“IMMORALITY IS VOID OF HOPE”

“All of the immorality on television does not make it right, because people have the nerve, the desire, the boldness, to openly brag about their foul immoral practices. Their brash remarks do not justify the sins they so brazenly describe and laugh about.

Common sense, logic, reality tells us, that no matter what, which, or how, we have used one or more of our senses to sin, our Soul is affected by it.”

“HOPE IS A POWERFUL TOOL OF DECISION”

“Hope has strength in it that surpasses anything physical. Just a thought or an expression such as:

I hope I get well.

I hope I pass the course (test).

I hope I can pay my bills.

I hope I can buy a car.

I hope I can help my family.

I hope what I did was good.

I hope what I said gave hope.

Hope should be an unbreakable endless tool in our nature and will, for good to happen.

Hope has a tremendous impact in every facet of our lives.
