

OUR HEAVENLY FATHER

“I Am your Heavenly Father.

I have requested through this small instrument to deliver to mankind in detail, the Importance of My Commandments, so that mankind throughout the world will become aware of the full detail I meant for each one to mean for the life of an individual, so that this individual would constantly be cognizant of every act, every word, every thought, every deed, every association that involved one or more other men, women and children.

This task is monumental, because at this time in the time in which you live, very little is spoken about the Rules I gave for the protection of the Souls I instill in human life at the moment of his or her conception. ‘This task is not easy’; I heard this remark before. A man called Moses said, ‘Father, how will I remember every detail, every urgent remark that will benefit an individual’s Soul?’

I assure this little one I speak to, through, as I assured Moses a long time ago, My Directions will be complete. My Words will be distinct in detail, because mankind has been for a long time ignoring the conciseness in which he or she learns the Commandments.

Many Souls have suffered much due to this fact, that the Rules for human life were diminished to one word, one line, ignoring the importance of what each word means to the moral values, moral standards, moral integrity, moral benefits for the Soul that is the custodian of all that an individual partakes in, whether it be in speaking, acting, teaching, or learning subject matter that will be a great part of an individual’s way of life when one is alone, or one is with others.

My Commandments have been cast aside, due to the fact that mankind has become so preoccupied with an individual's interpretation of what is morally sound, morally correct, or immorally practiced in daily life. Morality is not a subject that is discussed in very many areas of family life, of friendships, or in religious circles.

So much acceptance of humanism based on the advancement of humanistic pleasures, ideas, ideals, interests, that it is important for mankind to now look back into time, and value what was delivered indepthly for the protection of the Souls that are Portions of Me.

Why did I place a Portion of Me into human life? So that mankind of all ages would understand purity over impurity, justice over injustice, love over hate, and yes, perseverance over a laxness of interest in the importance of a subject, or an act, or a feeling, an idea, or a goal.

As I speak strongly through one voice, I speak deliberately, because I have a Deep Love for this Creation of Mine, and mankind throughout the world, no language omitted, is to receive All I Am Preparing, and All I Have Prepared for them to more fully understand My Love, for this Creation of Mine bears a Portion of Me that I want returned to Me in a Pure State of Light, so I can accept It as I once gave It, because of My Love for mankind."
