

SAINT JOHN OF THE CROSS

“I am Saint John of the Cross.

**T**oo little is being spoken about regarding the importance and responsibilities that each human being is the custodian of. By custodian, I mean, responsible for.

**T**oday, throughout the world the insolence and the bragging regarding one's own interpretation of the so-called 'facts of life', in many ways are desecrations to the Will of The Father.

**A**sk yourself: Do you fully understand the full meaning of each Commandment that The Father decreed for mankind to obey? There are so many throughout the world, men, women and children, who ignore the Rules that were given for the physical, mental and spiritual portions of human life, covering all facets of human nature, human abilities, human intelligence.

**T**oday as I speak there is so much disorder amongst all backgrounds. The same question can be asked of three people, an important question, and all will have an opinion. Rarely will they have an honest conception of value and the full meaning in what the words mean, because excuses are the first step to acknowledging a fact. Moreover, how many men, women and children are cognizant of being able to speak openly to another one about how they feel regarding the Importance of the Commandments of God? Rarely is this subject brought up, or even thought about.

**T**he laws of a Government are feared when one is apt to be able to be making a mistake that will cost them financial loss, but other laws of the Government, when it comes to the life of a human being or the moral values of a human being, are sparse in their full measure, meaning,

concept and correction.

**S**o much has been spoken through this Gift of The Father's, enlightening mankind of all ages, encouraging mankind of all ages to realize and to value the importance of what human life was created for, to reach for success, a Goal beyond what human life can offer. ***This Goal is well-known, but little respect or attention is placed on It and, of course, the Goal is Sainthood.***

**T**hroughout the world all ages of human life want attention, want to be important, want to be recognized by others as being above and beyond what is normal. ***I shout to mankind, 'Think of your Soul and what a Beloved, Blessed Gift It is. It is above all human abilities.'***

***Remember what I have spoken, for It is Truth.***  
So be it.”
