PREFACE

These “*Stories From Heaven*” could not have been given to the world at a more appropriate time than now. The world is in a terrible state of corruption and confusion politically, religiously and socially. Honesty, modesty, genteelness and morality seem to have been eliminated from our way of life, at least in effect if not consciously. However, God has given the world a Miracle it needs.

On July 28, 1967, *The Miracle Of Saint Joseph* was formally announced to a True Mystic. God had chosen a woman to give us the sound direction, hope and example we need. It was not the first time God had chosen a woman to accomplish His Purpose, always for a specific task in a particular time. This True Mystic for our day is Frances Marie Klug. She resided in Southern California as a wife, a mother, and a grandmother until her death on November 15, 2009.

In This *Miracle Of Saint Joseph*, Many Saints have come forth to speak through Frances Klug. These “*Stories From Heaven*” are just a few of the thousands of Revelations received through her. Very often these

Revelations were preceded by extensive Teachings which time and space did not allow us to put in print. However, some of these Teachings will be found in several of the many Volumes of "*Stories From Heaven*".

In these Revelations The Saints refer to Frances as "the child", "the funnel", "the spoon", "the instrument" and "the little one". God made her our Spiritual Mother. For many years now, because of this fact, she has been called "Mother Frances", or simply "Mother". Heaven also refers to people of all ages as "children" and emphasizes time and again, This Miracle is for people of all races, all colors and all creeds.

For someone turning the pages of these "*Stories From Heaven*" for the first time, they will easily recognize the sound logic and sound direction the Messages contain. Mother Frances heard the Words with the Ears of her Soul, and would repeat Them aloud when she was told to do so.

This Teaching Miracle is a direct parallel to the time Our Lord walked the earth. He did not loudly proclaim to everyone, "I am The Son of God." He taught in a quiet manner, simple, extensive, but always detailed

in repetitiveness, instilling in those listening what He wanted them to remember. He taught in parables, short, simple stories containing moral lessons. He knew men could more easily understand and remember the point He was trying to make this way. His “Teaching Stories” pertained to everyday living, practical matters, and how to become a Saint. He gave hope through these stories. He gave example.

Now in our time, God is once again giving us “Teaching Stories” through Saint Joseph and His instrument, Mother Frances. Through her, in a quiet, unassuming and genteel way which appears so “natural”, mankind is again being taught the Purpose of life, and what God expects man to be like in his daily living. People feel hope in these Teachings, Example always given.

Two major Revelations of significance have been given for us in our day. Our Heavenly Mother is Part of The Divine, and Saint Joseph is truly The Holy Ghost. These should not bring an immediate rejection, but should pique our curiosity and interest.

Our Faith in God is based upon many mysteries. Whether it be The Holy

Trinity, the Incarnation of God, or The Holy Eucharist, men strive to understand These, trying to grasp a small glimpse of the Beauty of the Truth They Are. These mysteries also pique our imagination and interest. However, even though we know God revealed these mysteries to mankind and we accept them in Faith, they still remain just that, mysteries.

One has only to look at these “*Stories From Heaven*” to see the value They are, and to feel the hope They instill. No man can logically deny purity of thought when it is so obvious. No man can deny purity in direction, when it is based on sound morals, sound values, sound standards. Do not be blind to truth. Skepticism is for people who are unable to see the truth of a matter or situation, and many times skepticism drowns out purity because it is full of ego and pride in one’s self. Skeptics find it an easy out to disclaim truth.

There is no doubt that it takes time for such Phenomena as This Miracle to penetrate even those minds who feel they are capable of discerning such Phenomena. We must not be governed by purely another man’s determination, but we must understand that logic, sound reasoning and purpose must be the criteria of our Faith in God.

PLEASE READ

In some early volumes of "Stories From Heaven", many Revelations describe edifices to be built on Saint Joseph's Hill Of Hope. As just one facet of The Miracle Of Saint Joseph, God invited men of all races, colors and creeds to participate in building a "City Of God". Every building, chapel, bridge, shrine, garden, amphitheater, and even a hospital and a research center, to be included in this Magnificent Project, would be designed down to the most minute detail by Heaven.

This City Of God would be a place of great beauty for men throughout the world to visit, to gain true spiritual strength and to learn firsthand that which Heaven wants all men to know.

Much to the great loss of every man, woman and child in the world, this City has not been built. Innumerable obstacles were placed in the way of Its completion by those who would have benefited the most. Not enough men volunteered to return the gifts of their time and talents to God. Not enough people came forward with the money needed to participate in God's Plan in a monetary way. Donations became less and less, because the men in the Church said, "Don't give." They discouraged people from participating.

For many years, Mother Frances and a handful of volunteers made every effort to overcome all opposition to men's lack of wisdom, to build this City for God. However, we are not at a total loss. The Sound Teaching and Sound Direction given by Heaven in the many volumes of "Stories From Heaven" continued through the years, and will benefit people everywhere for many generations to come.

In the future, if the hearts and minds of men change, the world will one day see the Beautiful City Of God.

**All Revelations are delivered
spontaneously and continuously
as witnessed by all those present
at the time.**

OUR HEAVENLY MOTHER

“I am your Heavenly Mother.

At this moment, throughout the world there are many, many, many babies being born, not all to happy homes, not all truly to be cared for by those with whom they will live.

The innocence of a child is many times ignored, and the child, as a helpless human being, is subjected to the surroundings and those who are in charge. This, needless to say, has an effect on this new baby, this new living human being that will remain with this child to a degree, for the remainder of his or her life. Throughout the world this is occurring, this lack of understanding the Importance of a human life, its needs physically, mentally, morally. Oftentimes those who are the ones involved in this life, physically, morally, ignore responsibilities that are immediate, and the child is a victim in so many ways.

The Father has given to mankind much Love through This *Miracle Of*

***The Beloved Saint Joseph*, alerting and tutoring in a Divine Way, the Importance of all human lives and the Association human life has with The Creator, a Connecting Link unseen but obviously present. The Father has given to the world much Instruction through a multiple Number of Saints, and also has addressed an Important Subject regarding The Beloved Saint Joseph.**

It is sad when We hear rejection or outright lies, concerning This Gift of Divine Love. The lies are emanating from those who do not want the responsibility to understand that the Presence of The Creator is Constant, Consistent, and Everlasting, and This Presence has handed to human life the responsibility of caring for his or her own human life, plus all those with whom they come in contact.

We hear so much dialogue, repetitious, by individuals who truly do not see the importance of instructing others on What human life is the custodian of, or what the Goal is for the Soul of each human being in their care or just in their acquaintance.

We hear children of all ages say, 'Say a prayer.' The one hearing this remark says, 'Yes, I will,' but **We** do not always hear that prayer, because the individual says 'Yes' to please the other person but ignores the responsibility, leaving it up to others to be committed to this request.

Let Us walk through the world today, Hand in hand. Let **Us** together go to another country. You cannot speak their language, but as I hold your hands and **We** listen to what the individuals are involved in, accepting, practicing, it might be shocking to **Us**, because there is a chance that **We** will be subjected to the decay of morality. How many people throughout the world, men, women and children, before committing any act that involves themselves with someone else, stop and think, 'Is it, will it be pleasing to God, and will my Soul be pure in the manner **The Father Wills It** to be when I am finished here, when I have participated in physical association, moral association, with this person or several other people that might be there?'

Ask yourself: 'How many times before a decision is made, do I consider

this to be pleasing to God? Will my Soul be affected by it or will my Soul be marred by it?' How many men, women and children ever stand to consider all these things before they make a decision to get involved, to participate in an act or a situation that is not truly clear to them in its content, or what results are intended?

The Father has given to the world a Special Gift at 'this time', a Gift of Instruction, encouraging all of human life to think rationally, purely, because of the Soul that they are responsible for that was placed at the moment of conception. The Soul can be the innocent victim of the personality, the nature, the habits of the one in whom It was placed. As the Soul is placed, the Soul is Innocent, It is Pure. Much depends upon the individual that is conceived and becomes knowledgeable on what is right, what is wrong, what is pure, what is impure.

A very long, long time ago when mankind was first created, the Creation was much greater than History declares it to have been, and it would be difficult for mankind to fully understand how mankind truly came about, and how many human beings

were involved in the first Creation of human life.

In so many ways individuals have drawn up a schedule, a format, a means, a way, to make things sound logical. The human mind innately wants things to be placed in a logical form, for more understanding and more ability to be able to comprehend according to the human mind, the reason, the purpose, for the results to be also at the end.

Today as I speak, I speak with a Deep Love, because it is so innate in human life to want to understand the beginning of how all was created. There have been many stories down through time, in man's terms, through experience and through each one's ability to be able to discern why certain things had to take place for other things to happen.

Well, We have come to several thousand years later in time, and mankind is still learning about the Importance of human life, and also, some of mankind is still interpreting things in a form, formula, manner and degree conceivable to them. Some of it is good and some of it is not

reasonably right, but as The Father has given to the world This Miracle about The Beloved Saint Joseph, concerning His True Position, His True Place, it is sad to see so many reject Him as The Holy Spirit of The Creator, because It has never really been discussed in this manner, way, degree, before 'this time'. If It was, It was dismissed because it was not feasible to see It in this Form of Greatness that It is.

Needless to say, I could speak volumes at this moment, but as I leave you at this time, it is only through My Words, because I am always close to human life. But as you cherish every moment and as you live each day according to the time in which you live, and the circumstances in which you are used to according to this time, your ability to love God in a deeper mode of understanding, your ability to stand up for what you feel is important for your Soul is the Greatest Gift that mankind has, because the body, as it is created, lasts in this creation only a given time, and yet each human life remains Forever through the Soul.

As I leave you, I bless you with a Love beyond what you know love to

**be, and I bless you with Three Hearts,
Those of The Holy Trinity. So be it.”**

SAINT CATHERINE LABOURE

“I am Saint Catherine Laboure.

The Father chose *a small voice* to be heard throughout the world. Some would say, ‘How could *a small voice* be heard to such a degree?’ Let Me remind you: Many times when you whisper quietly, there are others present who read lips, or have great hearing power when it comes to sound.

Let us now together put into writing Important Words that one day will be spoken by many different voices, some very loud, some in a whisper, because the Words are of such Value, such Interest, and profound in Their Meaning.

The world has been Blessed by This Beloved Gift of The Father’s through *one small voice*, and yet when He Commanded the Words be written, put into script, it showed to the world that His Words would be seen, also heard by those who would have the Faith to understand Them, and the courage to teach Them verbally.

When it was announced that The Beloved Saint Joseph was and is The Holy Spirit of The Creator, some accepted immediately this logical Statement of Fact; others doubted, but not always because they did not believe, but because they were taught differently.

Mankind, many times, is inclined to read rather than hear someone speak, and what is written is oftentimes not beneficial but it is more to human thinking, because they can read in a quiet way, privately, and store into their minds what they have read, because the spoken word is not always remembered indepthly. Millions of Words have been delivered through This Gift of The Father's Love, giving to mankind Proof, Facts, that would not be available if the Words were just spoken.

For Each of Us Who speak and ask Our Words to be written, We find it a Gift of Divine Love beyond human understanding to be able to partake in the Greatest Teaching Miracle that The Father has allowed to be for thousands of years. It is important that mankind of all races, all colors, all creeds, read All that has been delivered through

This Gift of Divine Love, addressed to mankind through so Many Saints, plus through The Holy Trinity.

At a time in the History of human life that mankind is walking a tightrope of theory, guesswork, based on the imagination of so-called 'leadership' of others, The Father is handing to the whole world of human life What is important, and what a privilege human life has, is the custodian of.

Ask yourself: If you walked up to a stranger and said, 'My Soul just asked me to talk to you,' you would be considered a fool, would you not? because human beings, human life, human intentions, cannot reveal to mankind in general, all that human life is about.

When one goes to a medical man or woman, the one they speak to thinks totally of the body, human parts, human intentions, human fears, human needs. They are not always one thousand percent truthful, or capable of discerning what is needed, for whatever the individual is concerned about. It is a vocation based on knowledge of the body, and this vocation is very valuable to human

life, because in many ways, without it mankind would not be able to survive physically when something of a major degree affects the human body.

Now let us look at a More Important Portion of human life, the Soul. Many times the Soul is abused because of an individual's abuse, degrading immoral values, standards, practices, associations. The Soul is victimized more than mankind realizes, in many ways, sometimes what another individual says, does, permits, encourages.

At This Time in the History of human life, The Father has chosen a Gift to be handed to all of mankind, a Gift encouraging human life to understand that He created it for a Greater Plan, and that human life is gifted with a Portion unseen, never heard, and yet obviously present because, innately, human life knows right from wrong, good from evil, and that human life has a Goal. If there was no Goal to human life, mankind would be in a distressful mode of life all the time. The Goal is present even though it is not fully understood, but when an individual has a choice of decision, he

or she automatically knows whether it's pure or impure, right or wrong.

The Beloved Saint Joseph is at 'this time' in your time, being shown for the Greatness He Is. Logic should have told mankind long before this that He was not mere man, because logic also says that as He was 'The Foster Father of The Son of God', and called to be 'The Husband of The Mother of God', what more could have been spoken to show mankind what a Great Gift The Father has given to human life, the Soul of human life that no human being is born without. It is a Spirit of Hope, Love, that is to return to The Father. It gives to mankind a Special Place in the world, a Place for mankind to reach for, called 'Sainthood', and as a Saint, to assist The Father in some form, some way, some manner, to help others understand that human life is a privilege, a Gift from The Creator to man. So be it."

SAINT ALPHONSUS LIGUORI

“I am Saint Alphonsus Liguori. Earlier on this day I spoke on many subjects to alert, to enlighten, and to cause you to remember that when a Gift of This Magnitude is presented to mankind through *one voice*, it is sad to see so many men and women try to ignore the Validity of It, the Purpose for It, or the Great Gift It is, instructing mankind by so Many Saints, let alone The Father Himself.

The world has been Blessed abundantly by This Gift of Divine Grace. It is sad for Me to say one thing: that mankind ignores what Grace is to the Soul. It is Strength, It is Hope, and It has much purpose to the dignity of the one who is the receiver, and to the Enlightenment that the Instruction gives those who hear the Words direct, and then those who read What has been spoken.

At this moment it would be shocking for you to know how many sins are being practiced throughout the world, impurities of the mind,

of the body, causing the Soul much distress, much hurt, much disgrace.

I ask you a question: ‘Why is it so easy for mankind to believe that mankind has the ability to learn about so many subjects that cover many areas of human life, such as medical, legal, political, teaching skills on all subjects, instructing all ages, giving advice on how to handle daily living to advantage, so there would be less disadvantage in how an individual thinks, speaks, instructs others, or just in living daily life, using what one is for practical reasons, to sustain themselves mentally, physically, emotionally?’

When This Gift of The Father’s was given to the world, thousands became attracted to It, wanting to find It beyond a normal scope of learning. They wanted drama, and definitely emotionalism attached to All that was delivered.

Today as I speak through *one small voice*, as so Many before Me have done, I say to mankind with a sincere Love for the Souls of human life: ‘Be aware of how you act, how you think, what you do, and what your Goal for

life is. Is it just monetary, or is it for the Reason intended life to have been given, and that is to become “a Saint in Heaven”?” It is sad that so few see daily life as a Gift of Divine Love, Divine Will, and that each day is a day to reach for the Goal of Sainthood, a privilege that no other living thing or matter has.

Children are not being instructed on the real Reason for why they were born. There is so much humanism and stress on academics, that morals many times are not even mentioned; also, The Commandments of God are not spoken about, but when They are, they are told to be learned in Their concise manner. This is unjust in its very concept.

The Commandments that were given for human life to reach the Goal for which it was created, must be taught and thoroughly instructed in, on, because They are the Foundation for men, women and children, no matter where an individual is born, because every human being is born for the Goal of Sainthood. Achieving this Goal does not mean that one has to be famous in the eyes of others. The Basic Rules of moral values, moral

standards, are all that is necessary to achieve the Highest Goal that a human life can reach.

We hear so many individuals characterize human life in such a trite perception of what it was created for. Human life must be seen as having the Highest Goal of all creations, and that is to live on with The Creator through one's Soul for All Eternity.

I know that some reading This will say, 'Sainthood will be difficult for me, because I do not have the imagination to fathom It.' I beseech you, as you want each thing in the human way to be beautiful, to be right, to be progress, to be happiness, there is no Greater Goal than to use all you are to become 'a Saint'. So be it."

SEPTEMBER 30, 1998 AT 2:01 P.M.

SAINT ALPHONSUS LIGUORI

“I am Saint Alphonsus Liguori.

Many men in their younger years feel that they have the desire to walk for God in a special vocation of life. The thought is good yet challenging, because at the time they begin to feel the beauty of telling others about The Creator, they do not realize that it is based on much sound reasoning, concern, willingness, interest, and yes, totally believing in the Greatness of The Creator. The important part of understanding what a valuable vocation, leading others morally, spiritually, through the physical, is greater than mankind can comprehend.

Today as I speak, for those present I taught much, alerting the minds of those present to the value of Spiritual growth, Spiritual knowledge, Spiritual values, Spiritual participations. To some who hear These Words, read These Words, they might think fanaticism, that the human body must be well-balanced in

all areas of occupations, thus ignoring that human life has the greatest occupation of any living matter or thing, and that is that human life has a Goal beyond any other living thing.

Today as I speak, I see thousands of men, women and children blindly walking into ugliness, immorality, and a lack of understanding that their Soul is at stake in every thought, word, deed, touch, feel, action.

We hear so many say, 'I cannot see my Soul, but I am told I have One.' Logic should tell those who speak this way that human life, in its very inward desire, wants to achieve a goal, physical, mental, and Spiritual. The physical they understand, the mental they understand to a point, but when it comes to his or her Soul, they feel that This is an unknown Factor as to what to expect, so they quickly ignore the subject matter, thus allowing their moral practices or immoral practices to be totally humanistic in concept on all subjects.

Even those who have studied Spiritual subjects, the Importance of the Soul, and what is expected of them regarding their Soul, oftentimes

ignore the importance of this subject, because humanistic values come into play, allowing them to ignore the Most Precious Gift he or she has, and that is That Portion that will remain Forever, and be Judged according to the one in whom It was placed at the moment of conception.

At this time, and for some time now to this time, so much Instruction has been delivered, awakening, enlightening, encouraging, and deliberately instructing all degrees of human life on the importance of purity regarding what they do, what they say, what example they are to others morally, because it is so easy for mankind to act without thinking of what the act will do to his or her Soul.

We hear some say, ‘If the Soul is a Portion of God, doesn’t He take care of It?’ Yes, He does, but in each human life, the custodian of the Soul is the one who, through life, uses the Soul in every thought, every word, every action, because the Soul, though not visibly seen, reflects in a way unbelievable to the human mind, and radiates through the individual to the eyes of others, what the individual

truly is like morally, physically, spiritually.

Today as I speak in Words understandable, I cannot leave you without saying, ‘Do not abuse That Portion of you that is also a Portion of your Creator.’ So be it.”

OCTOBER 1, 1998 AT 12:52 P.M.

