

SAINT PETER CANISIUS

**“I am Saint Peter Canisius.**

**Mankind is involved in so many areas of learning, and many of these areas are not supportive of the individual learning the right subjects.**

**Mankind says, ‘I am going to school; I love education,’ but what he or she many times omits is to look into the subject matter and what it contains; that is, is it not just practical, but is it beneficial to one’s mentality or Spiritual means?**

**Mankind has been Blessed with a desire to learn, to teach, to practice, but mankind has also, in many ways, not restricted his or her learning to what is morally sound, morally pure, morally acceptable to God for the benefit of an individual’s Soul.**

**There is so much casualness practiced by so many men, women and children throughout the world. In this casual acceptance, they omit looking for the in-depth meaning of what they are entering into or are being involved in.**

**The Father has given to the world a Gift, called ‘*The Miracle Of Saint Joseph*’, and This Gift is One in which The Father has allowed so Many of Us Saints to speak on many subjects, because there is no place throughout the world that is so thoroughly dedicated to the whole person, which includes the Soul of every individual.**

**There is much education available to mankind that is harmful to the Spiritual advancement of an individual or individuals. It blocks out anything that might put a different inflection on the subject; by this, I mean more moral, more beneficial spiritually to the individual or individuals.**

**The Father has given a Miracle of Instruction, Direction, pointing out what is important to every individual living human being, because life is a Gift of Divine Love, and within it there is a Gift of Divine Love. It is sad that this is 'the only place' that mankind is being instructed so fully, so totally, on the Importance of the Soul that man, as an individual, is accountable for, and that this Soul must be protected at all costs, because this Soul is a Portion of The Father, and will be That Part of an individual life that will be Judged at a given time, representing the individual in whom It was placed at the moment of conception."**
