

TEACHING DELIVERED THROUGH FRANCES M. KLUG
ON OCTOBER 19, 1993

“LIFE HAS AN ULTIMATE PURPOSE”

“Sound logic not only alerts us to the realization, the fact, that human beings have a Gift beyond all other living things, and this Gift is the Soul.

Our innate sensitivity to realizing there is a Creator of all things, gives hope to there being more to our life than just our existence on earth for a period of time, then all things brought to an end, closing out the fact that we ever even existed.

Logic tells us there has to be and there is more to human life than just a period of time that we consider life as we know it to be.

Logically, there is something more to look forward to. Our Faith tells us Sainthood is the Ultimate Purpose Designed by God for our Soul.”
