## SAINT JOHN THE BAPTIST

**I** am Saint John the Baptist. Rarely have I spoken through this little one, announcing who I am. The task The Father has given to one small child is a task greater than human beings can understand it to be. It is like walking on both sides of the fence at one time. The one side is real, the other side is a place of total acceptance of What The Divine Wills to be.

**T**oday as I speak, I speak with great concern for men, women and children, because there is so little real understanding regarding the Importance of What an individual is the custodian of. ***They hear the word, but they cannot comprehend that they are the custodian of a Spirit of Divine Love, real in every way, yet not able to be seen. Above all creations, human life has the Greatest Gift, and that is to one day return to The Father through the Soul one is given at the moment of his or her conception.***

**W**e oftentimes smile when we hear two people speak affectionately on their association with another individual. They call themselves soul mates. Ask yourself: Was it logic that brought this statement to the minds of men, women and children, or was it an instinct in human beings to use the word in this manner? The word I refer to is the 'Soul'.

**T**he Father has allowed so much to pass through one voice for millions upon millions upon millions upon millions upon millions, to one day understand what a close association The Father is to man; human life to God.

**T**oday as I speak, there is a sadness when I see so much outside of this room taking place, allowing Souls to be vulnerable to

all that is unchaste, impure, and yes, abnormal. Mankind, though there are many who have been instructed on religious facts, are ignoring all the facts, deliberately not remembering what was beneficial to their way of life, to their future after life, and the importance of what human life is responsible for.

**M**uch Love passes through this Gift of The Father's Love for all ages of human life, for all creeds that men decide to choose.

**T**oday is a special day, because before this time of My Words to you, the little one through whom We speak received many Directions, not fully understood by those she spoke to, but to her obviously Directions that must never be passed off, cast aside, or not perpetuated in the degree, the manner, the format, the way, for the purpose They were intended.

**M**en, women and children do not have the ability to perceive the Importance or the Depth of Divine Love for human life. That is why this Gift of The Father's Love was given a long time ago, instructing constantly, deliberately spoken so that It had to be written, so no one could say they could not remember What was said.

***Much Love passes through this little one by All of Us because it is The Father's Love that has given to the world of human life, Direction in so many ways, flawless in every way, because as each human life is the custodian of a Portion of The Creator called the 'Soul', It is a Gift beyond what human life could ever relate to, but innately it says, 'I am close to The Creator because of His Love for me, and the reason for which I was created.'***

**M**ake each day important through your manner of living, how you think, what you say, how you act, what impression you make on

others because, you see, unknowingly, each human being responds to what the other one does, and also imitates. So be it.”
