

## THE SACRED HEART

**“I Am The Sacred Heart. It may be difficult for some who say, ‘A heart does not speak, so why do you believe this, how can you accept it?’ that I, The Sacred Heart, do speak more often than mankind is aware of, or conscious of.**

**T**oday is an important day in the lives of all of mankind, because as I speak, I, in many ways, am in every portion of the world guiding those who ask for help, encouraging those who need advice, to do the right thing.

**I** hear some say, if this is so, why can I not be seen? When a human being of any age has an idea, expresses the idea openly to encourage others to know a fact or to encourage hope, interest, or a feeling of well-being, it is obvious that the words spoken are logical, factual, encouraging, and full of worth.

**I** speak often through this Gift of Divine Love, many times in a natural conversation, many times in a formal conversation, announcing Who I Am. Also, another Gift of this Divine Love is that when a Saint speaks, giving to those who will read what is spoken, and hopefully pass on to others the content so others will benefit, innately human beings have an understanding of the logic, and the necessity to believe that mankind as a whole has never been created and left alone. There is always an innate feeling of a Closeness to a Higher Being, and this is through one’s Soul.

**A**t this moment there are thousands and thousands and thousands of individuals of all ages praying for advice, for courage, for strength, for knowledge, for help on many issues, all degrees of subjects.

**A**s I speak today, it is My Love for human life. My Words are to encourage prayer from everyone, because all words of this nature, manner, are heard, and there is help in some form, some way, not always in the manner an individual man, woman or child looks for, but help is never rejected, and sometimes the manner in which it is given is better than the request, when it is stated according to how an individual feels is best for them.

**N**o prayer is never heard. No act of love for another individual is never not seen or acted upon.

**T**oday as I speak, I speak with a Deep Love for those who innately want to help others morally, mentally, physically, spiritually, and yet find some rejection or dismissal of the communication. I want you to remember that no act that gives to another strength, hope, love, encouragement, is not seen or loved by Us.

**T**here are so many children throughout the world who are not being instructed on the Importance of their communication they have through their Soul, their mentality, with All of Heaven.

**A**s I Bless those who write My Words, I want you to know that every effort you put forth is Blessed by The Father in a way, a form, a degree beyond what you can comprehend it to be. So be it.”