SAINT TERESA OF AVILA

“I am Saint Teresa of Avila. The Importance of This Gift of The Father’s, directing so Many of Us to speak in deliberate ways, explaining to the whole world of mankind the Importance of human life and its closeness to The Divine. As We hear and We see so many doubters to This Miracle Blessed by The Holy Trinity, it is difficult for All of Us Here to fathom such arrogance, such denial, because it is causing a catastrophe.

The Father has handed to mankind a Gift beyond any gift humanly possible to give, because This Gift is a Gift of Instruction for the Most Important Part of human life, the Soul that is within. Granted, a long time ago, mankind was not aware of the Importance of human life, and What human life was the custodian of.

All of the Teachings, Instructions, passed down by The Son of The Father, were not spoken in the same format, same degree, on the same subjects that He delivered Them to the Apostles

and to the crowds that would attend, listening to Him speak regarding the Importance of human life, and the Generosity that The Creator placed, putting a Portion of Himself within each human life, supporting human life mentally, physically, morally, spiritually, intellectually.

Many wars were fought on the battlefield, not all for sound reasoning, but fought because of a belief, or from the direction of one in charge who wanted power over others. At the time that the beloved Saint Joan walked the earth, her littleness was many times misunderstood, because men of all sizes used What she spoke as the Guidelines for the importance of what was to be done.

Today The Father has sent *a small figure*, using *the voice* to instruct mankind on the Importance of What He placed into each human life, to give strength, hope, and the understanding that human life had a goal to win the battle against all that was evil, because of the Soul that is a Portion of The Creator, never seen, never fully understood, but obvious to the individual through the intellect, through the feeling of always having

Something close, Something within, guiding them on the importance of all they become involved in.

Today, as Many of Us are present when One speaks, it is important for human beings of all ages, all cultures, all intellects, all backgrounds, to understand that human life is a Gift Greater than mankind sees it to be. There are many factors in human life that give hope, enlightenment, and the understanding of the importance of each moment of every day. These things, of course, are reflected in the Soul, and the Soul in turn, reflects it into the mentality, and the innate need to protect oneself when physical harm is evident, or physical disgrace.

Millions of Words have been spoken verbally, multi-amount of Words put into script. Mankind has no excuse to not recognize the Importance of human life, and that human life is a Gift of Divine Love that should respect all that is moral, because the Soul is the beneficiary of all an individual human being thinks, speaks, practices, is involved in, or encourages others to be a part of.

Mankind must understand that a Blessing of This Magnitude of Instruction, in a degree understandable to the human mind, logically comes from a Higher Source, thus automatically instructing mankind for a Goal beyond what human life could ever comprehend, and that is to return his or her Soul to from Where It came. So be it.”

OCTOBER 1, 1998 AT 2:16 P.M.

SAINT JOAN OF ARC

“I am Saint Joan of Arc. It is indeed a Blessing to be able to speak through This Special Gift that The Father designed to reach all of mankind, so that mankind would become more acquainted, more understanding of how closely connected human life is to The Creator of All there is.

Sometimes when an important decision is to be made, and the individual with the responsibility to make it is faced with a certain degree of fear, a certain degree of not being sure that when the decision is made others will see it in the degree, in the manner it is necessary to be accomplished, or to be acted upon immediately, time has a way of causing an important subject to be cast aside when those involved in a decision linger, concentrating on just how to approach the issue at hand, the problem, the decision.

I beseech all who read These Words to value the ability innate in human life to make decisions that are beneficial, that are important to

the body, the mind, and the Soul of everyone involved.

Children are not taught to think clearly on important questions that they feel they must make decisions on. These questions can apply to their moral life, their physical life, their learning a subject that will involve them morally, physically, spiritually, and could have extreme measures of importance to them in many ways. It is sad when I hear those in charge of children neglect to speak in an orderly, constructive format, understandable, polite, dignified, because without these things many decisions are wrong.

Every individual has certain degrees of sensitivities, innate understanding, and also personal ideas, ideals, temperaments, hopes, concerns, values, that pertain to their way of life, their degree of interests, and of course, what the subject matter means to them in ways that only they are involved in.

Some men, women and children automatically, when confronted with a decision, act as though they are going into a battlefield, pitting themselves against another's opinions, actions,

concerns, and/or ideas, ideals. Mankind oftentimes creates a battlefield of personal opinion, when logic was the most reasonable asset to all that was spoken about.

It is important that men, women and children, in their relationship with each other, reflect moral commitments and respect in these commitments, with hope, understanding. Much love is felt when understanding is the foundation for communication. So be it.”

OCTOBER 2, 1998 AT 1:10 P.M.

SAINT THERESE OF LISIEUX

“I am Saint Therese of Lisieux. I am recognized wherever My picture appears, because of the roses that are present that are associated with Me and My Way.

Today as I speak through *a small voice*, I speak with a great Love for all human life, because through the human way, men, women and children have the privilege to come Where I am, one day.

When mankind speaks of Heaven, each one thinks of It a different way. I would like to describe a Portion of It to you, so that when your Soul arrives, when your Soul is returned to from Where It came, It will remember the details It was once surrounded by.

There is much Light Here, Heavenly Light. There is a Way of Happiness that allows All Here to feel the Presence of The Creator once again. Mankind throughout the world has no comprehension of what a Beautiful Place Heaven is. Many imaginations run wild on describing

what they feel Heaven is like, but what Greater Company can the Souls return to than The Ones with Whom They are a Part.

Every day of life is a Blessing to mankind, because through the human way, life is given the opportunity to grow in love with The Holy Trinity, through the Soul they were given at the moment of their conception.

As many will read This, what I have just spoken, it might be difficult for some to understand, because as they face each day of life, all things they feel, they see, they hear, they are a part of, is the human attitude; also, what they know to be the human way, thus ignoring that they were created for a Purpose, a Goal Greater than any other living thing or matter.

When mankind hears of This Gift of Divine Love, We hear some say: 'I want to know more. I want to be part of It. I want assurance that It is true.'

As I speak to all of mankind and have asked My Words to be written, I Personally put My Signature at the bottom of What I have spoken, and I

**say, 'I am Saint Therese of Lisieux.'
So be it."**

OCTOBER 2, 1998 AT 2:00 P.M.

SAINT JOHN THE BAPTIST

“I am Saint John The Baptist. Mankind has been instructed down through time, the Importance of the Gift, the Sign, the Purpose for Baptism.

At the time in which I lived, I was instructed to introduce this Gift of The Father’s Love, because mankind needed a Sign, a physical Sign to act with, upon, and use this Sign, drawing attention to the importance of the purity of the human body, the human mind, regarding the Soul that all human life has at the moment of conception.

Today as I speak through *a small voice*, My Words are to be written and spread throughout the world because mankind is abusing this Act of Love, Commitment. In the abuse of It, there is little attention regarding the Importance as to what the water means to the one receiving a Blessing with the water. As man knows water to be a cleanser, it has been since the time I was in the water, using it to cleanse

thousands regarding the importance of purity in the mind, in the body, for the benefit of the Soul.

When the History of Baptism is spoken about, it is not thoroughly or clearly spoken in Its full measure. The Sacred Gift of Baptism is to use the water to cleanse the mind, the body, of all interferences that in different ways can affect what an individual practices, speaks, participates in.

Mankind ignores the beauty of attending to the Soul, so that the Soul is a constant awareness in a Form of Presence at all times, in the mentality, in the actions of the one in whom It has been placed since the moment of conception. Even in the earliest days of Creation, mankind felt the need to be clean in the physical form. It was not until the Baptism in the water that mankind began to realize that what they practiced mentally, morally, physically, had to be erased in some form, some way, and strength had to be delivered to the mental understanding to keep this in mind at all times.

Baptism is to remind mankind of his or her Association with The Divine,

and that it is important to the Soul to feel that there is no mark to identify impurity in any way, any form, any degree, for any reason.

My Name is not often mentioned at this time in your day, but My time on earth was to alert mankind that at all ages, all environments, mankind should stop, think about their moral practices, and use a form of cleansing through prayer, through their actions, through their promises, renewing what they are, because of the Soul that each human being is responsible for at all times.

Mankind talks about blessing himself or herself in *'The Sign of The Cross'*. This practice is beneficial in many ways, and when it is practiced daily it is, and when it is consistent in its purpose, helping the individual to constantly remember that as he or she raises the hand to the forehead, it is to remind them that God is Ever Present in their mentality, and this touch alone says, *'Keep my mind clear, my God, pure, my God, as You Will it to be.'* When the hand is put on the chest it says, *'Let my heart beat according to Your Will, and constantly remember that I was created to one day return*

to You that Portion of You I am the custodian of, my Soul; and as you cross from one shoulder to the next, it is to remind The Father that the whole body is dedicated to what is pure because of the Soul that resides within you. So be it.”

SAINT BONAVENTURE

“The History of Spiritual understanding goes back thousands and thousands of years. When it first came to light, individuals of all ages questioned what this feeling was, what this understanding was, of the correctness in how one should think, should speak, should act toward others.

Spiritual understanding was not from the beginning of time, as man knows it to be. Instinctively, human life related to what was good, what was not morally sound, and yet they did not use the word ‘moral’. They depicted it more of a feeling or an act of unkindness, not proper. This period of thinking goes far, far, far back.

Mankind, in this time of life, has the privilege to more fully understand what is good, what is wrong, and how mankind should respond to the good rather than to what is tainted in any way, tinged with impurity in some form, some degree.

I speak differently at this time than All Other Revelations that have passed through This Gift. It is to enlighten mankind of the beginning of human life to a degree, but not to its fullest degree, of how mankind truly felt, acted, responded, and felt the results of what human life participated in morally. Most of the thinking resulted in the personal contacts through speech, also through the physical needs for human life.

I hear some say this goes back many, many, many, many, many years. In the beginning of mankind, yes it does, but I bring this up today to show you how Blessed you are to live at the time in which you live, having the privilege of learning in such detail the Importance of human life, the responsibilities of human life, and the Goal for which it was created.

Mankind, at this time, tries to ignore the Importance of a Creator, because it automatically says 'Greatness', also 'Some Close Connection' that will demand mankind to more fully understand that morality must supersede immorality in every facet of human life.

**All Here with Me smile as I speak
These Words, because up to this time,
All that has been delivered through
This Gift of The Father's Love has
addressed the Importance of the Soul,
What It means, and the Goal that this
Soul is destined to one day be Judged.**

**Many, many, many years ago,
mankind lived in a state of human
control, thus not realizing nor being
able to understand that The Creator
of All Things created All Things for a
Purpose, for a Reason other than just
what human life experienced daily, or
understood to be what human life was
all about.**

**What I have just spoken is
unusual I know, but it is important
that mankind understand that time
has allowed mankind many privileges,
and the Greatest One is that through
This Miracle, the Soul has been spoken
about, described, and applied as the
Most Important Issue of human life,
because It is a Portion of The Creator,
and This is what is to be returned to
The Creator in a Pure State of Being.**

**There have been many degrees
of learning since the beginning of
human life, many important times,**

and of course, the most expressive one was the Time of The Holy Family, because This Time gave to mankind 'a close physical union', and from that time on, mankind began to learn more about the importance of what human life was created for, the importance of The Commandments of The Creator, the importance of purity of all actions, all thoughts, and the Goal for which human life was created: to return to The Father a Portion within human life that is a Portion of The Creator, never seen by human life, but logic to human life, because human life is always shown as an 'ultimate creation', having knowledge, understanding, and the belief in what is right over what is unsound, impure, incorrect, and could please only the enemy of God and man.

Today as I speak, it is to awaken mankind, those who need the awakening, that human life was designed and created for a Higher Goal, and that is why it was gifted with a Soul, helping mankind to more fully understand the logic that mankind should value, because within each human life there is a Gift that connects human life to The Divine, and The Divine to human life.

What I have spoken must travel throughout the world, because so many try to ignore the Value of the Gift of human life, the devastation through so much immorality, so much jealousy, so much hate, so much envy, so much lack of respect for this Gift that is the only Gift that has a Goal to live Forever, bearing the background, the name of the individual, by the Soul that will be with The Father in Heaven. So be it.”

SAINT PATRICK

“I am Saint Patrick.

The Father, in His Divine Love for human life, has given to the world a Blessing beyond what mankind understands It to be. It is a Blessing of Personal Communication between The Divine and mankind.

It is a sadness when mankind deliberately ignores All that has been delivered through *one small voice*, but on so many subjects that are delivered to increase mankind’s understanding of what a Precious Gift human life is, because it bears in it a Gift of Divine Love, called ‘the Soul’.

When individuals speak to each other and refer to each other as ‘soul mates’, they automatically admit that this gives them a closeness beyond what friendship would mean if they used the word, we are ‘friends’.

Mankind oftentimes uses terminology that has a greater meaning than they realize it to be, because human life, human knowledge

oftentimes becomes so involved in their immediate practices, intentions, that they forget that what they are repeating in their lives has a background to it, causing it to have an indepthness that is not always thought about.

Today as I speak, I speak because The Father requested I speak. Mankind has been given a Miracle of Communication, of Instruction, a Closeness that mankind is not opened to, in such a deliberate, obvious way. Usually when mankind thinks of The Divine, it is because the individual automatically is drawn to a statue, a prayer, or some form of attention that depicts a Saint, or the Crucifixion, but I must add more words to this: that mankind should read and more fully understand the Closeness God is to man.

This Gift of The Father's Love, This Miracle of Communication, with the Words being put into script so They will not be lost in the memory, is a Gift beyond what mankind truly conceives as the Greatest Gift of Divine Love that mankind can be the recipient of.

As Each of Us speak through *one voice*, giving strength, hope, and more of an in-depth understanding, communication with The Divine, mankind is Blessed abundantly, and it is sad to say, has not recognized This Gift in Its Full Measure of Divine Love.

Much jealousy from so-called 'learned' men and women denies This Gift, because he or she feels that it cannot be, it must be imagination or a desire for attention; consequently, they are omitting the Content of All that is delivered, ignoring All that is delivered, and losing a great deal of sound understanding to the Importance of every human life, because of the Soul that is placed in each conception of human life.

Many of Us Saints speak frequently in conversation through This Gift of The Father's Love. By this, I mean daily conversation that in the Communication, in the Words, much Love radiates, much Concern shows, and much Love is felt by those who just hear What is being spoken.

The world has been Blessed. Mankind has been Blessed. Even those

who do not believe in This Gift of The Father's Love have been Blessed. It is a matter of time, plus a matter of their giving in to Truth, ignoring their jealousy.

The world is to mankind a place to prepare for Sainthood, and through This Gift of The Father's Love, bearing the Name of The Beloved Saint Joseph, Who is in Heaven The Holy Spirit of The Creator, All will come about one day to be seen for the Fact It is, the Truth It is, the Importance It is, and mankind will awaken after a long sleep of doubt, period of jealousy. So be it."

SAINT THERESE OF LISIEUX

“I am Saint Therese of Lisieux.

The Father has Blessed mankind with a Gift of His Divine Love, giving to mankind Instructions, Answers, and His Love, at a time when mankind is in great need of understanding more about the closeness human life has to The Divine.

True, there have been many down through time who have walked in Close Response to His Commands, His Words. Not All are known, but when The Father Declared This Particular Gift to be, This One in whom, through whom so Many speak regarding the Importance of human life, because of That Portion of The Creator that is placed at the moment of conception, and never leaves until The Father Decrees it to be.

Human life has many advantages, qualities, abilities, and of course, the Greatest Goal that any life, any living thing has to attain, and that is to return the Soul from Where It came. Most individuals do not understand,

or resist understanding, that within them they have an Important Living Matter that is associated in a Personal Way to The Father of All Things, All Creations, All Reasonings, All Purposes, All Love.

So much has been delivered verbally, physically, and in script, to thousands of people of all races, all cultures, all creeds, helping them to more fully understand what a Precious Gift human life is to man.

In the beginning of the Creation of the world, mankind did not exist. Mankind was created after many other portions of the world were put in place, so that mankind would be able to exist, because of the needs mankind would have daily.

There have been different Times since the beginning of mankind, that The Father has offered to human life 'an individual' who would be Responsible for much to be passed to others, verbally, physically, mentally, spiritually, because without This, human life would not understand what a Close Association God is to man, man is to God.

In the creation of so many necessary things, mankind is the one Blessed, the only thing Blessed in a Future, for a Future Plan, and that is to return to The Father a Portion of Him to remain with Him Forever. This Portion, of course, cannot be seen in the way mankind sees himself or herself physically, but This Portion is obvious because It is attached to the mentality, the physical, and of course, the morality of the individual in whom It is placed at the moment of conception. It is called 'a Soul'.

It was named for a reason because without It being named, mankind would have no way of associating with that Connection to The Creator, but this Name has been made obvious down through time, and in fact, it is difficult for even those who doubt, to not have some sensitivity to the Fact that they are the custodian of Something More than they can see with their eyes, feel with their hands.

Logic says openly that the Soul is a Living Portion of Something Greater than human life, because the Soul, though unseen, plays an Important Part in the conscience of human life by the conscience being able to know what is

morally right, what is morally wrong, what is truth, what is untruth, what is safe, what is unsafe, what is valuable, what has no value; also, the sensitivity human life has to This Portion of The Creator intensifies the understanding that human life must have a Goal, and this Goal is attached to This Portion relentlessly, through an individual's understanding of purity over impurity, morality over immorality, and dignity over lust, anger, hate.

Human life has so many beautiful Gifts, and it is sad to see weakness morally, mentally, physically, that destroys the Beauty of All that is connected to The Creator, and caters only to the enemy of God and man.

To write all there is on the Importance of human life would be impossible to accomplish, because human life has various abilities, concerns, and the innate understanding that logic says that human life is a result of a Higher Being's Love; also, that human life, because of the intellect that seeks success, growth, automatically instructs the spirituality in a human being that human life has what nothing else has, and that is to return to a Place of Great Importance,

because the Soul, as a Portion of The Creator, is destined to return to from Where It came.

So many men and women desire to be important in the world, to be famous, to be looked upon as an ultimate source, force, entity of power inconceivable to the minds of many others, but though some are outstanding, they must never forget that one day they are destined to face The Highest Power, and This Power is The Controller, The Designer, The Creator, that no human life is equal to, or can truly be compared to.

Human life is a Gift of Divine Love, and should be treated as a Gift beyond any gift that can be received in a physical form, or a material way.

So much has been spoken about through This Gift of The Father's Love, instructing mankind on human life, and also deliberately instructing human life on the Importance of The Divine. Mankind can only absorb a certain degree of Instruction, because it would be impossible for any human being to absorb All that The Creator Is, to understand All that The Creator Is.

The world has been Blessed at ‘this time’, and so much has been allowed to be put into script so that millions of human beings will be able to see more indepthly what a privilege it is to be born the human way.

There are Stories of how The Son of The Creator became man, and walked the earth as man; also, The Heavenly Mother also walked the earth as The Mother of The Son of God, thus expressing to all of mankind the privilege of human life, the Greatness that it stands for, and that it has a Goal to return to from Where It came, to be with The Holy Family Forever and ever and ever. So be it.”

SAINT ATHANASIUS

“I am Saint Athanasius.

Heresy is prevalent throughout the world, heresies of all dimensions, on many, many subjects. All subjects are demeaning to what is moral, what is Spiritual, what is valuable, what is truth.

