

SAINT STANISLAUS

**“I am Saint Stanislaus.**

**The Father hands to mankind all the things that are necessary for mankind to exist. He hands mankind the sun, the moon, the stars. He hands mankind water, He hands mankind the way to grow food, to nourish the body. All these things are taken for granted, because mankind does not look beyond where all these things come from; they are natural to life, they are necessities.**

**This Gift of The Father’s Love, This Miracle that has instructed on so much, in so many ways, for that Other Part of man, the Soul that is a Portion of The Father, must be seen as It truly is. The Soul is a Gift beyond what human life can measure, because the Soul, as a Portion of The Father, automatically says to mankind, ‘Nourish the Soul and live with Me Forever.’**

**Children are not being taught the Importance of What they have within their body. Children are not being instructed on the importance of truth, on the importance of purity of mind and body. Children are not being instructed on communication with The Father. Children are not being taught the Importance of human life and for the Reason it was created.**

**It is sad when someone sees someone who is blind in the eyes, because blindness is a tremendous loss in many ways, for many reasons. It is a darkness beyond what man knows darkness to be. What mankind does**

not realize is that sound Spiritual values and sound Spiritual standards, and purity of mind, body and Soul, have been in many ways set aside, ignored, as necessities in everyday life. I ask you, 'Why?' Surely there has to be some answer to My question.

The world, in many ways, practices so much diabolical actions, always thinking of the humanistic side that they feel is beneficial to their feelings, or their monetary measures. Humanism, in many ways, has cast aside the Importance of what human life was created for. Some reading This Statement will not truly agree with It, because to them the human part of them is what they cater to and they please more.

It is important that mankind, all races, all colors, all creeds, all cultures, all degrees of intelligence, read All that We have passed through This Miracle, instructing mankind in a Personal Way on the Importance of human life, the Generous Gift The Father gave to man in giving human life a Soul.

It is difficult for Us to understand why there is not more taught about the Soul, why there is not more Importance put on the Soul, when We hear mankind, many ages involved here, say that: 'The Commandments are Things of the past. They were given thousands of years ago. We live in a modern age.' Human life has not changed. Human life is as it was created, and still has the Goal of the Soul within it. Human life, without a Soul, would be like all other animal life.

Logic should tell mankind that as man seeks safety in all facets of life, he should seek safety

**in the Life that waits, because as the Soul is the recipient of all that the individual does, says, takes part in, mankind should be constantly aware of the responsibility that each one has for the safety of That Portion within him or her, that logically relates to What The Father Is. So be it.”**
