“RESPONSIBILITY”

“**A** privilege, plus it has many pluses to it, because if the *responsibility* is structured to good, or for the betterment of people or situations, then *responsibility* gives purpose to our life, for which we should be thankful.

A plus is definitely the mental and physical motivation that keeps us alert, active, involved, interested, interesting.

The challenge in *responsibility* is not always comfortable or endearing, but it does give strength to our very existence.”