Mankind, in all walks of life, is ignoring the introduction of satanic values that are circulating amongst all degrees of intelligence, all areas of spirituality. Mankind thinks of many things, subjects that make them happy, assured, confident, thus ignoring the sound value of the subject matter.

Human life was designed for a Specific Purpose, and gifted with a Specific Gift of The Creator’s Love for this creation; first of all, the ability to know right over wrong, truth over untruths, and the logic that there Exists a Supreme Power, Supreme Being, Supreme Entity, that mankind has the privilege of being aware of, and to be conscious of the Meaning of This Supreme Power as a Power

wherein human life must at some time be Judged by.

At different times since the Creation of human life, mankind has rejected The Supreme Power because of personal indifferences to the Importance of why human life was created, and the Goal for which it was created.

As I speak, I also listen to many behind closed doors at this moment, sharing great doubts, casting aspersions on the beauty and value of Truths, denying vocally, morally, mentally that a Supreme Power Exists, because they have not seen It visibly.

What I have spoken may be difficult for some to understand, but it is important that all of human life value All that is being delivered through This Special Gift of That Portion of The Creator, that is basically Holy in Its Existence, Holy when It speaks, and Holy in What It encourages human life to understand in a more practical way of thinking, that mankind was not created like so many other creations that have no mentality, have no Soul, and lack the ability of speech.

We hear many who have been trained in a formal manner reject the Dignity of human life being Blessed with a Portion of The Creator. Their doubts, their ignorance, cause many to fail in responsibilities of purity of the mind and the body, leaving the Soul as ‘a victim’ of their indiscretions and their false commitments.

Mankind must understand that human life was created out of Divine Love, because of Divine Love, and The Father continues to hold this Creation of His Important, because of What His Goal is for this Creation to one day be a Part of.

I have spoken clearly. All is to be read in the manner in which I have delivered It. Anyone who rejects One Portion denies the Importance of human life, and the Goal for which it was created to reach, called ‘Heaven’. So be it.”

SAINT JOAN OF ARC

“I am Saint Joan of Arc.

At this time throughout the world there are small groups devoting a certain amount of time to the Lives of The Saints; but, in many ways, attention to The Saints in how They walked, and what They are known for, has dwindled to a great degree. In many ways this is sad to see.

Mankind finds it difficult to understand, to conceive such a Place, such a Title, because mankind for a long time has been ignoring the Importance of human life, and that in its creation automatically has a Goal because of the Soul that is placed into it at the moment of conception. Conception to mankind means the birth of another human being, many totally ignoring the Importance of human life, the Goal for which it is created, but also, That Portion of human life that has within it a Gift of Divine Love, called ‘the Soul’.

When an individual is proclaimed ‘a Saint’, a small number of people are

involved. There is a degree of study that goes on regarding the life of the individual up for Sainthood. Granted, not all has been recorded regarding the individual, so when the research begins there can be many differences of opinion, but while this is going on, while those still living are using their understanding of what makes a Soul 'a Saint', The Father has already taken the Soul, and has appointed the Soul to certain tasks, according to what is necessary for that Soul to partake in.

For some reading This or some hearing It, may be difficult to comprehend, but nonetheless, it is Fact, and important for mankind to know that at the moment of conception, the Soul is immediately instilled into the conception. No matter what degree of time has already been accomplished, it is an immediate Factor because it is a human life. For some to believe this, to respond to it, and to be able to speak about it may be difficult, because of their lack of understanding how close human life is to The Divine.

Today I would also like to speak on the Truth of the Facts that mankind either takes for granted, or ignores, and that is that the Soul

is a Living Portion of The Creator of All Things, but as mankind looks at the child they ignore this Fact, this Factor in human life that is of Great Importance, because they cannot see It, they cannot feel It, but logic must reveal to them that as human life is created, it is an 'ultimate creation' for reasons that do not show, because mankind has an innate knowledge of what is pure, what is impure, what is right, what is wrong, what is sound in purpose and in the intellect.

Mankind is given the privilege of using this intellect against all insurmountable odds, to be able to capture through the mind, magnificent creations of progress, giving hope to human life, scientific goals, and strength where it is needed mentally, morally, physically.

This Miracle of The Father's Divine Love is a Miracle of Instruction, using every Facet of Divine Love to generate in human life, in the human mind, what a Superior Gift of Divine Love human life is, because with all its abilities, it has a Goal beyond what any other creation has, and that Goal is available to the Soul, to return to The Creator for All Eternity.

Mankind must awaken to the privilege of human life, and work with all that is good to accomplish what The Father Wills for the Souls yet to be returned to Him at a given time. So be it.”

SAINT BONAVENTURE

“I am Saint Bonaventure.

One of the most important questions that mankind requires at this time is the formal education of another human being, always stressing the importance of it, and how valuable it is.

How many individuals throughout the world think of asking another individual, of what degree they feel their moral values could be termed that ‘Sainthood was inevitable’?

As We Saints walked the human role, and Many of Us Who placed much importance on Spiritual practices, goals, values, We felt that though We did not feel wealthy in the terminology that wealthy reflects, but there was a sense of calmness even when We were in great Spiritual dilemma, because when an individual thinks of the necessity regarding the importance of morality over immorality, justice over injustice, purity over impurities, care over neglect, and that everything has a point of accountability, We smile

when We hear individuals say, 'Practice makes perfect.'

There is no place throughout the whole world of human life that so much is being dictated, delivered, and extensively spoken about as there is through This Gift of The Father's Love that is a Gift beyond what mankind could ever give to another human being.

Human life has many Gifts: the Gift of procreation, the Gift of learning about many things, the ability to practice in interesting talents, or the Gift of being able to understand that life has a Great Purpose, a Great Goal, and that every individual born has within them a Portion of The Creator, making human life superior to any other living thing or matter.

When The Father Decreed that it was time for This Gift of His Divine Love to be handed to the world, This Gift bearing the Name of The Beloved Saint Joseph, a Gift of constant Instruction, never omitting One Important Fact, so that men, women and children of all natures, all degrees of intellect, all backgrounds, all talents, would have the benefit of

learning that there is a Goal for life, Greater than any goal in the human way, The Father, in His Love, has given mankind a new lease on life, a complete Description of which human life is the recipient of, because of the Soul that is a Portion of the creation of every individual born.

Granted, going back hundreds of years, thousands of years, mankind had abilities, sensitivities, and degrees of intellect; also, they understood what was morally sound, morally unkind, and much of this was based on the time in which they lived, or the place in which they were much a part of, as far as mentalities of those who surrounded them, and also the innate urge to be successful humanly and materially.

Today as I speak, I speak in a format, in a manner, in a way, communicating to all ages, all degrees of intellect, all backgrounds. Mankind must understand that they are the recipients of The Greatest Miracle The Father has allowed mankind to have in his or her midst, in thousands of years.

Mankind tries to find errors in All that has been delivered. This oftentimes is encouraged by the enemy of God and man, because human logic understands when a Gift is beneficial, and gives strength and encouragement to excel, to apply, and fully understand the Importance of What is spoken, What is directed, What is promised.

When Any of Us speak and ask Our Words to be put into script, mankind must understand and also believe, that This Gift of The Father's Love is a Gift beyond what mankind could give to each other. A Blessing comes with Every Message, and many times, whether you are aware of it or not, it shows in your communication with each other, and to those who are not present when Our Messages are delivered.

There are many different types of Blessings that mankind is the recipient of. The Greatest Blessing, at This Time in the History of human life, is that This Blessing is instructing in a Loving Gift of Words, how Special human life is, and the Purpose for which it was created, reminding mankind that a Portion of Divine Love

is instilled in each human life at the moment of conception. So be it.”

OCTOBER 14, 1998 AT 1:18 P.M.

SAINT MARY MAGDALENE

“I am Saint Mary Magdalene. It is indeed an honor to be able to deliver to mankind what The Father Wills all of mankind to more fully understand, instructing mankind on what a Precious Gift human life has, a Soul, that nothing else created has.

We hear men, women and children of all backgrounds of life, different dimensions of mental abilities, different degrees of understanding the Purpose of life, all the Gifts of life. It is important that men, women and children begin to understand that the Gift of life has a Goal, and this Goal is for the Soul to represent that individual at a particular time, and it can be said, for All Time to come.

As there is no true date on the Creation of the world, or of the universe, there is no factual date on the Creation of the first human life. Granted, mankind has theorized on a multiple number of logical facts, understanding that the facts give credence to what the subject is about,

but there is no true date, because in the beginning of the Creation of human life, mankind did not have the conscious intelligence in understanding that, historically, mankind at one time, at some time, would research facts that would not be available to the human mind, because of the inability of those who were created at this time to put into script, issues, practices, facts, figures, that would one day mean something to new generations of life.

A child is born, and the child cannot read, cannot speak, and cannot describe how he or she feels physically, mentally. The Gift of life was designed by The Creator of All Things. The Gift of intelligence in the very beginning did not have references to what life was all about. That is why all things could not be put into script. Life has gone on a very long time, much before the so-called 'scientists' understand its true beginning.

The Father has given to the world a chance for mankind to more fully understand what a privilege human life is, and He has allowed so much to be instructed down through time, through individuals who were gifted and Blessed with the ability to

speak, and eventually some to write, so others would learn more about the Importance for which human life was created.

The medical field has come a long way, but they are still struggling in many areas for the physical to be helped and given time to heal, in many areas. The Spiritual health of individuals is in about the same category as the physical health. It has reached a point of partially understanding what spirituality means to a human life.

That is why This Gift of Divine Love through The Beloved Saint Joseph Who, as The Holy Spirit of The Creator, has in many ways requested different Saints to speak openly, encouragingly, and simply, so that men, women and children can protect what they were created for, and that is to return to The Creator, That Portion of The Creator that will, in full Essence, allow the individual to live Forever.

To some skeptics This Statement is heretical. To individuals who want to understand that human life was created for a Greater Purpose, for a Goal, All that has been delivered

through The Holy Spirit of The Creator, and through All The Saints Who have spoken, it is important that mankind see a Future to life, that has a Goal to return to from Where It came, because there is no Greater Goal that human life can achieve. So be it.”

OCTOBER 19, 1998 AT 1:24 P.M.

SAINT BENEDICT

“I am Saint Benedict.

Mankind walks in much confusion regarding the importance of sound moral values, sound moral standards.

Today as I speak, I see thousands of individuals who act respectful to those they meet, but these same individuals do not believe in a Higher Being. To them it is a waste of time, energy, and there is no reality to believing in what they cannot see, or feel the Presence of.

I ask all who read this: ‘Are you fully aware of every portion of your being as you live each day with all that is within you? Is it not an illness in different parts, portions of the body, that makes you aware of that particular place? Are you aware of every bone in your body, every bone as you use your hands? Also, are you aware of every muscle that allows movement, controls different portions of the body?’

To each individual, sensitivities of the body are in different ways at different times. Sometimes it is important for individuals to more fully understand that human life, in its sensitivities, in how it understands different portions of the body, it is also important to logically understand that human life has within it a Gift of Divine Love, never felt in the physical form, but It is given at the moment of conception until the end of the living way of the body. When This Portion leaves the body, It returns to from Where It came, because This Portion, unseen, is a Gift Precious to mankind, and as a Portion of The Supreme Being, is returned in the condition the individual allowed It to be.

Mankind is rarely, if ever, instructed on the Soul, because all degrees of intelligence of human life find it difficult to understand a Living Portion of The Creator within them. In many ways they do become aware in some form, but ignore It because It is present at all times, and is 'the victim' many times of the decisions of the individual in whom They are placed at the moment of his or her conception.

We hear individuals respond to one another as 'soul mates', this meaning that refers to them as 'close', as 'one in thinking' on many issues. This is important for mankind to understand, because no one has seen their Soul, or the Soul of another individual, but this verse in speech has become prevalent throughout the world.

Mankind must understand that the closeness an individual has to someone else, they are closer to The Creator of All Things than they can possibly be to another human being, because within each human life there is a Gift of Divine Love, placed at the moment of conception. It is a Protective Gift of Divine Love, but also, will remain when the individual no longer lives in the human way. It is the Representative of that human individual that God, The Creator of All Things, calls back to His Kingdom to return to from Where It came. It is a Gift of Divine Love that mankind innately feels, but cannot describe, cannot see.

Historically, human life has been Blessed above all other living things. It is sad to hear individuals

not be able to comprehend, or refuse to comprehend the True Existence, the Logical Existence of a Supreme Power; also, the Deep, Sincere, Loving Gift that This Supreme Power uses in a Close Association to human life, for a Reason, for a Future Life to be returned to Him.

We hear men, and some women, try to preach in a humanistic formula, in the degree of their intellect, in the degree of their Spiritual understanding, but there is always a void, because those to whom they speak recognize that the subject matter is beyond full human understanding.

Today as I speak, it is to give to mankind Hope, and a deeper desire to practice openly, obedience to The Commandments of God, because of the Soul they bear as a Gift from Him, to be returned to Him at a given time.

Granted, there are thousands of individuals preaching, supposedly teaching, on the facts of Spiritual understanding, abilities and growth, but not all are exactly in sound facts, because the individuals are more apt to want the attention, rather than to feel the necessity for what they preach,

supposedly teach, to be according to The Father's Will: knowledgeably, truthfully, and spiritually correct.

This Gift of Divine Love through which so much is instructed, is a Gift of Divine Grace for all human life, no matter what age or what part of the world they are born. So be it."

OCTOBER 21, 1998 AT 12:45 P.M.

SAINT ANTHONY

“I am Saint Anthony. Many men, women and children pray to Me when an article is lost, or they want a special gift that they desire, either because of its beauty, or they feel drawn to it by its usefulness.

Today as I speak My Words, I want all of mankind to understand that prayers such as these are welcomed, but it is important for men, women and children to request help on important matters; that is, matters that concern whether an act is accepted, practiced, or accomplished according to The Father’s Will, based on purity, soundness, and for a good reason or cause.

Throughout the world there is a great decline in human understanding of the importance of prayer regarding all issues of life, all instances in life, because mankind has lost much of the dependence on The Creator. Mankind has become so humanistic in terminology, in frankness with others,

and also regarding their practices in Spiritual ways.

Today as I deliver These Words, I am aware of thousands who at this moment have no thought of Spiritual Closeness to The Creator or to The Saints. Throughout the world there are open signs encouraging men, women and children that it is important to pray, and it is important to practice self-control, self-discipline. What are these signs? They are numerous in number. A steeple on a building says, 'There is a God.' A small prayer says, 'I believe in God.' An act of purity over an act of impurity speaks loudly without a sound.

Mankind in this time of life has been Blessed abundantly through a Gift of The Father's Divine Love, allowing so much to be put into script, instructing men, women and children on the Importance of human life, because of the Soul that each human life is the custodian of.

The Soul is the Instructor, the Protector, and also, in Its closeness to the mentality of each human life, It indelibly causes an individual to know purity over impurity, justice over

injustice, love over hate, good over evil. Mankind is aware of an inner feeling, but cannot express how they respond to this inner feeling. Logic should tell human beings that there is a constant Guardian available in all acts of life, all thoughts, all words.

Today as I speak, it is with a deep Interest and sincere Love, to aid mankind of all ages to not ignore what they understand to be pure in concept, in content, or in actions. Much Love has been expressed through This Gift of The Father's Love. This is obvious by His allowing so much to be put into script, so that mankind would not have to trust to memory, because oftentimes memory gets distracted, and acts impulsively by the distraction that is not always morally sound, morally correct, morally pure, thus ignoring the Soul that is the recipient of all an individual partakes in, or reflects through words, through participation in many ways with another human being, or several others.

It is important that human life understand what a Blessing God has given to mankind at 'this time', thus penetrating the mind with the Importance of human life, and the

necessity to be aware of That Portion that is unseen but there, no matter what race, color or creed a human being is. No one is ever born without that Soul, That Portion of The Creator that is to return in a State of Purity, Grace and Love, on a particular time and day. So be it.”

SAINT BARTHOLOMEW

“I am Saint Bartholomew.

Historically, mankind has been given the opportunity to understand that there had to be a Divine Will, a Divine Creator for human life, and for all things that exist.

Today as you live each day, it is important to be aware that as an individual, each one has the responsibility to remember that human life was created for a Greater Purpose than any other living thing or matter; the one part of human life that has the responsibility to recognize that there is a purpose for all that an individual practices, participates in, accomplishes, and is responsible for, the very fact that human life has a mentality that is capable of great things, great understanding of things, that no other living matter is endowed with.

Today as I speak, I speak with a Deep Love, but also with the hope that All that has been delivered through The Father’s Gift in This Miracle,

constantly enlightens mankind to the Importance of human life over and above all other creations.

Each of Us Who speak, speak in a different manner, a different tone, a different degree, and many times on a different format of discussion. I use the word 'discussion' because it is logical for man, as he reads the Words, to express an opinion, to have something to say, to think about. This causes a communication between the individual and Many of Us Here in the Heavens.

You can take This Statement and relate it to the times you pray. Inwardly, you know the prayers are heard, whether the prayer is silent, just mentally delivered, or verbal with sound attached to it. Human life has a Living Communication that no other living thing has to The Creator of All there is. For some doubters to deny this is a sadness, but is pleasing to the enemy of The Creator, because human life was created for a Great Purpose, a Great Goal.

In living each day, mankind very often tries to reach success. It is innate in most men, women and

children, so it should not be difficult for mankind to understand that human life has a Great Goal, because it was created with intellect, imagination, and untold amount of abilities, of expression, of understanding in great detail for success.

Today as I speak, I speak with a Deep Love for human life, for I, too, once walked the path, perhaps vulnerable at times to mistakes, but thankful for an innate ability to conquer what could have been detrimental to That Portion of Me, unseen, yet More Important than I understood at the time.

Today as I speak, I speak with a Deep Love for The Divine, because as each child is born, there is a Distinct Closeness to The Creator that nothing else is the custodian of, or the recipient of, and that is called 'the Soul'.

As I bless you today, those who write My Words, and those who will read Them at a later time, I want you to understand that at 'this time' in the life of mankind, a Great Blessing has been bestowed on all who hear of This Gift, participate in This Gift, and who will release This Gift to the rest of the world.

I say this Blessing in the way you understand. Always remember that The Holy Trinity is ever present, and you must remember also, ever aware of every action, every thought, every deed you partake in, you are the instigator of, or that others will imitate you for.

I bless you in a way that you may not understand, but it is important for you to know, that through This Gift of The Father's Love, your Faith in what is Truth will give you the strength to conquer all doubts, all errors, all faults, and give you hope for Another World. So be it."

SAINT MATTHEW

“I am Saint Matthew.

Mankind at ‘this time’ has been gifted with a privilege beyond what mankind understands the Greatness of.

Today as I speak, I use *a small voice*, but *an obedient child*. Obedience is the basis for truth, honor, dignity, purpose, and it establishes a strong understanding of values that are important to sound moral values and sound moral standards of others who read the Words, or who participate in the action in which the Words speak about.

Mankind has been handed a Blessing of Profound Love, and yet All that is spoken is simple to understand, especially when those who write the Words, or who will read the Words at a later time, value human life in the full context in which it was created.

The Commandments handed to Moses a long time ago, have in many ways been made concise so that

mankind can remember Them, but it is important that the full meaning of each Commandment be researched logically, intelligently, for the Content to reveal the sound reality of purity of the mind, of the body, for the Soul.

