of the purity of the human body, the human mind, regarding the Soul that all human life has at the moment of conception.

Today as I speak through a small voice, My Words are to be written and spread throughout the world, because mankind is abusing this Act of Love, Commitment. In the abuse of It, there is little attention regarding the Importance as to what the water means to the one receiving a Blessing with the water. As man knows water to be a cleanser, it has been since the time I was in the water, using it to cleanse thousands regarding the importance of purity in the mind, in the body, for the benefit of the Soul.

When the history of Baptism is spoken about, It is not thoroughly or clearly spoken in its full measure. The Sacred Gift of Baptism is to use the water to cleanse the mind, the body of all interferences that in different ways can affect what an individual practices, speaks, participates in.

Mankind ignores the beauty of attending to the Soul, so that the Soul is a constant awareness in a Form of Presence at all times, in the mentality, in the actions of the one in whom It has been placed since the moment of conception. Even in the earliest days of Creation, mankind felt the need to be clean in the physical form. It was not until the Baptism in the water that mankind began to realize that what they practiced mentally,

morally, physically, had to be erased in some form, some way, and strength had to be delivered to the mental understanding to keep this in mind at all times.

Baptism is to remind mankind of his or her association with The Divine, and that it is Important to the Soul to feel that there is no mark to identify impurity in any way, any form, any degree, for any reason.

My name is not often mentioned at this time in your day, but my time on earth was to alert mankind that at all ages, all environments, mankind should stop, think about their moral practices, and use a form of cleansing through prayer, through their actions, through their promises, renewing what they are, because of the Soul that each human being is responsible for at all times.

Mankind talks about blessing himself or herself in *The Sign of The Cross*. This practice is beneficial in many ways, and when it is practiced daily it is, and when it is consistent in its purpose, helping the individual to constantly remember that as he or she raises the hand to the forehead, it is to remind them that God is Ever Present in their mentality, and this touch alone says, 'Keep my mind clear, my God, pure, my God, as You Will it to be.'

When the hand is put on the chest it says, 'Let my heart beat according to Your Will, and constantly remember that I was created to one day return to You that Portion of You I am the custodian of, my Soul'; and as you cross from one shoulder to the next, it is to remind The Father that the whole body is dedicated to what is pure because of the Soul that resides within you. So be it."
