

REVELATION DELIVERED THROUGH FRANCES M. KLUG
ON NOVEMBER 16, 1999 AT 1:08 P.M.

SAINT ROBERT BELLARMINE

I am Saint Robert Bellarmine. This Gift of Divine Love The Father has so generously given at this time, instructing in so many ways on the Beauty of Sainthood, the Importance of Sainthood, and the Love in the Goal for which human life was created, to one day become a Saint and be with The Father Forever, in a manner and in a way different than the earthly way, but a way of beauty, a way different than any human can conceive, perceive in the human way.

Today as I speak, I speak with a deep love for human life, for as I walked that way I was privileged to be able to understand in an in-depth manner, degree, that as a human man I had a Goal to reach of a Greater Degree.

It is sad to not hear those who are yet in the human living way, ever think of what is to come, and the importance of how to pray for strength in moral ways, giving hope, trust in the future that, though it is different, it is of the highest degree for the Soul that any human being can reach for.

Death is not the end. The human body was not destined to live forever in the human form, but the human body and mind were given insight, intellect, and an innate understanding about so many things, the desire first of all to live in a healthy manner, way; another desire, to reach a Goal not able to be seen, and yet an innate understanding of the presence of the Goal, because intellectually, no matter what degree an individual is able to obtain, basically each human life understands there to be a Goal for life other than what they practice daily.

When The Father permits One of Us to speak it is a privilege beyond what I can tell you, because as a Saint it is Our desire to instruct those yet to become Saints to better understand, to more fully comprehend that

human life is the beginning, not the end, and human life has the privilege to one day reside with The Father in a manner, a way different, but the Ultimate Goal for the Soul, that is evident in human life knowing there is a right, there is a wrong, there is truth, there is untruth, there is Something that constantly says there is a Creator that Exists, that is beyond human understanding.

This Miracle The Father has given to the world constantly instructs on the Importance of the Soul, and that each human being has the privilege to be given a Soul at the moment of his or her conception, thus assuring the individual that human life has a Purpose, and through human life there is a Goal. This should be understandable, because even the smallest child desires to achieve in some way, some form, some manner, something other than what he or she has or wants.

Today as I speak, it is with deep love for human life, for I, too, once walked the role, and it is through The Father's Love I am able to speak in Words understandable, encouraging those who are yet in the first stage of learning what a privilege human life is, that one day they will be judged by their conduct, their purity, their love for the Soul.

I could speak endlessly on this subject, but it is important that I stay within the limits of what Others have given on the importance of human life, the Purpose for its Creation, and the Goal for which it was Created. So be it."