Children are not being instructed on the importance of purity in speech, actions, personal behavior, and of course, in their association with others. There are so many men, women and children throughout the world basically ignoring The Commandments that were handed to mankind, as The Rules for human life to live by, to be guided by, assuring sound morals, sound values, for the benefit of one's Soul.

We hear individuals want a description of the Soul so they can believe in a more positive way regarding the Purpose for which they were created. Spiritual Faith has logic to it, in it, and it should always be addressed as being a Gift of Divine Love.

Mankind must be cautious at this time, because there are so many heretical views, practices, and individual human beings who

stress their own beliefs, their own interpretations of what is proper in life, what is reasonable for mankind to fulfill, many thus ignoring that without the Foundation as the sound reasoning for behavior, liberalism can be an ugly enemy to the mind, to the body, and to the Soul of those who cater to humanism, rather than to sound values regarding the importance of purity in all they say, they do, they practice, they are responsible for, they are example of.

So Many of Us, when We speak through This Gift of The Father's Love, try to present the Importance of what human life was created for, the Beauty in which it was intended to be a part of, because within each human life The Creator has a Portion of Divine Love, placed at the moment of each human conception. Reality is obvious because of what human life stands for, and in so many ways shows evidence of being different than all other living matter.

As I speak today, I speak with a deep Love based on The Father's Love, because mankind, in so many ways, is resisting the importance of human practices and are succumbing

to immoral values, immoral views and immoral conceptions on all issues in daily life, in the home, in the workplace, in social practices.

Today as I speak, mankind must be aware that monetary values to some individuals, supersede dignity of the human mind, the human body, the human practices. There are so many ways for mankind to fully understand what a Great Love mankind is the recipient of when a human life is created, because in this creation there is a Supreme Gift, and a Supreme Goal for every individual to one day reach.

So Many of Us Saints shorten Our Talks through the written Word, so that mankind is more able to absorb What is spoken, and to be able to live by the Directions that encourage each one to seek Sainthood, and ignore all the temptations that obviously please only the enemy of God and man. So be it.”

SAINT ALPHONSUS LIGUORI

“I am Saint Alphonsus Liguori.

There are many laws, rules, governing the behavior of human beings. These laws were dictated to help mankind live in an orderly, formal way, in that mankind would be responsible for all decisions that would apply to human behavior, on what was just over what would be unjust, toward another human being or to several human beings.

Many of the laws of mankind used The Commandments of The Father as the Foundation for what they wanted individuals to see as just or unjust, regarding several areas of behavior in valuable facts and figures that mankind depended upon in what would be termed ‘morally ethical’.

I speak in a form that mankind does not usually think about, because mankind becomes so familiar in human practices that they do not always practice what is legally proper, legally correct with others’ valuables, or that pertains to other people’s lives.

I speak slowly, but I speak firmly. The Commandments of The Father are not always understood in Their full degree of meaning, because mankind, in daily living, becomes accustomed to casual obligations and ignores the full value of his or her responsibilities, behavior with others.

As I speak today, I speak with a deep Love for human life, but I also desire those who will read My Words to understand that how an individual treats other human beings has an importance that is rarely discussed, considered, or thought about in its fullest measure.

The world has been Blessed by so much Reference, through This Gift of The Father's Love, to how mankind should carry his or her responsibilities morally, physically, financially, personally. So be it."

GOD THE FATHER

“I have given to the world a Gift of My Divine Love, Superior to any gift that mankind can receive in any other way, from any human being.

Through My Love for human life, I have requested to Many Saints Their time, to speak in a way, a manner, a degree, on subjects that mankind will learn more about the Importance of human life, My Intentions for it, My Love that is in it, because it bears a Portion of Me, setting human life in a different category than any other living thing.

Though it is difficult for thousands of human beings to believe This Gift of Mine is real, is genuine, is truly from Me, All that I have requested from Those Who have spoken through It had a Purpose, and this was to allow men, women and children to more fully understand that My Closeness to mankind is Greater than mankind can see, can feel, or fully comprehend.

I have requested so Many Saints to give short talks, encouraging those

who will read, the Importance of a Gift of My Divine Love, that in many ways attaches human life to Me through a Gift beyond human understanding, but obvious, because mankind has been gifted with the ability to know purity over impurity, right over wrong, justice over injustice, truths over untruths, thus allowing through the Soul, no blindness to be attached to My Will, My Love, My Closeness to human beings.

Children are being instructed on many subjects. Most of the subjects please other human beings because of a particular interest, attractive to the mentalities of individuals who enjoy the subject matter, thus ignoring the Importance of My Existence in All Things and to Many Degrees.

My Presence is constant, but even learned men who have studied theology, oftentimes cannot adjust mentally, physically, to the Soundness of My Being Present in all people at one time, throughout the world. In some, it is not a lack of Spiritual Faith, but many times due to the degree of understanding that My Presence is evident, without great minds understanding it.

I have spoken many times on the Importance of human life to Me. Today I say the Words again: ‘All an individual thinks, practices, works at, speaks, reflects in their Soul that is a Portion of Me.’ So be it.”

OCTOBER 28, 1998 AT 1:09 P.M.

SAINT ELIZABETH OF HUNGARY

“I am Saint Elizabeth of Hungary. I will speak in a tone, a manner, understandable to all degrees of intellect, because it is important that All that is written through This Gift of The Father’s Love has a Great Purpose for the lives of all of mankind.

When I speak My Name, so many would expect Me to speak in a language not understandable, but The Father, in His Gift of Divine Love, allows All of Us Here to speak in the language of *the child* through whom All Things pass.

The world has been Blessed. Mankind has been Blessed by This Gift of The Father’s Love for human life. There is no place in the world so much Personal Direction is being delivered, alerting all races, all colors, all creeds, all ages, to better understand that human life is Important in Divine Plan.

It is sad to hear individuals not understand that human life has an advantage over all other living matter

or things. It is not just because of the intelligence that human life is Blessed with, but the Soul that human life is Blessed with at the moment of conception, giving to human life a Gift Greater than any human achievement can make claim to.

It is important that This Gift of The Father's Love, This Gift of Instruction wherein the Words are put into script, requesting no changes in Context, Content, because it is of Great Importance that mankind understand This Gift of Direction, Instruction, helping all degrees of intelligence to be able to learn to value more the Gift of human life, because of the Soul for which it is and always has been created.

Throughout the world though, there is little instruction on What human life is the custodian of, that gives to human life an Important Goal, because of the Soul that is a Portion of The Creator that nothing else has.

This Gift of The Father's Love plays many roles in the daily life of every individual human being, because innately It whispers in a particular way to the individual. Some call it

‘conscience’, some call it ‘knowing right from wrong’, but I promise you, the Soul is involved in every thought, word, deed, action, hope, dream, always trying to, in some form, some way, encourage the individual to reach for purity over impurity, love over hate.

The world has been Blessed. All of mankind has been Blessed with This Gift so close to human life, allowing mankind to write It in Its full degree in each Lesson that is to encourage purity for the benefit of one’s Soul and mind.

Today as I speak, I speak with great Affection to all who inwardly desire to understand, that as mankind lives each day in human life, there are challenges, there are hopes, there are dreams, there are goals, but the Soul is the recipient of all that an individual acts out, acts on, participates in, practices, and chooses in decisions that are sometimes minor, sometimes of great importance. No act in life, no word in life, does not include the Soul of the individual.

Today as I speak, I am fully aware that some will read What I have

dictated and realize the closeness that man has to The Creator, but then there will be others who will find it easy to deny the Words, because in their thinking this could not happen.

Sometimes We hear an individual say, ‘I just can’t pray; I have to be in the mood to pray, and I’m at a point I don’t know what to say.’ Sometimes this is a plea for help, and Many of Us are available to help.

As I have spoken today in a deep Love for human life, I beseech those who will read My Words to think positively, and to think with hope, because human life has a Goal that nothing else has, and hope is the foundation, helping the will to more fully understand and to better comprehend that human life is close to The Creator, due to the Connecting Link man has through the Soul. So be it.”

OCTOBER 29, 1998 AT 1:09 P.M.

PADRE PIO

“I am Padre Pio. I know each time I speak through this *little one* with the small voice, the gentle body, and genteel in manner, the Power I use is very difficult on her, because It comes from within her.

I hear so many say I have not been pronounced ‘a Saint’. Sometimes public announcement takes more time because of so many considerations that mankind uses to confirm a Step as Great as Sainthood is.

Today as I speak, I speak with a deep Love, but also a deep Concern for all human life, all ages, all degrees of intelligence, all backgrounds.

The world is in what can easily be termed ‘immoral chaos’. Men, women and children do not understand, resist understanding, reject understanding, how important it is to have sound moral values and sound moral standards according to The Commandments of The Creator.

There are so many Words spoken in a casual way through This Miracle, and so many ignore the Value of the Words, the Beauty of the Words, also the Purpose of the Words, because humanism has a great deal of making things that are important appear unimportant, due to their lack of willingness to accept what is morally sound, morally logical, morally pure, pleasing to The Creator.

As I speak, I know My sound is difficult on *the little one* through whom I speak, but it is important that mankind stop abusing their Souls, and depend more upon the importance of purity in the mind, with the body, and of course, in their close association with everyone they come in contact.

It is also important that those who have accepted high Spiritual positions not neglect these positions, and not be so tolerant of immoralities in those with whom they associate.

The Father has given to mankind a Gift of Divine Love, and so many refuse to accept It, or deny It or even abuse It. As I leave you I say, *'In Nomine Patris, et Filii, et Spiritus Sancti. Amen.'* So be it."

OCTOBER 30, 1998 AT 1:28 P.M.

SAINT JOSEPH, THE HOLY SPIRIT

“I am Saint Joseph. This Gift bearing My Name is truly a Gift of Divine Love. As I walked in the human state caring for Two Very Important Individuals, I was fully aware of My Responsibilities because of the Importance of the Mission We were All on, for the sake of millions of Souls yet to be born in the human way.

At that Time mankind was Blessed abundantly by the very Presence of Those Who walked with Me. There are many stories written about that Time, but none of the stories fully explain the Magnitude of the Purpose for this Time in the History of The Father’s Love for human life.

Logic should tell mankind that as We took on the human forms, lived amidst mankind, All that was spoken, instructed, gave Strength, Hope, Clarity to human life, in that human life has responsibilities, and that human life can choose decencies over indecencies, purity over impurities, hope over despair, love over hate.

In the Creation of human life, The Father so designed human life in a way of giving to human life a mentality, plus the abilities to have the freedom to choose what would be pure over impure, correct over being incorrect, love over hate.

In This Gift of Divine Love that bears My Name, so much has been instructed in a logical formula of understanding, making all things that an individual does important, because of the Soul that each human being is the custodian of.

We hear some say, ‘My mentality does not say I have a Soul, because logic says I cannot see It, and if I cannot see It, It is not there.’ This statement, of course, is an excuse, because in the human way it is instinctive for mankind to know what is proper, what is improper, what is valuable, what is not valuable, what is pure over what is impure, and of course, this list is endless in the Gifts instilled in human life.

Mankind does not appreciate what a Treasure human life is, because human life is the custodian of a Precious Treasure of Divine Love,

and this Treasure is Greater than any ability that mankind can feel successful at, because this Treasure is a Gift of Divine Love to be returned to The Creator in a State of Purity, Appreciation, and Love.

So much has been delivered through This Gift of The Father's Divine Love for mankind. There is no human being born that is excluded from His Love; in fact, each child born bears a Portion of The Creator that no other living matter or thing has the privilege of.

Through This Gift of Instruction, so Many speak consistently and constantly, encouraging human life, human beings, to be aware of the Importance of being created in this state of life, because of the Soul that is Special to human life, that nothing else has.

Today as I speak, I speak through *a small instrument*, one such as all others born in the human way, and this is important when I say, 'Mankind must remember that it is through the human way that The Father reaches others so Personally, so Lovingly.' Do not forget that as We walked as The Holy Family,

Our Presence was necessary to others, because it was through this manner of humanity that so much was spoken, instructed, and used as the Example for human life to more fully understand how close human life is to The Father.

This Gift of Divine Love, This Miracle that bears My Name, must travel throughout the world because of the Souls that are in great need to know that those with whom They walk the earth will be informed on the Importance of human life, and become more understanding of the Soul that each one bears, that is to be returned to The Father in a Pure State of Life. So be it.”

NOVEMBER 2, 1998 AT 1:36 P.M.

SAINT JOHN VIANNEY

“I am Saint John Vianney. I have just made a Statement: So many individuals participate out of habit, rarely out of reason. What they participate in is oftentimes detrimental to the purity of their Soul.

This fact rarely, if ever, comes into the decision that an individual makes on the spur of the moment, or many times after much thought. Mankind, in many ways, has placed so much emphasis on humanism, or the degree of knowledge that he or she feels they are capable of using on all subjects in all areas of life, thus ignoring the validity or the importance or the goal of the subject matter that they are and will be responsible for.

All of The Saints fear for many Souls Who are the victims of so much humanism, with so many individual human beings ignoring what a Precious Gift human life is, and that in this manner of life there is a Goal Higher than mankind can recognize,

understand, or ever reach on material values alone.

Mankind has been Blessed abundantly, more than any other time in the History of human life, through a Miracle that bears the Name of The Holy Spirit of The Creator.

Many ask: ‘Why is Saint Joseph called “The Holy Spirit”? We were never told this other times.’ The Father, at ‘this time’, decided that it was time for mankind to be instructed on the Importance of human life and that it is the only living matter that has a union of Divine Love with The Creator of All Things. For mankind to be more able to associate with The Divine, The Father has granted to mankind the Knowledge that for years and years and years, did not come into openness until now, regarding the Fact that the so-called ‘Foster Father of The Son of God’ was in Truth, in Reality, ‘The Holy Spirit of The Father’.

Logic should tell mankind: Who else would The Father have chosen to be The Foster Father of The Son that was to be Sacrificed in the physical way, giving to mankind a Great Lesson, a Tremendous Instruction regarding

how The Divine would give to mankind a Personal Reasoning, Association, showing mankind in an open way, how close human life is in comparison to The Holy Trinity.

Mankind oftentimes refuses to understand, because to understand means to change one's practices and immoral values and standards. Human life has great Purpose, but a greater Goal. Out of all created things, human life has the greatest closeness to The Holy Trinity.

We hear individuals say: 'I said my prayers. I should feel better now. I wonder how long I will have to wait to get what I have requested.' This is sadness to hear, because this statement only divulges that an individual who prays in this format does not fully understand the greatness of his or her communication with The Divine.

When We hear an individual refer to something that is attractive or humanly important, and they say, 'It was divine,' it is obvious they do not understand that Divine has an Ultimate Goal, Definition, Purpose, Place, Reason, and should only be

addressed to What is Spiritually Ultimate in Reasoning and Fact.

As I speak today, I speak with a sincere hope that mankind begins to realize that human life is a Blessing, with a Divine Goal that nothing material has, and that no educational system throughout the world is capable of instilling such equal measures of Beauty, Facts, Truths, or Love.

Mankind oftentimes depends upon another human being for strength in many areas of life, forgetting or ignoring or just omitting, that within them they have the capability of the Greatest Communication, and that is to use their Soul as a Transmitter to The Creator of All Things.

The Soul is never thought about because mankind cannot see It, but logic says to mankind that all that mankind consists of has within it Something that he or she depends upon in times of need, times of despair, times of hope, times when all human things fail.

It is needless to say that All that has been put into script for mankind to read and to use as the Guidelines for daily living is available at this time

through This Gift of The Father's Love, dictating verbally and being put into script, not just for a few individuals, but for the whole world to begin to understand what a Treasure human life is the custodian of, That being a Portion of The Creator, a Soul, that is That Part of mankind to be Judged because of all that It was part of in the life of an individual called 'man'. So be it."

NOVEMBER 3, 1998 AT 2:50 P.M.

“There is never only One of Us present when a Message is passed through this *little one*, to be put into script and to be passed on to all of mankind throughout the world.

We speak many, many times to and through this *little one* who The Father has chosen for so much Information to be delivered to the whole world, so mankind of all degrees of intelligence and physical appearance and background, will be made aware of the Importance of what they truly were created for, and the real Purpose for which human life was created.

Though it is difficult for some who have little Faith to accept a Miracle as This is, millions of Souls will be helped by This Miracle that so much is revealed regarding the Importance of human life, because of the Soul that is placed within it at the moment of conception. Granted, animals of all types were created for other reasons, but human life is the

only creation that bears within it a Portion of The Creator.

In the beginning of human life, mankind did not have the understanding that time has allowed man to have. In the beginning of human life, mankind did not have the mentality, but did have sensitivity of being different than any other living matter and things they were surrounded by.

Today as I speak, it is to give Information, Valuable, to help mankind understand that human life has a Goal, because of the Soul that is handed at the moment of conception.

We hear many say, ‘Do all animals have Souls?’ No, they do not, but animal life was created for a purpose, a necessity, a reason, all too much to describe now, because it is important at this time for men, women and children of all races, all colors, all creeds, to recognize, to associate, to understand, and to use the human body as a channel of Divine Love, created to the Image and Likeness of The Creator; granted, not exactly like The Creator, but with many Gifts that give to human life the logic, the beauty, the purpose, to live as close as each one

can to recognizing that human life has a Goal that nothing else has, because of the Soul that will one day bear the name of the individual in whom It was placed at the moment of his or her conception.

This relationship with The Father has a closeness that nothing else has, and the Soul is the Connecting Link of Divine Love, Divine Grace, making mankind exceptional in a multiple number of ways.

The Father has handed to mankind many Gifts, many abilities, a Gift of understanding, a Gift of communication, a Gift of tolerance, hope, and an innate understanding of the necessity for purity, because of the Soul that, as a Portion of The Creator, allows the individual to know right over wrong, good over evil, truth over untruth, and that human life has Great Purpose.

I could speak more lengthy on this subject, and I will at another time. So be it.”

NOVEMBER 4, 1998 AT 1:35 P.M.

SAINT ALPHONSUS LIGUORI

“I am Saint Alphonsus Liguori. For such a long time now, Many of Us Saints have had the privilege to speak openly on many subjects, through a *small voice, an obedient voice*, from which so much clarity on subject matter pours forth readily, to be identified by the listener or listeners as being clearly stated, with no chance of the subject not being put in a stabilized mode of understanding.

Today as I speak, there are Many around Me. This Statement is difficult for human beings to understand, because men, women and children, in their state of life, their living conditions, their degree of intelligence, their ability to communicate with others, oftentimes find difficulty in expression, and/or expressing sound values, sound truths, because of the others with whom they are at that particular time, maybe of a totally different nature, belief or character, in morals and values.

The Father has given to the world a Gift of His Divine Love, One in which so much is spoken in an instructive, formal way, instilling into those who listen, and those who are asked to write the Words verbatim, because of the Importance of what human life consists of, and can easily project for others to learn from, grow from, or realize the importance of each day, and the benefits derived with every subject, with whomever they meet, live with, or are accustomed to temporary time with them.

Mankind has been told that they are example in everything they do, everything they practice openly, so that others can learn from them or imitate what they see.

