

REVELATION DELIVERED THROUGH FRANCES M. KLUG
ON OCTOBER 22, 1999 AT 1:07 P.M.

SAINT ALPHONSUS LIGUORI

“**I** am Saint Alphonsus Liguori. The world has, in many ways, many times, been saturated with the enemy’s radical indifferences to all that is good, pure, important and necessary.

Today as I speak, I speak with a deep concern for all human life throughout the world. In so many ways there is great indifference to what is important to the Soul that every human being is the custodian of.

We hear some say: ‘What is a Soul? I do not see It, I do not feel It. Why should I care about It?’ This lack of understanding, this lack of Faith in a Supreme Power is a sadness to All of Us, ***because it is important that human beings understand they are never alone, they are always in the company of, and accompanied by, a Portion of Divine Being they cannot see, feel or hear.***

This statement may be difficult for all degrees of intellect to understand, but it should not be impossible. First of all, who holds All Power over All Things in the world, outside of the world, and this includes all dimensions of human life, and all degrees of other living matter or things? ***Why it is so difficult for so many to believe in a Supreme Power is a sadness to All of Us, because this Supreme Power is The Creator, The Dispenser Of All Things.***

Human life, in many ways, was created with some abilities that can and could be compared to The Creator Of All Things: the ability to give birth to one like themselves, the ability to teach, instruct on many facets of necessity, many factors of human life that are taken for granted, and yet, there has to be an innate belief or ability to rationalize all the factors and facets that human life copes with, tolerates, and is a major part of, because of the lineage of human life that is taken for granted.

A child is told that he or she was created by God, and later they learn that two people were involved in their creation, and it is referred to as heritage, belonging and, of course, the natural course of human life in its reproduction.

So Many Saints have been allowed to deliver through this Gift of The Beloved Saint Joseph, Information, Direction regarding human life's responsibilities, and what it was created for. Needless to say, Each of Us Who speaks could talk endlessly on given subjects, but it would not be practical, because the human minds and abilities of those who take Our Words, put Them into script for others to read, would not have the strength to continue endlessly.

Let us go back in time to when the Commandments of The Creator of All Things were given to one man on a mountain top. Many stories have been written, but the full story could never have been written, because the multitude of descriptions regarding each Commandment that were instilled into one mind would be impossible, because of the lengthy descriptions that each Commandment defines.

As I hold the little one through whom I speak, as I speak the Words to be written, the Power I am automatically takes a toll on the human body, because the Power that All Saints stand in is beyond what the human mind can comprehend. That is why this Miracle is so Important to all who live now, and all yet to come.

There is no place throughout the world that so much Information, Direction, Hope, has been given for a very, very, very, very, very, very long time.

Today as I speak, I speak with a deep concern for all who live at this time, and those who will be alive for a great number of years to come. There is so little sound instruction being displayed or directed for the sake

of the Purpose for which human life was created.

It is sad for Us to hear so few truly understand the Connecting Link of Divine Love that all human beings are given at the moment of conception, and that is called the Soul. ***Without the Soul human life would have no goal,*** and if all who read this will but think how important a goal is to human life on many things, then should they not concentrate on the Goal for which they were created — ***to become a Saint?***

I beseech those who read these Words to concentrate on the Importance for which they were born — a Greater Life, a Beautiful Goal, to return to The Creator, one's Soul. So be it."
