

**SAINT BONAVENTURE**

**“I am Saint Bonaventure.**

**Human life theorizes on all subjects, especially when they are unsure of a definite meaning, purpose, goal, or the subject matter.**

**Each day through This Gift of The Father’s, allowing mankind to learn so much about The Divine, it is sad to hear doubters, chastisers, and many who feel superiority to the subject matter, defining It unjustly, incorrectly, most times out of jealousy, or who have the habit of demeaning what another individual is capable of.**

**It is sad for Me to say these unkind Words, but it is time for human life to awaken to the importance of how one thinks, acts, criticizes, empathizes, and question whether it is jealousy, superiority, or an innate negativism, demeaning because it is someone else, not they, who have the courage, the ability, the integrity, or the right to speak What passes through This Miracle, constantly instructing for the Purpose of the Soul of millions of men, women and children throughout the world.**

**As I speak, there is a sadness in how I feel, because This Gift of The Father’s, allowing so Many Saints to speak on Important Subjects, Reasons, Directions, Clarifications, in so many ways, is being cast aside deliberately, instead of being thankful for What is spoken by Someone chosen by The Father to speak What He Wills mankind to know.**

**As My Words flow today, I am also seeing in other areas, so much immorality, so much moral corruption, hate and ugliness, deliberately being used against all that is pure, all that is beneficial to one's own Soul or the Souls with whom the individual is close to.**

**The world is in great turmoil morally, mentally, psychologically and physically, because of the lack of Faith in the Important Realism of the True Belief in a Divine Creator.**

**The world has been Blessed with This Gift of Instruction, and yet We see thousands deliberately ignoring It, because to accept It would mean they would have to change their behavioral patterns, their mental thinking on many subjects, and use more care in their moral values and standards, plus express more dignity in their association with other human beings.**

**I end what I have spoken with a sincere desire, a hope that All that has been delivered through This Gift of The Father's Love never stops traveling, and when I say 'never' I mean 'never', because as human life needs It now, human life will always need This Gift of Divine Love that so Many of Us have the privilege of delivering Word for Word. So be it."**