Today, as I have spoken many things before, I have asked Some to be put in script. It is with great Love, deep Concern, and sincere Spiritual Hope, that mankind will learn to love All that has been delivered through This Gift of Divine Love, that at no other time in the History of human life has so much been delivered in the manner This Gift, at this time, because as mankind grows in technical knowledge, personal behavior,

according to how they live, where they live, and many other things, mankind does not realize that so much is imbedded into the human mind, and each one has the ability to use some of the greatest acts of love, Gifts of hope, beautiful experiences, giving to others Information when it is needed, to help them overcome despair, mental, or physical harm.

Much Love goes in Every Word spoken through This Gift of The Father's Love, and It is a Miracle that passes through *one voice, one mind, one child.* So be it."

NOVEMBER 5, 1998 AT 1:17 P.M.

OUR HEAVENLY MOTHER

“I am your Heavenly Mother. As I speak today, I speak in a Love, in a Manner, in a Way, that I plead for mankind to remember in every act, every word, every deed, never forgetting that through each act their Soul is the recipient of all the benefits of what they speak, or can be victimized if what they say is impure, unjust.

As I speak slowly through a *small voice*, it is to help those who are present to feel an in-depth understanding of the importance of their responsibilities, that they must constantly be conscious of in their example to everyone they come in contact with.

There are thousands and thousands and thousands of men, women and children who have no concept of the Value, the Importance, the Reason or the Goal of human life. That is why The Father has given to the world This Magnificent Blessing in which, through which, by which, so

Many Saints have been permitted and requested to speak in a constructive, instructive degree of helping those who are yet upon the earth to be example to everyone they meet, because of the Soul that is present every moment of every day, in every human life.

We hear children beg for help on different subjects, for different reasons, and so many times comfort should be given by others taking the time to speak about the Importance of human life, and how precious it is to be alive; of course, never leaving out that statement: 'It has a Goal to it that is beyond human understanding.' There is so little instruction on the difference between human life and all other living things or matter.

The Father, in His Love for mankind, this Creation of human life, appointed a Time for This Gift of His Divine Love to instruct on the Importance of human life, allowing so Many Saints to participate in what human life has to look forward to, not an ending, but a beginning that was meant from the moment of the first conception of human life; the Goal, to return to The Creator in a State of

Love, Purity, that is basically beyond anything human life has to offer.

This Gift of human life is a privilege because of the will that each individual is born with, the intellect for each individual to understand goodness over evil, right over wrong, purity over impurity, love over hate, reasoning over doubt or lies.

Today as I speak, I speak in a different manner than I usually speak, but it is important for human life to not ignore the importance of every moment of every day, and that sensitivity to what is right over what is wrong, or impure, has great meaning to the Soul of every human being born to the world. No matter what age, no matter what degree of intellect, or what type of personality is projected, every human being is gifted with an innate knowledge of what is pure over impure, in speech, in contact with others, what takes place in the intellect, and what decisions are made by one person, or between one and others.

Today I bless those who take My Words, because These Words are to spread throughout the world, touching

many lives, because so little is dictated in the human way on the Importance of the Soul that each human life is the custodian of, and so little is learned about the Goal that human life was created for.

Many Saints Here daily give thanks for Their chance to speak through This Beautiful Gift of The Father's Love, because mankind does not have the insight or the desire to more fully understand what a Great Gift human life is, because they see only the physical, the mental, that is constantly involved in humanistic values, terminology, practices and association, through others like themselves.

This Miracle of The Father's Love was given to the whole world through *one small voice*, to awaken mankind to what a Precious Gift human life is, and that it has a Goal Greater than any goal mankind can strive to reach. So be it."

NOVEMBER 10, 1998 AT 2:03 P.M.

SAINT BERNADETTE

“I am Saint Bernadette. When The Father gives Any One of Us the privilege to speak to those who are yet walking in the human life way, the privilege is boundless in what human life has the privilege to learn, at this time in your day.

In so many times of past History, one can take one century after the other, human beings made many changes supposedly easier to live by, more practical in daily life, more prosperous to human needs and wishes. Most things by man accentuate the physical, mental and monetary gains. It is rare that We hear individuals of all races, all colors, all creeds, speak about growing mentally, morally, to one day become ‘a Saint’.

The Father has given to mankind a Great Gift of Instruction that has for several years now, passed to different individuals the Importance of human life, the Reason for human life, the Goal for human life, and the Beauty for this Gift of Divine Love that has a

Greater Purpose to Its Existence than anything man can create.

We hear scientists speak openly about their progress, sometimes bragging on how much they have accomplished, and how much meaning it will have for those who will partake in it, whether it be medically sound, or the ability to travel into space, gathering information for the future lives to come.

Mankind should be guided by an innate wisdom that is based on logic, sound reasoning, and practical issues, always keeping in mind that each human life has a Greater Purpose than any great event that mankind has the ability to invent.

Children are not being taught that each day of human life is a Gift of Divine Love, has personal reasons, personal gains, personal hopes, personal goals, no matter what the intellect of an individual is, no matter what an individual hopes to achieve physically. Too little emphasis is placed on morality, on obedience to The Commandments of God.

We hear some individuals try to put The Commandments in the past,

and put much more emphasis on what they term ‘future ideals, future goals, future pleasures’.

It is important that mankind stop and think, stop and realize, stop and use what he or she wants as the Goal for living as a human being. There will be no spaceships to take the Soul where It will go. There will be no spaceships that will be the appointed place for the Soul to find what It was created for, what It was given for.

I do not say that science is wrong, but I do say that science is not all there is to life, because every human being cannot be involved in scientific ventures, but every human being has the privilege to return his or her Soul for a Life unbelievable to the human mind, but a Life that nothing else can compare to.

Men, women and children oftentimes look for treasures. The Greatest Treasure a human being can find is to one day be called ‘a Saint in Heaven’. So be it.”

SAINT ALPHONSUS LIGUORI

“I am Saint Alphonsus Liguori. As I speak Words today, I plead with mankind to be aware of the Importance of the Gift of human life.

It is important that all ages begin to understand that each day is a Gift of Divine Love, giving the opportunity to every living human being to correct all things in their nature, their personality, their manner of how they act, that can in many ways show morality, and help others better understand, and be more willing to understand, what is pure in actions, in words, in character, in ideals, in performance, in reasoning, in example.

We hear many learned men and women speak in ways they feel their language is important, their stature is important, but oftentimes their egos and their own weaknesses show greater than the lesson they hope they are representing.

Children are not being exposed to The Commandments that The Creator gave to human life, to follow

in all walks of life. Mankind is more aware of the rules of an organization, the rules of a school, the rules that others set down when they are in their company, on pleasure or business.

Mankind must understand that there are so many Gifts to human life, but the Main Gift that human life is the custodian of is an unseen reality, connecting each human life physically to The Creator of All Things.

So Many of Us have spoken so openly, clearly, instructing as We were informed We must instruct, on what a Precious Gift human life is, and that human life has a Goal that nothing else has. It is sad when We hear an individual ignore openly, verbally, consciously, deliberately, that they are the custodian of the Soul from The Creator, The Giver of Life, also The Judge of the Soul of every human life.

Today as I speak, I speak with a deep sense of Love, and yet a deep sense of Fear, that mankind is not listening to All that has been delivered through This Gift of Divine Love. The Father sent This Gift to the world through His Holy Spirit. Man calls This Holy Spirit by a human Name, 'Saint Joseph',

but in reality, logic says that Saint Joseph, to mankind, had to be Greater than what the human form depicts, or depicted, because it would be illogical to place a human figure as The Foster Father of The Son of The Creator, and The Husband of The Queen of Heaven.

All that has been delivered is not difficult in Context or Content. It is time for mankind to awaken to the reality of This Gift of Divine Love that has in so many ways spoken, instructing in a deliberate form, that each human being has the responsibility of obedience to The Commandments of The Creator, because of the Soul that is the recipient of all that an individual does through his or her time of human life. So be it.”

SAINT PEREGRINE

“I am Saint Peregrine. Many of Us are given the privilege to speak through This Gift of The Father’s Love, Each of Us in Our Own Way, instructing those who will read Our Words, on the Importance of the Gift of human life.

In the Design of this Gift of Love, many things were considered; first of all, the formation, allowing all portions of human life to have reason, and many to have abilities. The senses of human life are various, and it is important for mankind to use each sense in the proper way, proper degree, for the reason it was given, because each individual is responsible for how they use the senses of the human body.

Granted, all individuals do not have the same manner of mentality, same degree of understanding all things, but through the mentality, the knowledge of what is right, what is wrong, what is truth, what is untruth, is obvious. In many ways, the ability to speak, the ability to think, the

ability to hear, and the senses of taste and smell are important, because each of these things are used in more ways than an individual realizes, or understands the importance of.

My subject matter might be read as unusual, coming from a Saint, but it is important that human beings understand that through the senses, through all these Gifts in human life, they are the connecting links many times, most times, to what an individual practices in purity or impurity.

Mankind many times feels adjusted to so many distractions, thus ignoring the purpose, the reason, or the wrong that can come from distraction. We hear many learned men and women overconfident in their abilities, in their choices, and in what they feel justified in participating in, or practicing emotionally, physically, mentally, but not always are they right in their decisions, because they are sometimes misled by their own egotism, or innate desires that are detrimental to the safety, the protection of their Soul.

Ask yourself: How many conversations do individuals have with

others regarding their moral values, moral standards, that the Soul of each one is responsible for? Sometimes, in religious circles the subject matter is brought up, but rarely, if ever, is it spoken about in the important degree of its content, or what it can do to others listening, or those present.

Mankind takes for granted everything they are available to, most of the time totally ignoring their moral responsibilities. If you were to walk up to some individuals and say, 'I am writing an article on morality,' some might laugh, and some might be arrogant in their retorts on the subject matter. Morality does not seem to make a good subject to speak about, because there are so many differences in opinions, but no matter what a human being appears like physically, each human being is responsible for their moral values, standards, practices, involvements, reasonings.

I could go on and on and on. For some it is difficult that a Lesson of this nature would come through a Saint, but All Saints are ever aware of the importance on all subjects that human life must reconcile with; also, be more aware of the importance the

subject matter is to the condition of his or her Soul. A reminder should be handed out, asking individuals if they are aware of the condition of their Soul to the degree they are of their physical appearance, practices, attitudes, duties.

So much Love passes through This Gift of The Father's Love, enlightening mankind, encouraging mankind, to look beyond and value what life was created for, and that it has a Goal Greater than any earthly practice or goal that mankind can achieve as he or she lives in the human way. Mankind must understand that the Creation of human life has a Purpose, a Reason and a Future, the Future depending on how the individual lived.

Today as I speak, I speak with a deep Love for human life, for do not forget, I too lived it in another time. So be it."

SAINT ELIZABETH

“I am Saint Elizabeth. My Name is not often mentioned in your day, because through time mankind has become acquainted with so Many Saints in Heaven, and mankind must understand that to remember the Lives of The Saints is very, very, very important.

Everything has not been put into script regarding the Lives of All Who are Here with Me now. The Heavenly Queen, The Mother of The Beloved Son of The Father, though evident in Certain Forms, Certain Ways, is not truly seen, understood in the Greatness She Is, attached to the Soul of every human being.

We hear men, women and children say prayers that they have learned through the writings of others. This is good, but it is also important that each human being communicate in a personal way, because Every Saint is available when spoken to, because of the Soul that is in every living

human being the whole time that the individual breathes air.

The world has been Blessed with so much Information elaborating on the Importance of human life, and the responsibilities that are innate in human life, because of the ability for mankind to think and to be able to absorb the full meaning of situations, conditions, occurrences, and behavior patterns of all with whom they come in contact.

In so many ways, for such a long time, much has been revealed to mankind regarding the importance of every thought, every word, every deed, every action, because of the Soul that is present at all times, assigned to an individual by The Creator of All Things.

These Words should not be difficult for anyone to understand, because each individual has an innate sensitivity of never truly being alone; there is always a hidden Presence, and a deep understanding of what one thinks, says, practices, participates in, or becomes associated with morally, mentally, physically, socially, educationally.

At 'this time' mankind has been gifted with a Great Divine Love of Instruction, open to millions through What is spoken from Many Saints, also by The Creator Himself, regarding what is expected of the Gift of human life, and the Importance of it; also, the dependence of his or her Soul on all an individual acts out, participates in, is the instigator of.

Granted, mankind reads All the Words and many times finds little need for change in himself or herself, because they automatically cast aside their responsibility for becoming human, and the responsibility of protecting a Gift of Divine Love, making this human life extraordinary, above all other living things or matter.

Many of Us Saints request The Father, 'Can We not shout out loud, so they will hear a voice, so they will better understand?' He says, 'The Soul, as a Portion of Me, will help all who request help, because the Soul is My Love to each human being.' So be it."

NOVEMBER 17, 1998 AT 1:40 P.M.

SAINT JOHN VIANNEY

“I am Saint John Vianney.

Ask yourself: How many times do you hear the word ‘pagan’ in reference to another being? The word, many times, many years ago, was a common phrase amongst mankind. The word ‘pagan’ says ‘no belief in God’. When it says to some ‘no belief in God’, it oftentimes refers to the possibility that there are many gods.

Some reading This Statement will find it difficult to believe, but it is important for mankind to value All that has been given through This Gift of Divine Love, not just encouraging human beings to more fully understand what a Precious Gift human life is and has, because of the Soul, that to each human life is a Portion of The Creator, and must be cared for, protected, and never in any way blasphemed or forgotten.

Children are not being instructed on the Presence in their being that is so close to The Creator, being a Part of The Creator, which automatically sets

human life apart from all other living matter or things.

So Many of Us speak constantly, encouraging Our Words to be passed amongst millions of other human beings. So Many Saints speak so that mankind is not limited to one or two Revelations, but has the opportunity to use hundreds of Revelations, giving to mankind a diversified way, formula, in how he or she can speak about the Importance of human life, based on What Some Saint said regarding the Soul that mankind is responsible for, responsible to, because of Who It is a Portion of.

We hear so many academic reasons for facts that mankind uses to help others understand all forms, all sorts, all degrees, of what is important, what is easy for them to understand regarding material matters, or facts in conversations that make the subject important because it refers to human life, or acts that are acted out through the human form of life.

Millions of Words have been spoken through This Gift of The Father's Love, All drawing attention, directing attention to that precious

Gift that man has to man, and that is to be example; also, the responsibility of being pure in all an individual participates in, or can be imitated by, because human nature reacts, responds, follows, learns from one to the other on all subjects, in all areas that mankind participates.

It is so important that This Gift of Divine Love is used to help others begin to understand, or to cultivate understanding that they are never alone, because they have a Portion of The Creator within them from the moment of his or her conception, thus giving them a higher place amongst all creations, a place of honor, dignity, responsibility, and a Goal that nothing else has. So be it.”

SAINT ATHANASIUS

“I am Saint Athanasius.

Throughout the world it is difficult for mankind to understand and/or even believe in how many heresies mankind is involved, is the perpetrator of. Heresy, to mankind, is a subject they read about, they’ve heard about, but most do not anticipate that they can be a part, a participant of a great heresy.

Today as I speak in a manner, a way, in terminology understandable, it is important that mankind throughout the world begin to recognize the presence of so many heretical inducements, practices, that they are requested to partake in, usually under the guise of a Spiritual note, idea, or misinformed statistics or subject matter.

Innocence plays a great part in mankind’s life. By this type of innocence, I mean a lack of interpretation on subject matter that poses, or is exposed to introducing some act, some informative information

that, in essence, pleases the enemy of God and man.

Mankind many times ignores something that he or she senses to be not morally sound, thus the Soul becomes 'the victim' of what is practiced, what is accepted, what can easily be passed off as being not harmful to any portion of one's body.

Heresy is prevalent throughout the world. There are many religious vows taken, because an individual feels that this manner of vocation is what is more important to them than choosing a manner of life that is practical monetarily.

As I speak today, I speak with a deep Love for human life, because human life, in all its responsibilities, has the Greatest Goal to reach than any other living matter or thing.

As mankind approaches a time in which so many men, women and children use the Birth of a Child from a long time ago as an Important Event, and the Celebration oftentimes becomes more humanistic in content, in practice, because mankind bends to what is practical and what others use this time for, thus oftentimes ignoring

the Sacredness of what This Event gave to the world.

As I leave you, I want you to remember: To be born a human being is a privilege beyond what mankind understands a privilege to mean; the human mind, intellect, understanding, mental abilities, physical abilities are all present every day.

So do not forget, one day a year should not be the only day that mankind should celebrate the Birth of The Son of God. This gratitude, this thanksgiving should be a daily occurrence, and remembered because of the Greatness that This Event means to every living human being. So be it.”

SAINT ROBERT BELLARMINE

“I am Saint Robert Bellarmine.

We hear so many men, women and children place much importance on a name. Sometimes the name is what mankind calls ‘a name of strength’, or ‘a name of beauty’, or ‘a name that suits the individual in every way’.

Exactly how does a name play so much importance on its sound, on its implication, on its meaning, and/or the question should be asked, ‘Is the name the Name of a Saint?’ So many times nicknames are appreciated more because they either flatter the individual, or make others see the individual in a different way, sometimes flattering, or sometimes just for the sake of it being unusual, attractive to others.

We hear mankind say, ‘What’s in a name?’ These words are spoken every day somewhere in the world. Because a name is so important is why The Father tells Us to give Our Name when We address a Revelation, an Instruction through This Gift of

His Divine Love. Without a Name attached to What We say, fewer people of all ages would find What We speak as important.

A name to mankind says many things. It points to the individual for what the individual stands for, believes in, practices, is associated with, or with whom. A name allows identification, and through this identification there is an importance. A personality is associated to different names of individuals. Talents are associated to individuals through the name they are given, or take on for themselves.

Let us now imagine a child about to be born. The time will come shortly that this little individual will be identifiable by its name. The personality, the mentality, the looks, the cry, the actions, will all be minor to the name that this child is given when this child is totally dependent on those close to him or her. What mankind does not seem to put much importance on is the Most Important Part of that little human body, and that is, that little body bears a Portion of The Creator, openly seen as a son or a

daughter with a Soul that is attached to The Creator of All Things.

Ask yourself: When you see a newborn baby, what attracts you to it immediately? If you say, 'The Soul,' I will be surprised, because you cannot see the Soul. All the physical parts are evidenced by how the little one is treated, accepted, loved or concerned about.

Some might say, in reading This, 'It seems too early, too soon to worry about the Soul.' The Soul of every human individual born is a Living Portion of The Creator, and that is why it is so necessary to care for the individual child, to prepare in every way to protect and to help it grow, understanding the Importance of human life, and that within it, it has a Soul.

Let us, you and I, walk through a room, and at this time there are several children making their entrance into the world. It is important to realize that the new life is dependent from the moment of conception, and long after it is conceived. That is why it is so important to never forget that as the human flesh grows and becomes more

evident mentally, physically, so does the Soul. That is why it is important that no child not be taught that within them God is Present, because it is He Who created them, and that they, in everything they do, must be mindful of His Presence, though unseen, cares for them physically, mentally, and they are a Portion of The Creator that no other living thing has. So be it.”

DECEMBER 8, 1998 AT 1:00 P.M.

GOD THE FATHER

“I am God The Father. As I speak openly on this day in your time, it is for an Important Reason that I want you to think about, and be able to see the Importance of, because of your Soul and the Souls of all human beings that I have created and will create.

