

REVELATION DELIVERED THROUGH FRANCES M. KLUG
ON DECEMBER 21, 1999 AT 3:10 P.M.

SAINT THERESE OF LISIEUX

I am Saint Therese of Lisieux. When I was requested by The Father to be a part of announcing this Gift of The Father's Love to one child, one woman in the world, I found it a privilege beyond what a human being can understand a privilege to be.

In The Father's Love for human life, He oftentimes allows so much to be instructed on the importance of human life, His Reason for creating it, and giving to it so many talents, so many abilities, and so many ways to aid others in becoming a Saint.

We hear men, women and children automatically say, 'God Bless you' when another one has to cough, sneeze, or is choking on something. This is an immediate reaction, calling on The Creator to help at a time when it is needed.

Today as I speak to you, I desire only what is good for you, helpful to you, and will help you become a Saint. The Father is present at every moment, but oftentimes an individual man, woman or child has no concept of the Closeness he or she is to the Divine Way, Divine Love, Divine Power that exists within them, because of the Soul they are the custodian of from the moment of his or her conception, until the moment comes when The Father has It returned to Him to be judged.

So little is being instructed on the facts of life regarding human relationships with The Creator Of All Things, the Designer of human life, and the One to which human life must return as a Saint after having the privilege of living with millions of individuals, men, women and children who also are the custodians of a Soul, a Portion of The Creator.

We hear some say, 'If I have a Portion of The Creator, my God,

within me, why can I not see Him?' Seeing the Soul would, in many ways, be an uncomfortable way to live because it is important that belief in the importance of human life covers many areas of human life, and the Soul is a constant companion for someone to understand as a strength, as a communication between one's self and The Creator.

So few theologians truly understand the magnitude of human life, because in working daily with individuals they tend to acquaint themselves more with the humanistic values, problems, concerns, initiatives, practices of the human form of life, thus not always thinking about the Spiritual Portion of human life that all are the custodians of, himself included.

There is an expression, 'If you cannot see it, it cannot be there.' That is not always true in the full concept of one's Soul, because the Soul, as a Portion of human life, constantly instills in the individual in whom It was placed at the moment of conception, to remember purity over impurity, justice over injustice; also, love for The Father over love for the enemy.

Today as I speak, I speak with deep love, a sincere love for human life, because in it there is a Goal that no other living matter or thing has the privilege of, and that is to return to The Father one day, that Portion of Him that He implanted at a given time, giving to human life a Purpose, a Goal, a Strength, and The Divine Love because of a Soul, a Portion of Himself, to give all that would be needed to one day become a Saint. So be it."