Mankind very often denies My Existence because of The Rules that he or she understands to be Mine, that is what you call ‘The Ten Commandments’. In reality, The Commandments that I gave through ‘an individual’ a long time ago, have in many ways been diminished, so that mankind can easily remember a Portion of each Commandment, leaving out many of the important portions that I instilled in that man called ‘Moses’.

I could speak for a very long time on each Commandment, because it is important for mankind to fully understand that to make things so concise does not give to others the detail, and the points of concern that

the Soul is responsible for in each human life.

Today as I speak, I speak through a *small voice*, but an *obedient voice*, and it is important that all of mankind be handed a Portion of This Gift, in which so much has been delivered by so Many Who have become Saints and are close to Me in the Heavens.

To mankind, the word ‘Heaven’ is something unbelievable, not understandable, and in some ways inconceivable, but as I speak today through a *very small voice*, it is to remind mankind of The Commandments I gave through ‘one voice’ a long time ago, never to be forgotten, never to be diminished, never to be shortened, and never to be disobeyed.

As I speak to you today, I speak with a Deep Love for human life. Logic should tell mankind I would not give a Portion of Myself to anything, unless it had a Great Importance in its Reason for being.

The world has been Blessed by This Gift of My Divine Love, This Miracle that bears the Name of a Son that is and was basically a Portion

of Me, in Ways mankind could not conceive.

So many times I hear individuals call My Name and ask for favors. I hear every request mankind makes to Me. It is important that mankind, from this point on, be example of all that The Commandments I gave to one man, are received and understood, because That Portion of human life, the Soul, is dependent on the individual's understanding of why he or she was created, and that I would not have created human life if I did not have a Special Purpose, Reason, or Goal for it.

As I speak through *a small voice*, I speak with a Commanding Voice. My Commandments are to be spread in detail, not in conciseness, throughout the world. I bless you from the Heavens with My Blessing, because as your Soul is a Portion of Me, that makes Me Part of you. So be it."

DECEMBER 10, 1998 AT 1:04 P.M.

SAINT ALPHONSUS LIGUORI

“I am Saint Alphonsus Liguori.

Human life has many facets to it, obvious to the individual who reacts, who responds, who reflects, and who is example of all that is in the mind.

It is important that mankind understand that human life has been given many special Gifts that no other matter or things have, to use. Mankind has an intellect, a conscience, and the ability to know what is right, what is wrong, what is pure, what is impure. These words cover many areas of human life: the mentality, the abilities, the decisions, and many other areas that do not always show when an individual responds to what they hear, what they see, what they feel, or what they understand. Human life is distinct from all other living matter or things.

Today as I speak, I speak with an Understanding, and a deep Love for all those who are born to this Gift of Divine Love. It is truly a Gift beyond what mankind understands it to be,

because above all other creations it is the ultimate in Reason, in Purpose, and Goal.

Children are not being instructed on what a Precious Gift human life is. There is too little emphasis on the importance of the mentality and the free will. So many times individuals become more interested in what an individual represents financially, rather than what an individual represents morally.

The Father has given to the world a continuous Gift of His Love for human life, because of the Importance of it, and the Goal for which it was designed and created. Too little Importance is placed on what human life has as its Goal. Much more importance is placed on humanistic evaluations, character and involvements.

It is time that mankind awaken to the importance of instruction to the young, and even older, because there is very little instruction on why human life is so different than all other living things or matter. There is little belief registered, because mankind very often omits that human life has

an innate understanding of what is morally sound over what is immoral.

Granted, a long time ago mankind was given The Commandments of The Creator, but These have not been delivered in the same format They were first delivered. They have been shortened to such a conciseness, They have little meaning when They are read. It is time that the full meaning of each Commandment be stressed openly, deliberately, so that mankind of all ages, races, colors, creeds, will have the benefits of the importance of understanding fully These First Statements for mankind to be able to live by, live with, and use as a Format for all thoughts, words, deeds, actions.

Today My Words must be delivered to thousands who will never have the chance to know the Importance that human life is endowed with at the moment of conception. Though I speak firmly, I speak with a Great Love, because I, too, walked the path of the human way, and I, too, remember the difficulty many had in seeing the value of not just morality, but purity in morality, love for The Creator in morality, and of course, concern for

the Soul that is an Important Portion of every human life. So be it.”

DECEMBER 14, 1998 AT 1:21 P.M.

OUR HEAVENLY MOTHER

“I am your Heavenly Mother. Through a Gift such as This One is, wherein so Many of Us are given the time, the privilege to speak through *one small voice* to the whole world, because of man’s ability to be able to write What We speak, and it can be translated in different languages so that mankind has a Personal Association with All of Heaven.

When We hear doubt as to the Beauty, the Magnitude, the Truth of This Gift of Divine Love, it brings a sadness to All of Us, because a Gift of This Design, This Measure, This Beauty, This Love, is beyond what mankind could possibly give to one another.

The Value of Communication through *one small voice* has a Magnitude to It, in It, for It, that might be difficult for some to understand or even believe, but the very Words, the Intentions, the Directions, the Concerns, should reveal from Whom All Things are being said.

Today as I speak, I speak with a Mother's Love, beyond what mankind can understand Love to be. It is important that the world of all human beings be alerted to This Gift of The Father's Love, in which so much is spoken, so much Direction regarding the Importance of human life because of the Soul that each individual is the custodian of, from the moment of conception until It returns to The Father at a particular time.

A gift brings happiness when the receiver understands the importance of it, the love in it, the truth in it. A Gift of Divine Love could not be better than the Gift that This Miracle has been to all of mankind, because in The Father's Love, so much has been delivered, instructing all ages on the Beauty, Importance and Goal of why human life was created, and that is to return to The Creator, That Portion, the Soul.

We hear individuals say, 'If I have a Soul, why can I not feel it?' You do, because you have the Gift of knowing right from wrong, good from evil, justice from injustice, hope from despair.

As I speak today, I speak with a Mother's Love. It is important that This Gift of The Father's Love be delivered throughout the world as soon as possible. No human being should not have the privilege of being instructed by All We have spoken. No Greater Gift can mankind receive at this time, or any other time, than to have so much Personal Contact, so much Personal Instruction, awakening mankind to the Importance of the Soul that no human being is born without.

The Father is in close contact with every human life born to the world. This Close Association gives to mankind a sensitivity that nothing else has, an understanding of the importance of success, fearing a loss, or being left alone. It is important for mankind to value that Precious Gift of Divine Love that cannot be seen by the human eye, but the human mind knows right from wrong, purity from impurity, hope from despair.

As I speak today, I speak with a Deep Love, a Mother's Love, for though you cannot see Me, I am Here. So be it."

DECEMBER 17, 1998 AT 11:10 A.M.

GOD THE FATHER

“I have Blessed the world with a Gift of My Divine Love. I have Blessed mankind with many Words of Mine, instructing on many issues, on how mankind should practice his and her love for Me. Each individual has the opportunity to serve Me at this time in the world.

Mankind must understand that I have given a Specific Gift of My Love, Personal in many ways, easy for mankind to more fully understand the Closeness I am to mankind each day, each hour, every minute.

I come through *a small voice*, but *an obedient voice*. I come through *a channel* of My Divine Love. I hear many individuals say, ‘This Gift cannot be,’ but I say to the world, ‘At different times I have found it necessary to communicate Personally with human life.’

This Gift of Mine that bears the Name of My Spirit of Love, Hope, is a Gift of Personal Communication. Mankind can compare It in one way

to how one expresses to another one, ideas and thoughts of importance that they want others to understand how they feel, what they are concerned about, and also, to make others aware that there is a line of communication that cannot be ignored.

I, too, speak this way, in a manner, a degree, a sound, that mankind can understand, and then I have requested My Communication to be put into script, so that millions who were not present would be able to receive My Messages, and also the Messages from All The Saints. So be it.”

DECEMBER 17, 1998 AT 1:49 P.M.

“There are Several of Us present at this moment in your time.

The Father gave to the world a Gift that was much needed, because of so much diabolical practice within the clergy of all denominations of Faith, and also amidst mankind, all degrees of intelligence.

You do live in a time that can be compared to a past time in the History of human life, but in sound value it can be spoken of as being worse than the past History mankind is used to speaking about. Sodom and Gomorrah were a great sadness because of the demonic intervention on so many issues, in so many places at one time.

Today as I speak through *a small voice*, but *an obedient voice*, I speak to a number who are present who have been requested to put into script the Words I speak so directly, so clearly, so full of Words that describe the conditions mankind has allowed, and is allowing to occur, thus denying the

Presence, the Importance of Divine Love.

Today is a special day to some throughout the world, because they celebrate something important to their life. Each day carries this practice of men, women and children.

Mankind must realize that human life is born with an Important Portion in it, a Gift of Divine Love that daily, momentarily is available to the individual to understand what is pure, what is impure, what is truth, what is untruth. Mankind has a Special Purpose in human life.

It is sad not to hear individuals relate back to The Holy Family, and use judgment on all they partake in, all they practice, all they believe human life has in its very existence. Eagerly, men, women and children constantly strive for success, higher goals, and yet few see the 'Goal of Sainthood' as the Greatest Gift they can reach through living the human life.

Today as I speak to you, I am fully aware of how many throughout the world, men, women and children, are practicing impurities of the mind,

the body, affecting their Soul with a sadness, a disgrace.

When We hear an individual fight for justice, and it is a just fight, We anxiously encourage the individual, and do all We can to help the individual, sometimes even when the individual does not ask for help.

Today as I speak through *one small voice*, I ask My Words to be written, because mankind is in great need to know that Those of Us Who are known to be in Heaven, are constantly willing to guide, guard, and help when an individual calls for help.

At this moment there are many children being born throughout the world. It is important that these children return their Soul to from Where It came, but I ask you to think of how many children will be made aware that human life has a Gift that no other life has, no other living matter has, and that is the Gift of belonging to The Creator, designed by The Creator for a Special Purpose.

Mankind has forgotten the importance of truth over untruth, love over hate, also the importance of one's conscience and how one attacks

difficulties, problems and decisions that mean so much to the Soul that one cannot see; but the sensitivity to understand what is pure over impure in one's actions, one's thoughts, one's abilities, logically tells an individual that there is an inner understanding of obligation, and this then allows an individual to see that there is more that an individual is responsible for and to, than just the fleeting moment to make a decision.

Today as I speak, I speak with a Great Love for human life, for I, too, walked the road, and mankind must remember that experience is the best teacher, and logic is always evident when an individual wants to be rational, logical, and make the right decision for the right goal.

There is no other Miracle in the world like The One in which I speak to you. It is a Blessing beyond what mankind truly knows, but when one receives a Blessing, one should remember that there is a responsibility based on self-control. So be it."

DECEMBER 18, 1998 AT 1:31 P.M.

OUR HEAVENLY MOTHER

“I am your Heavenly Mother.

The Father has given to mankind a Special Gift of His Love. This Gift is, in many ways, not appreciated by mankind at this time, because men, women and children refuse to understand the importance of The Commandments, thus ignoring obedience to Them, and allowing all things to be satisfactory, whether they are moral or immoral in content, in actions, or in thinking.

Though it is difficult for many to believe that I am speaking at this time, nonetheless, it is Truth. The Father assigned This Time to be, because of the need of all human beings to more fully understand what a Precious Gift human life is to man, and that it is the only living matter or thing that has a Goal as Important as returning the Soul to The Heavenly King.

The Father has given to the world a Miracle of Instruction, a Miracle constantly handing to mankind Help, Hope, Information, binding mankind

through the Soul to the Important Place Wherein The Father Speaks From, Directs From.

Mankind finds it difficult to believe there is a Heaven, a Purgatory, or a Hell. These words are oftentimes misused, but logic speaks that The Father, in His Generosity to human life, instilling in it so many Gifts that allows human life to be a part of what The Father has, such as the ability to know, to learn, to sense, the ability to be strong against all that is evil, the ability to fully understand the concept of so many things He created for human life to be a part of.

It is sad when I hear rejection of human life being a Special Gift of Divine Love, a source of energy, intellect, and many abilities, giving to human life Gifts, which The Creator has abundantly, in the understanding of purity over impurity, right over wrong, and the sincerity in understanding the importance of being the recipient of talents, intellect, and a conscious understanding of the Importance of human life.

So much has been delivered and put into script, so that millions of

individuals will have the advantage to more fully understand what a Great, Loving Gift human life has over and above all other things created. The world has been given a sense of balance that no human being could have invented or designed. Men are just learning the magnitude that is involved in all that has been created.

Today as I speak, I speak with a Deep Love for human life, because within each human life there is a Gift of Divine Love, not always understood, never seen, but in some form, each man, woman and child is aware of an inner understanding of the Importance of human life, and this can only come from The One Who created it. So be it.”

DECEMBER 22, 1998 AT 1:11 P.M.

“Many of Us Saints stand here with you today and pass through *one voice* an Important Message.

Throughout the world there is much confusion on the true understanding of The Holy Trinity. There are so many opinions, so many different views, so many versions.

Today as I speak, I speak with a Deep Love for mankind, because mankind is a Special Creation of The Father’s, and in each human life a Gift of His Divine Love is presented, instilled at the moment of conception. This Statement is difficult for many to understand, but mankind must believe the Statement of how closely associated it is with The Divine.

The Father has given to the world a Gift beyond human ability to achieve on one’s own, and that is a Gift through *one voice, one mind, one body*, joined with the Connecting Link of Obedience, of Love, so that the Words that flow freely are Words that are being repeated from a Supreme Voice,

because of the necessity for mankind to more fully understand, and to grow spiritually, not just believing in a Higher Life, but in a Different Life, a Life of Belonging, and being in Close Contact at a Future Time with The Supreme Being.

The voice used is a small voice, but a voice that there can be no doubt is repeating What it is told to repeat. We show *the little one* through whom We All speak a vision of thousands of people, all ages. In some ways she fears the scene, because it is innate in human life to fear the sight, or being in the midst of all degrees of temperaments, beliefs, personalities, and degrees of Spiritual understanding. *The little one* says to The Father, 'I want to be released.' He says, 'In due time.'

We will describe to you now a Vision that passes through her so that you will become acquainted with what a voluminous amount of Love, Information, Hope, has been delivered through This Gift of The Father's, for not just one child, but millions.

In the beginning of human life, it was deliberately begun on a different scale of mental acumen, physical

abilities, than the world of mankind at this time is associated with or familiar with. We show her a scene of a long time ago, the beginning of human life. She says to Us, 'I would be frightened if I were to have lived at that time.' Each era of human life had a purpose, because the first Creations of human life began in a different degree of abilities, understanding, talents, and mental capacity.

We show her now a scene. She does not understand what she is seeing, and she is asking Us questions. There were many stages of human beings to reach the time now, in which those who will read My Words will fully only understand the manner and life of the present time. It is important for human life to be more conscious of what a Great Gift human life is, because through the increase in abilities, talents, mental capacities, mankind has reached a dignified yet vulnerable point in the History of human life.

There are so many facets that mankind does not think about as each day opens to a new day. Each human being focuses on what they are about,

and their individual life as they know it to be.

This Gift of The Father's Love was handed to mankind because of The Father's Love for this creation, that bears a Portion of Him from the moment of conception to the time one takes a last breath. In so many ways mankind ignores what a Great Gift human life is, perhaps out of fear, perhaps out of a lack of understanding that, though mankind reaches for progress, each era of human life develops a greater understanding of so many things beneficial to the betterment of human life, sometimes totally ignoring that human life has a Goal that no other living matter or thing possesses.

We hear some individuals make up stories to gain attention. Some are done in a sincere way, some are done to gain others' attentions.

As I hold *the little one* tightly, she feels My Presence deeply. Oftentimes she sheds tears, fearful that Our Words are held back, because she knows how important They are to every human life, no matter what race, color, creed, or age. There was Great Purpose for This Gift of The Father's Love, a Purpose

beyond what mankind has perceived. So much has been delivered, so little is being seen.

It is important that you understand This Statement, because the Word of mouth, the written Word, must be passed throughout the world, giving to all of mankind, in a deliberate manner, a Gift of Divine Love, not questioning the others' belief or ability to believe, but to give Strength where it is needed, morally, spiritually, physically, mentally, emotionally.

The Value of This Gift of Divine Love is beyond human understanding, or ability to perceive a Gift of This Magnitude through *one voice, one life, one kind of obedience*. Each one who writes the Words accepts the responsibility. Each one who reads the Words is given the Grace to see the responsibility.

You live in a Time of Great Importance. There are millions of Souls depending on your trust, your belief, your interest, your commitment to be a messenger to help others more fully understand what a Precious Time this is in the History of mankind.

There are many learned men and women who place all the importance of their way of life on what they are doing to be successful, their personal accomplishments, which many times can be harmful to the individuals' Souls, because it can cause weakness in an individual because of so much 'one's self' as the focal point.

Mankind many times deliberately ignores an important event, an important practice, an important idea, or an important goal. The Goal for This Gift of Divine Love is a Goal beyond what any human life could reach.

It is important for All the Messages delivered to be scattered throughout the world, so that those far away will be enlightened to the Importance of human life, the Reason for which it was created, and the Ultimate Goal of Attainment that awaits it.

Many Blessings go with What is spoken each time One from Here speaks. We are fully aware of the opposition to This Great Gift of Divine Love, but all obstacles must be overcome, ignored, because it is important that mankind

be introduced to What is occurring here. So be it.”

SAINT CATHERINE OF SIENA

“I am Saint Catherine of Siena. As I speak to you on this day, I want you to be aware that there are Several Here with Me, anxious for you to understand that This Gift of The Father’s is a Gift of Truth, Important to the Souls of each of you; also, to those who will read Our Words, follow the Directions in Them, and request Spiritual Aid, Help, for the good of each of their Souls.

Mankind does not always think about being the custodian of a Special Gift of Divine Love. Though this Gift is unseen by the human eye, there is an awareness in the mind and the conscience that there is a Presence of Great Importance, a realization that to be born the human way is endowed with a Blessing beyond what the human mind can see.

So Many of Us have spoken through This Special Gift of Communication, a Gift delivering to human beings the Importance of what human life has to look forward to; also,

the responsibilities human life has to be mindful of every moment of every day.

At this moment, as We speak through *one voice*, and We ask that Our Words be put into script, Many Here with Me now join in Love for those who respect, who believe, and who follow so much of the Direction that has been delivered, because of the Soul that they are aware of, and are responsible for, every moment of every day.

When We hear rejection of This Gift of The Father's Love, there is a sadness, because a Gift of This Measure, This Greatness, should be thought of, and in many ways obeyed, because of the Soul that This Miracle was delivered to protect. The only protection your Soul has is your obedience to follow what is pure, reject what is impure, and to follow The Commandments that were given through 'one voice' a long time ago.

You must remember an Important Fact: that as The Holy Family walked the human role, The Beloved Mother was Example in every way, of the woman's role. The Father, The Beloved Joseph, walked as The Protector, always

standing strong, Example to all They were surrounded by. The Son was The Living Gift of Sacrifice, of Hope, that has to be remembered because of the Importance of human life, the Reason for which it was created, and that each human life faces many obstacles, many abuses, and each individual must be ever conscious that it is important to remember purity, remember The Commandments, and remember that the Soul is to be returned to The Father in the State It was given at a particular time, wherein mankind saw only the human form, and yet the Soul was evident because of the beauty of what an infant registers.

Today as I speak with a deep Love for human life, because human life is the only gifted creation that has responsibility beyond what any other living creation is endowed with, and that is a Portion of The Creator, unseen, untouchable, but always present to protect, to encourage in every facet of what an individual does, thinks, speaks, participates in.

The world has been Blessed, you have been Blessed. So be it.”

**OUR HEAVENLY MOTHER
SAINT MARGARET MARY ALACOQUE
OTHER SAINTS**

“I am Saint Margaret Mary Alacoque. With Me stands Saint Mary Magdalene, Saint Bonaventure, Saint Therese of Lisieux, Saint Aloysius, and yes, The One Who will speak is Our Beloved Heavenly Mother.

Mankind depends upon History in learning about Spiritual matters, personages, practices and events. It is important that mankind take each story and treasure it, because in so many ways, it can give strength to the human way of life. Each generation of mankind is faced with individuals understanding a given subject, in a different degree, than the ones who came before them.

Today as We take turns speaking, it is to encourage, enlighten, and contribute Divine Love to human love, in understanding what a Precious Gift human life is, and has been in all generations since its beginning. At different times The Father has Blessed

mankind with a Communication, choosing 'one individual' to deliver What He Willed mankind to understand more indepthly, on a subject important to the Soul of not one person, one individual, but to thousands or millions of individuals, giving them Strength morally, physically.

Today as I speak, it is important that This Gift of The Father's Love be forced into areas beyond this point wherein We speak. The world is in moral chaos, practicing so much immorality and declaring it 'the human way'. In order for mankind of all ages, all mentalities, all opinions, to find strength, help, hope, and the right goal, many changes must take place mentally, physically, morally, and of course, spiritually. So many profess to understand the Spiritual facts that they follow, they decree to be as The Father Wills it to be.

Today as I speak openly, there are many who fantasize, because it is easier for them to understand what they should see in a more realistic evaluation. Fantasy has no place in sound belief, sound understanding, sound practice of moral values.

The world has been Blessed at different times with Direct Communication through ‘one voice’, but oftentimes, no matter how genuine, how understanding the voice is, somehow or other weakness creeps in, doubt creeps in, jealousy creeps in, denial creeps in, and the purity of what is beneficial is diluted to a degree that it is eliminated, ignored, cast aside. This is a sadness, because there have been many times The Father has chosen ‘an individual’ to give Hope, based on human sacrifice of time and many other things, but in so many ways jealousy appears, criticism becomes vile and violent, and What The Father Wills mankind to be Blessed with, erupts into nothing but a foul achievement for those who disbelieve. So many times mankind has been Blessed through This Gift that The Holy Spirit, Saint Joseph, is the Custodian of.

Today as These Words flow forth, hopefully They will pass on to many others, encouraging all degrees of intelligence, all degrees of Spiritual understanding to value the Truths that have come through This Gift for a very long time. It is sad to see

jealousy, envy, because in it there is only weakness. If mankind will but remember, Judas was weak, and paid dearly for it.

As Many of Us speak through This Gift, *the little one* The Father uses recognizes a Judas, says nothing, but prays for the individual or individuals to become strong, more understanding, and thankful at the same time for being awakened to the Fact that they have a Soul, and the Soul will be victimized by their intentions, their lack of seeing the reality of what is so beneficial to their human way of life, to their Spiritual growth, and for their fuller understanding of the importance of how they think, speak, act, react, and are example of.

As this *little one* is held deeply, it will be two days before We can release her fully. The necessity for this is because of the body's tiredness, weakness, that Our time with her causes. What is occurring here is not a natural phenomenon. It is a Highly Spiritual Gift of Divine Love, giving to human beings of all denominations, Hope, and a fuller understanding of the closeness human life has to The Divine. So be it."

**OUR HEAVENLY MOTHER
SAINT ANTHONY MARY CLARET
OTHER SAINTS**

“I am Saint Anthony Mary Claret, but I will also announce: When One of Us speaks from Where We Are to you, there are always Several More with Us.

The Father, in His Design of This Gift of Divine Love, He is dictating so many ways for mankind of all races, all colors, all creeds, to better understand, to more fully comprehend, what a Special Gift human life is to man. So many learned men and women try to ignore Messages such as This is. They allow their human mind to respect opinions that are many times invalid in depth, meaning, direction, and value.

Today as I speak strongly through *one small voice*, it is to alert all of mankind, not just those who believe in One Plan of Divine Direction. The world is in chaos. There is much demonic action by many who feel they are learned, superior to others.

Today as I speak, I speak with a firmness, because the time has come that All that The Father Decreed to be delivered by Himself and Many of Us Saints, must be passed throughout the world, not held back because of any resistance to It.

In the Time that My Son walked the earth, much rejection was evident.

The Father continuously tells Us Saints to speak openly, speak in His Way of speech, so that mankind will hear firsthand, read the Words, the meanings, so that they can follow to the letter what human life was meant for.

Granted, many times when One of Us speaks, Others will enter into What We speak. This is because each time We approach this *little one*, there is oftentimes Several present. She looks to Each of Us because One appears as though He or She is speaking, but then the sound that she does not hear, but that radiates through her being, shows her that Others are present, and are joining in the Conversation, the Direction.

Today is a special day, because today The Father has Declared that This Gift of His Divine Love be cast onto the waters, and in all corners of the world, because of the necessity of mankind of all races, colors and creeds, all ages, all degrees of intellect, become aware of This Gift of His Divine Love, that is not taking place in This Form, This Degree, any other place throughout the world. So be it.”

JANUARY 12, 1999 AT 2:00 P.M.

SAINT THERESE OF LISIEUX

“I am Saint Therese of Lisieux. The Father has requested that I speak on this day through This Gift of His Divine Love, in which so Many Saints find it a privilege to communicate verbally to mankind of all races, all colors, all creeds, regarding the Important Gift of Divine Love, the Soul.

Mankind must understand there is never a word spoken, never a place, never an act that an individual partakes in that one or more Souls are not affected by what is spoken, what is done, what is directed to be.

Millions of men, women and children reside at this time in many places throughout the world. It is a rarity when an individual thinks of his or her Soul before they speak, act, or react, under any circumstance, any condition, in any place. The Soul is the Connecting Link that human life has to The Divine, and yet the Soul is never really thought about, because

mankind cannot see It, nor can anyone physically feel It.

As long as an individual of any race, color or creed knows right from wrong, truth from untruth, he or she is innately aware that they are not alone, and there is a Portion of them that is a Connecting Link to a Higher Being.

Today is an important day because each day gives men, women and children the opportunity to more fully understand that they are closely associated to a Higher Entity of Life. Many times when We see an individual kneel to pray, and We hear this one not knowing what to say, We try to help in Our Way.

Those who read These Words today, ask yourself: ‘Am I fully aware of my closeness to The Creator? Do I understand the meaning of prayer? Do I feel I live every day consciously accountable for every act, every thought, every word I say? Do I take each day for granted, and ignore my responsibilities morally, spiritually? Am I good example to others in how I act, how I speak, how I address informal issues?’

There is no doubt that so much could be spoken on this part of human life that so many take for granted, so many even refuse to see the responsibility they have on how they represent human decency, purity, dignity. So Many of Us speak through this *little one*, and though there have been millions of Words spoken before this time, mankind must understand that there are millions yet to come if need be.

What has been put into script must pass throughout the world, and in some cases translated into other languages, because there is no other place throughout the world that a Gift of This Divine Love is being given or being spread. So be it.”

JANUARY 13, 1999 AT 12:58 P.M.

SAINT ALPHONSUS LIGUORI

“I am Saint Alphonsus Liguori.

Mankind does not recognize what a Great Gift of Divine Love The Commandments of God are to mankind. Without Them, mankind would not understand the importance of Specific Rules that were important to the whole being of human life, that is to say, for the mental capabilities, the verbal techniques that so many men, women and children use daily, the physical actions that affect not just one life, but the lives of those close to an individual, or some even in distant lands.

When an individual speaks, there is a subject in the speech, a reason for the speech, or even a goal in what is spoken. Too little emphasis is placed on all these things, but The Father, in knowing how mankind of all ages, all degrees of intelligence, all backgrounds, would be faced with subjects or different matters that pertain to moral ethics, moral soundness, moral values, moral

communications, would be dealt with according to the individuals involved.

Mankind has been Blessed with many values, many abilities, and the understanding of what is morally sound, morally weak, morally compelling, morally truthful, or immorally an abomination to the Soul.

The world has been Blessed by so much Instruction to all ages of human life, all backgrounds of human life, all different degrees of intelligence in human life.

Today as I speak, My Words are important Words to remind mankind that human life is Special, because human life was designed to the Image and Likeness of The Creator; granted, not bone for bone, but human life is the custodian of a Portion of The Creator. No one can see It, no one can feel It, but logic says that in the being of each human being there is a sense of logic, a sense of justice, a sense of closeness to a Higher Being. Anyone who doubts this, in many ways has a major problem, because logic is so evident, so realistic, so important.

So many things have been instructed through This Gift of The

Father's Love, to awaken the human mind of millions of people how Important human life is, and why it was created, and that is to one day return to The Father in a Position of Closeness that nothing else created has the ability, or the promise of doing. So be it."

JANUARY 14, 1999 AT 12:25 P.M.

SAINT JOSEPH, THE HOLY SPIRIT

“I am Saint Joseph. Today as I speak through *a voice* understandable to mankind, I have requested My Words to be written so that millions and millions of other men, women and children will be able to read what I desire them to more fully understand, to more readily understand, that human life, in its Design, was Special from the beginning of time. No other living thing or matter has within it a Connecting Link of Divine Love, a Soul.

Today there are millions of individuals throughout the world who, in many ways, are using what they are, how they live, in what can be termed ‘demonic ways’, thus ignoring the privilege of human life, and how so much of it has been endowed with the ability to know purity from impurity, beauty from ugliness, truth from untruths, plus an innate understanding that The Creator has to be of an Ultimate Source of Living, of Life, of Design, Greater than humanity.

This Gift of Divine Love that bears My Name has never before been delivered in the manner, in the degree It is today. For many centuries human life, at different times, was capable of being able to judge what was moral, what was immoral, what was just, what was injustice, but there were many versions because of the mentality, the location, and of course, different attitudes and different forms of sound education.

Today we have reached a point that those who exist now have the ability to understand what is morally right, what is morally wrong, and not all these things depend upon the formal education of an individual.

The Father has given the world a Blessing for all of mankind, instructing in many ways, the Importance of what human life was created for. Numerous Saints have been requested by The Creator to speak, so that those who could read would find Strength in the Messages regarding the Importance of the Soul that each human being is the custodian of.

Children are not being instructed properly. There is a laxness throughout

the world on the real Value of human life, and what a Treasure the Goal for it is. There is a battle unbelievable by the enemy, and that is to encourage not just hundreds or thousands, but millions, to ignore What is spoken, put into script, in This Precious Gift of The Father's Love at 'this time'.

There are many, many individuals who say they are devoted to Spiritual instruction of others. I can only alert you to the hypocrisy that is evident in so much of what is being held as truth, valuable to each one listening or reading what is put into script.

It is sad when We say, 'The world has been Blessed by This Gift of The Father's Love,' because there are so many who do not value the encouragement to more fully understand that they are the custodian of a Portion of The Creator, and they must see through their actions, thoughts, words and deeds, what path they are on, what their words contain: good or evil, pure or impure.

Today much Love is passed through My Words to you, through *one voice, an obedient voice*, that nothing or no one else could do. So be it."

JANUARY 14, 1999 AT 2:31 P.M.

OUR HEAVENLY MOTHER

“My beloved children, it is with a Deep Love that I speak today in your time. There are so many adverse conditions, diabolical infiltrations of conduct, of beliefs, of a lack of understanding of the Importance of The Holy Trinity; also, of the Great Love The Father has for His Creation of human life.

In the human way, it is innate in men, women and children to want to be successful in many areas in which human life is involved, whether it be in the educational field, the business field, or in activities of the physical nature.

With so much Supernatural Love being delivered at ‘this time’, it is important for mankind to feel that This Gift of Divine Love is beyond what mankind knows love to be. In Its very depth It shows, It speaks in a form and in a manner that draws mankind close, and yet gives to mankind strength to conquer immorality, and to conquer obstacles that interfere with anything,

any subject that would abuse the Soul, leave a stain on It, cause a stain to be, because of an impure act, thought, word.

It is important This Gift of so much Instruction be passed to every corner of the world indepthly, never to feel or think of the language barrier that could interfere with the meaning of All that is spoken from Here. So many ways, so many areas would be taken care of, because of The Father's Will to aid where it is needed, to help where it is requested, and to show Truth where it is of Great Value to the Soul of not just thousands, but millions. When I say millions, it is difficult for some to fathom this amount, this degree of human beings, but you must understand that the Words that are delivered through This Gift of Divine Love are not just for today or tomorrow, but are to live on for all time, which automatically allows the number to be great who will be helped by What you have had the privilege to partake in on this date, at This Time in the History of mankind.

There are millions of individuals, all degrees of intellect, that must be touched by the Importance of What

has been spoken since the beginning of the Time that This Gift was handed to mankind. Do not allow It to go to waste. You have a responsibility to see that not One Word is hidden from the world. So be it.”

JANUARY 15, 1999 AT 12:46 P.M.

SAINT AGNES

“I am Saint Agnes. What I am about to say is important, in that it will give Instructions on how the very young should be instructed to obey The Commandments of The Father, beginning at a very young age.

So little is taught or demanded because of the leniency in so many areas of daily life. The Commandments can be plainly stated in a format so that the very young can begin to value Them, and perhaps ask more questions than an older individual might ask.

Parents say to a child, ‘Obedience.’ To this statement they should add that there is a Commandment of God saying, ‘*Honor Thy Father And Thy Mother.*’ Much discussion, much explanation could evolve from this statement, also in what is being taught. A child could be told that The Father in Heaven, The Heavenly Mother are the Examples for the human parents on earth, so it is important for the lineage of This Authority to be seen for its worth.

Young adults are totally ignoring moral values, moral standards, moral obligations. They are not being instructed in the facts that morality is the foundation in all areas that The Commandments of God were based on, when They were first given.

Today as I speak, it is important that the young more fully understand This Miracle of The Father's Love, that It exists in their midst, and constantly instructs on the necessity for pure behavior morally, mentally, physically, spiritually.

So Many of Us Saints stand by at all hours of the day, watchful of what is occurring amidst all ages of human life. It is sad when We see the opportunity for someone to learn more about the Soul they are the custodian of, but rarely is anyone caring enough, despite all obstacles, to stand up and be counted, and speak instructively at this time.

Needless to say, Each of Us Here in the Heavens could speak endlessly on these important subjects, but it is important that as We give a certain amount to be written, We expect It to be passed in many areas wherein one

or more individuals will see the logic in What We have spoken, and the Divine Love that is evident in Our Words. So be it.”

JANUARY 15, 1999 AT 1:34 P.M.

SAINT JOHN THE BAPTIST

“I am Saint John The Baptist.

When the Gift of Baptism was first given, as I stood in the water, I could not help thinking of what a Great Blessing this was to mankind. It was first a Lesson to remind all men, women and children that the pouring of the water had a significance parallel to the water they would use to cleanse their body, but this water was reminding them of the Soul they were the custodian of which, in Its Existence, was a Portion of The Creator of the body.

The Gift of Baptism was and is far more important than the human mind understands it to be. First, it is a recognition of a Supreme Power, Supreme Being, a Supreme Love for human life. In the Gift of the Pouring of the Water, it signifies Faith in a Higher Being, plus the realization that the words spoken accept Christianity, accept the Real Existence of a Higher Being, thus giving strength to the mind,

to the body, and to the Soul, beyond what is natural to the individual.

Much Love flows through This Miracle of so much Instruction, so much in-depth meaning to everything that, up to this time, has been taken for granted, or practiced in a routine manner, because it was a requisite to belong to an organization, supposedly devoted strictly to The Father.

Baptism has many, many reasons for It and in It, because in this act of human love for The Divine, it draws the mentality of an individual closer in union with the Supreme Power of The Living God.

I could speak hours on this subject because of the importance of this subject, because in so many areas of life mankind has been told certain facets regarding the importance of this Gift, but only to the limit of the individual or individuals who practiced It, who accepted It as a way of commitment to a Spiritual acceptance.

The Blessings that have passed through This Gift of The Beloved Saint Joseph are Gifts to help mankind more fully understand that human

life must not just respect The Divine, but understand that they are closely associated with The Divine in many ways, for many reasons, and these must be honored in a dignity not common, but with great respect, because of the greatness in which each act draws mankind closer in understanding to The Creator of All Things.”

JANUARY 18, 1999 AT 1:06 P.M.

SAINT CHARLES BORROMEIO

“I am Saint Charles Borromeo.

Since the Birth of The Son of God, mankind has been gifted with much Instruction regarding the Importance of human life, and the Purpose for which it was created.

When The Beloved Holy Family walked upon the earth, others looked at Them in a very natural way. It is important for mankind of today to understand This Statement, and not think that from the moment of Their Presence upon the earth, everyone dealt with Them in a dramatic way.

It is important for mankind to more fully understand that at different times since the beginning of human life, The Father would use these times in an instructive, constructive, orderly form, slowly giving to human life Messages that would encourage, instruct individuals to more fully understand that human life was different than other living matter, things.

Today as I speak, granted, it is a long time after the beginning in which human life was created, and mankind has been instructed to more fully understand what a Special Gift human life is to man. In the beginning, human beings judged each other on specific things, eliminating the Spiritual, and yet inwardly feeling that human life was different and had a purpose; but, until a given time in the History of the Creation of human life, mankind did not know about the Soul that, in Its very Existence, was a Connecting Link to The Creator, to The Divine, and had a Goal that nothing else created had.

Mankind throughout the world has heard about the Soul, and many, even those who were instructed on Spiritual values, conditions, events, sometimes do not fully understand what a Precious Gift human life has to protect, but also in many ways to use, because It is the Connecting Link between the Supreme Power of God and man.

When mankind began to pray, it was not fully understood why, or the real basic value of it, but at this time throughout the world no human being can make an excuse that they are not

informed regarding the True Purpose, and the Valuable Asset each one has within him or her, that Connecting Link with The Creator, called ‘a Soul’.

We hear many design their own way of thinking, but they innately know that their imagination has lost sight of the Magnitude of human life’s Gift that nothing else is the custodian of.

To all who will read My Words, I beseech you to pray for more understanding of what The Creator expects of you, and be sure that you request help in knowing what you must do to preserve the closeness you have with The Creator, and also ask for help to protect the Soul when you are in doubt on a decision, when you are lax in how you are acting morally, physically, emotionally and spiritually.

As All of Us Saints speak through This Gift, it is ‘one place’ in the world of human life that is giving to all of mankind the Necessary Information, not just an introduction, but Facts easy for human beings to understand that human life is Special, has a Purpose, has a Goal, and is close, in many ways, to The Creator.

We hear individuals say at different times to another individual, *'God bless you.'* These words are beautiful for Us to hear, but it is said so seldom. We do hear very often, *'Have a good day,'* but We rarely hear it whispered when it is not spoken out loud, *'God bless you.'*

As I speak to you today, I want you to remember, My Love for you says, *'God bless you.'*"

JANUARY 20, 1999 AT 12:42 P.M.

OUR HEAVENLY MOTHER

“I am your Heavenly Mother. I have many Titles that I answer to when the child of any age draws My Attention to their presence, their need, their hope, their love. One Title that many children know well is ‘*Our Mother Of Perpetual Help*’.

The very young have not been introduced to this Title as well as they should have been, or should be. Children of all ages must recognize that a Mother’s Love such as Mine is, covers all areas of life, all ages, and yes, all needs.

As I speak through *one small voice*, My Love is felt, whether it be through *the voice* or through the Words I deliver to be seen, to be understood, and to be followed. To live in the human way is a Gift of Divine Love. Sad when I make this next Statement: Many do not see It as Divine Love, because they are so preoccupied by their daily practices, involvements, cares.

At 'this time' in your time, you have been given a Gift of Divine Love. You may ask, 'Though I understand It, why was I chosen to have this so clearly shown to me?' I will give you the answer. This period of time in which you live is of Great Importance, and This Gift of Divine Love in which and through which I speak is Important, because The Father has Decreed so Many in the Heavens to speak in a normal, natural way, instructing human beings of all degrees of intelligence, of Grace, to be able to be the instruments to pass on to millions yet to come, what a close Association human life has to The Creator of All Things.

As this time has been Blessed so abundantly, so lovingly, those present at these times, when One Here speaks, are given the Grace to perpetuate What has been spoken for others to learn the Connection between The Divine and the human way.

As I stand before you every day, in a form, in a manner and a way not visible to your sight, but visible to your understanding that My Presence is never any distance away, it is easy for mankind to recognize a statue that bears My Appearance. It is important

that more statues be made, and more attention to them. It will help thousands, even millions to remember to pray.

As human life has a verbal communication, human life also has several forms of communication with The Divine. Think about this: verbal is one, prayer is one, love for one's fellowman is another one, and remembering that the Soul, as a Portion of The Creator, sees every act, is aware of every word, and present in every deed an individual partakes in.

As I close My Words with you now, I want you to remember My Love for mankind is a Generous Love, and in many ways, a Love that exists consistently every moment of every day. I will return at another time, but hopefully when I do, much progress will be made for the Souls of every one of you. So be it."

SAINT ALPHONSUS LIGUORI

“I am Saint Alphonsus Liguori.

The world has been handed, has been gifted with a Communication of The Father’s Love. Many Saints speak through This Gift as only a Saint can speak. The goal, of course, is to enlighten mankind of all ages, of all degrees of intellect, all backgrounds, all personalities, all degrees of understanding, what a Great Gift of Divine Love human life is.

It is sad to see human life taken so for granted, eliminating the privilege, the Reason, the Purpose, the Goal. Children are not being instructed on the importance of each day of his or her life, each action they partake in, each communication they have with another individual.

This Gift of The Father’s, of so Many of Us having the privilege to speak openly, allowing It to be put into script, so that mankind is left with the written Word, better able to understand the important subject matter, to remember it, to live it, to be

example of it, and in this way be an instructor for the benefit of the Souls of all he or she will come in contact with.

So many men, women and children become addicted to reading what others write, not always sound subject matter, but for a fleeting moment it might be entertaining. All that is delivered through This Gift of The Father's Love is a Gift of Instruction, because of the Importance of the Soul that each human being is the custodian of.

We oftentimes hear someone say, 'I don't feel my Soul, how do I know It's there?' Would not The Father, in a Design as Important as human life, give to each one born an insight into the indepthness of how mankind understands purity over impurity in every facet of life, love over hate, good over evil, none of this a mystery, all evident?

Today as I speak there is a sadness in Me, because so much has been delivered because The Father has allowed it to be so, and so few care to understand that they have an Important Portion of Divine Love

within them, called 'the Soul'. Man has a way of deliberately ignoring Truth if it interferes in any way with his or her habits or form of living.

So much has been allowed to be written, encouraging all races, all colors, all creeds, all ages of human life, to value more the possibility of such a Gift of Divine Love and think more intensely about being the custodian of It.

When an individual falls prey to an accident that is harmful to the flesh, there is much dismay, much worry, fear. Rarely, if ever, is this attached to the problematic situation regarding one's Soul.

Today can be a beginning for millions of men, women and children if they will but read One or More of the previously dictated Guidance, informative Information on the Importance of human life. The Instruction alone should alert mankind as being above human concern, understanding or caring, because so Many from Here have been given the privilege to instruct in a logical manner of speech on the Importance of human life that mankind is the recipient of.

Mankind oftentimes talks about love for one or more they know they are close to, or they feel strongly about. I plead with you today, each day do you say to The Father: *‘I love You, God, please allow me to show it in every act I do, every word I say, every move I make the human way’?* So be it.”

SAINT JOSEPH, THE HOLY SPIRIT

“I am Saint Joseph.

In the Creation of the world, The Father, in His Plans for what would be best for man, gave to mankind an atmosphere that would allow mankind’s ability to breathe, and allow the eyes to see phenomena, that without these things, mankind would have nothing tangible to live with, or in many ways to live for. The ability to speak was another Gift of Divine Love, because in this Gift allowing communication to be a major factor of giving to human life more love, more sensitivity to being able to communicate with others like himself or herself.

In so many ways, mankind does not recognize the importance of all the Gifts that human life have been endowed with: the mentality to learn, to understand, to use, and to communicate to great lengths, great degrees, for a multiple of purposes. Though speech may be different, because of areas in which different individuals come from, speech is

an important Gift, because through it much can be learned, and much happiness can arrive from it, and be much a part of it. Every sense that mankind has been gifted with has a purpose, a reason, beyond what mankind truly understands.

At this time, in your time in which I speak These Words, human life has reached many degrees of progress, because of the Gifts that human life was endowed with. Granted, each individual does not have the same degree in each one of these Gifts, but it is important that all these Gifts be realized as Gifts of Divine Love, not just natural, not just ordinary, but accepted for the greatness in which each thing gives to human life advantages, that without them mankind would be like a stone, a rock, immobile, with no communication. Human life, in its many Gifts, also has many responsibilities, because each Gift can be used to and for the benefit of an individual's Soul.

What is the Soul? The Soul is the Connecting Link to The Creator of All Things. The Soul is in constant touch with The Creator of All Things. No matter what an individual human

being thinks, says, does, participates in, The One Who created human life is fully aware of every thought, word, deed, action, and the reason behind it.

At 'this time', throughout the world, mankind has been Blessed with This Miracle that instructs constantly, consistently, openly, through the Words of The Saints, to awaken mankind of all races, colors, creeds, degrees of understanding, how Important human life was meant to be, is expected to be, and has the privilege to be.

Mankind must also understand that with each birth of a human life, there is great responsibility because of the Soul, a Portion of The Creator that is placed at the moment of conception. It is sad though, that this Soul is never recognized as being a Portion of the birth. Mankind is so taken with the body, the looks, what they feel is their accomplishment, ignores the Important Portion of that birth, the Soul. This Statement may be difficult for some to fathom, to recognize, to reasonably accept, but it is Fact.

Today as I speak, I am surrounded by a Number of Saints Who plead with

mankind to value the Truths in All that has been delivered through This Gift of Divine Love, and encourage others to see the reality, the logic, the reasoning, because of the Importance of human life.

Volumes could be written, but in each time that Someone from the Heavens speak, it is to be added to all the other times, never ignored, never cast aside, but to make the connection that All of Heaven speaks through This Gift of Divine Love, because of the need that mankind has to save, to protect, and to return the Soul to The Creator in a State of Love, Purity, to live again with Him for All Eternity.”

FEBRUARY 6, 1999 AT 10:00 A.M.

GOD THE FATHER

“Mankind calls on Me for help, for favors, for assurance, for help for those they love.

Sometimes I call on mankind to assist Me in what I wish to accomplish where mankind needs to better understand what is important for Souls.

What is a Soul?

A Soul is a Portion of Me, very often in distress because of the individual in whom It was placed at the moment of his or her conception. The Soul is a Gift of My Divine Love, giving human life a closeness to Me that no other living matter or thing has.

Today I come through *a child* who walks in obedience to My Will, and I say through her to all of mankind: ‘The world must stop pleasing the enemy of Mine and please only Me, because the enemy only acts to discredit That Portion of Me that man has as a Protector, a Guide, and a Portion of Me.’

More will be spoken on this at a later time.”

FEBRUARY 7, 1999 AT 12:45 P.M.

GOD THE FATHER

“Truth is one of the most valuable Gifts of human practice man can have, because truth has strength in its very fiber, and truth wipes out all that is unforgivably unjust to one’s self and to all others involved.

Truth is a Blessing because it contains and extends strength in living each day, connected to the Values Christ made known to the world by every Act, Word and Deed He participated in and taught to others.

There is hope in truth, that without it mankind would live in a quandary of confusion and distrust.”

FEBRUARY 8, 1999 AT 1:48 P.M.

OUR HEAVENLY FATHER

“I am your Heavenly Father.

I have requested through this *small instrument* to deliver to mankind in detail, the importance of My Commandments, so that mankind throughout the world will become aware of the full detail I meant for each One to mean for the life of an individual, so that this individual would constantly be cognizant of every act, every word, every thought, every deed, every association that involved one or more other men, women and children.

This Task is Monumental, because at this time in the time in which you live, very little is spoken about The Rules I gave for the protection of the Souls I instill in human life at the moment of his or her conception. ‘This Task is not easy.’ I heard this remark before. A man called ‘Moses’ said, ‘Father, how will I remember every detail, every urgent remark that will benefit an individual’s Soul?’

I assure this *little one* I speak to, through, as I assured Moses a long time ago: ‘My Directions will be complete. My Words will be Distinct in detail, because mankind has been for a long time ignoring the conciseness in which he or she learns The Commandments.’

Many Souls have suffered much due to this fact, that The Rules for human life were diminished to one word, one line, ignoring the importance of what each Word means to the moral values, moral standards, moral integrity, moral benefits for the Soul that is the custodian of all that an individual partakes in, whether it be in speaking, acting, teaching, or learning subject matter that will be a great part of an individual’s way of life when one is alone, or one is with others.

My Commandments have been cast aside, due to the fact that mankind has become so preoccupied with an individual’s interpretation of what is morally sound, morally correct, or immorally practiced in daily life. Morality is not a subject that is discussed in very many areas of family life, of friendships, or in religious circles.

So much acceptance of humanism based on the advancement of humanistic pleasures, ideas, ideals, interests, that it is important for mankind to now look back into time, and value What was delivered indepthly for the protection of the Souls that are Portions of Me.

Why did I place a Portion of Me into human life? So that mankind of all ages would understand purity over impurity, justice over injustice, love over hate, and yes, perseverance over a laxness of interest in the importance of a subject, or an act, or a feeling, an idea, or a goal.

As I speak strongly through *one voice*, I speak deliberately, because I have a Deep Love for this Creation of Mine, and mankind throughout the world, no language omitted, is to receive All I am preparing, and All I have prepared for them to more fully understand My Love, for this Creation of Mine bears a Portion of Me that I want returned to Me in a Pure State of Light, so I can accept It as I once gave It, because of My Love for mankind.”

FEBRUARY 12, 1999 AT 1:50 P.M.

SAINT PETER

“I am Saint Peter. As a Saint I must describe what a privilege it is to have this Title. As mankind knows, a title gives to one’s name special notice, purpose, reasoning.

Today, as each other day in This Gift of The Father’s Love, is a ‘time of importance’, because of the Content, the Subject Matter that is to be put into script for millions of men, women and children to read and to learn from, because of the Importance of his or her Soul that each individual is responsible for.

At this time throughout the world there are so many diabolical practices, indifferences to what is morally sound, morally correct, morally in keeping with The Commandments delivered for the benefit of mankind to be assured, to understand what human life was responsible for, because of the Soul that each human being is the custodian of at the moment of conception of human life.

At this time, in this year of your time, there is so little spoken about what a Great Gift a human life is, and the benefits for which it is created. In so many ways mankind takes human life in a casual, indifferent attitude, responsibility, ignoring that each portion of human life has a distinct purpose and goal.

Children are not being taught, instructed on the Importance of being human, having a Soul, and having the Goal for which he or she was created: to return to The Father in a Specific Way, Specific Form, as a Saint in Heaven. So much has been instructed through This Special Gift by so Many Saints, and of course, by The Beloved Father, The Heavenly Mother, and The Holy Saint Joseph.

Today as I speak, I know that My Words will not travel as quickly as I would like Them to, because of the different ways that My Words will have to be transcribed, and some ways translated, and then put into a manner for others to be able to read.

Time is important in Every Part of This Gift of The Father's Love, because it is important that millions of

human beings, all races, all colors, all creeds, all ages, not have to wait to be able to read What so Many from Here in the Heavens have spoken, helping individuals to better understand the closeness each human life has to the Beyond, Where All Saints are actively working to help those who are yet in the human way to use every act, word, deed, intention, utilizing this time on earth to ready themselves to return to The Father, a Saint.

It is sad when individuals cannot fathom becoming ‘a Saint’, even though this word is used in a serious way, and many times in just a manner of speaking, referring to someone who is especially active in helping others.

Today as I speak, there are millions of Words I would love to say, but These Words would be too many for mankind at one reading to absorb the Importance of what Heaven is all about, and the Importance of human life in its Association, its closeness to The Creator, through a Soul, a Spirit of The Father’s Love, that no other living matter or thing is the custodian of.

Delays must cease, and All that has been passed through This Gift must be delivered to the corners of the world, because one Line, one Subject, one Important Statement could mean so much to an individual that it could change their whole way of life in a moment's time, helping them to realize, to recognize that human life was created for a Goal, a Purpose, a Place, for one day for them to serve in The Father's Court, helping others to better understand that human life is and was always different than any other living matter or things, because human life was designed to the Image and Likeness of The Creator."

FEBRUARY 15, 1999 AT 1:06 P.M.

SAINT JUSTIN

“I am Saint Justin. Though My Name is not oftentimes used for requests, I come through This Gift of The Father’s Love today, hopefully to strengthen mankind’s moral views, moral values, moral standards, moral practices; learning also, to seek help from The Heavenly Father, The Beloved Heavenly Mother, Saint Joseph, The Holy Spirit of The Father, and All Other Saints Who stand Here in the Heavens.

Granted, when one mentions the word ‘Heaven’, it is difficult for men, women and children to fully comprehend, to picture, or even to settle on an imaginary idea of what Heaven looks like.

Today there are Many Saints Who are standing Here with Me. Many of Them have spoken through This Gift of The Father’s Love at different times, not announcing Their Names, but what appeared as conversation on different subjects, because to offer One’s Name can be distracting to some

individuals who need the Lesson more than the realization of Who is speaking the Words.

This Gift of The Father's, This Gift of Communication, though It appears one-sided, is not one-sided, because It offers to all who will read What is spoken, the chance to make personal communication to Whichever Saint they choose to communicate with, and to remember that no communication to The Father, The Beloved Mother, or The Son, is ever not heard; also, when a Saint's Name is called, He or She is immediately responsive.

Though this may be difficult to understand, It is Fact, It is Truth, and It is a sincere request for mankind of all ages, cultures, creeds, to accept it, to practice it, and to feel assured that no prayer goes unanswered, no communication unheard, no act of Faith dismissed without a response of some sort, some kind, some dimension.

As I speak, I speak with a deep Love for human life, because human life bears a dignity, a responsibility, and a closeness to The Divine that no other living matter or thing has the privilege of. I beseech you to

remember What I have spoken and to use It, because in Its very essence, It has a moral, a Spiritual, and a physical effect on the human way of life, human Gift of life. So be it.”

FEBRUARY 16, 1999 AT 2:12 P.M.

SAINT ALPHONSUS LIGUORI

“I am Saint Alphonsus Liguori.

Each day, each man, woman and child should not only pray, but should ask themselves if they are acting in the proper way of obedience to The Commandments given one day.

Today as I speak, I speak as a lawyer to you. I speak as a Saint, but I speak to encourage you to value what is pure over what is impure, what is right over what is wrong, what is valuable over what is worthless.

Most who read These Words would immediately put the subject matter on humanistic values, but I say there is no price tag, no human value on the Most Important Part, Gift to human life, than the Soul The Father gives at the moment of conception.

The world has become arrogant on so many subjects, and arrogance most times leads to destruction in many ways, because arrogance very often omits justice, sincere concern,

even to the point that it pleases the enemy of God and man.

So much has been delivered as The Father Willed it to be done and yet Wills it to be done, because mankind has not accepted the Importance or the reality that 'this time', in the year in which you live, much is being instructed as it was two thousand years ago, reminding mankind of all races, all creeds, all colors, all denominations, that human life must understand what a Precious Gift it is, and that it was designed like no other living matter or thing, because it bears within it a Portion of The Creator that is constantly in receipt of all that the individual, in whom It was placed, practices morally, or immorally.

There are millions of men, women and children throughout the world that need All that has been spoken through This Gift of The Father's, This Gift of Communication, put into print so that others would have the opportunity to read All that has been delivered for them to read, because the Souls of millions of men, women and children are being abused by sins of the flesh, of the mental, and of course, of the diabolical confusions regarding

what is morally sound, what is morally correct, what is morally pure, what is morally demonic.

Today as I speak, I speak with a deep Love and a degree of Concern unlimited in the concept of human life. It is important that All that has been delivered be cast throughout the world, and I ask you, 'Do not use your opinion as to who will accept It, who will reject It, because human insight does not have the capacity to fully understand what another Soul is in great need of, in spite of the individual or individuals They are part of.'

Today as I speak, you must understand, a handful has been chosen to be close to This Gift of Divine Love. As once before it was like this, man counted it as twelve, but in reality, it graduated because of Truth that was obvious, Reality that was evident, and Facts that were Pure in detail.

Today as I speak, I speak with a firmness, because mankind is ignoring circulating This Gift of The Father's Love, merely because of personal opinion, thus ignoring the Power of Divine Love for human life in places difficult for individuals to reach, but

nonetheless, possible because of the Importance of the Reason for which so much is for Souls of all of mankind, in every corner of the world, bar none. So be it.”

FEBRUARY 17, 1999 AT 1:24 P.M.

SAINT ELIZABETH OF HUNGARY

“I am Saint Elizabeth of Hungary. The Gift of Divine Love in which so Many of Us have the privilege to speak, and Our Words put into script, is a Gift beyond what mankind can understand the Magnitude of, because mankind sees all things as acceptable, ordinary and natural.

Today as I speak, I speak in a language understandable to those who are writing My Words for others to read, to think about, and hopefully to recognize the value of each Statement for the benefit of his or her Soul.

Throughout the world, mankind in many ways accepts immorality as a natural way of life; impurities of the mind, the body, ordinary. The world in many ways has ignored for a long time, The Commandments of The Father given to a man who had the courage, the mentality, to deliver These Words to multitudes of men, women and children in his time, in a language understandable to millions. Those who did not understand his Words

were granted the translation by those who cared, thus allowing All that was spoken to be heard, understood, and yes, seen as valuable.

Thousands and thousands and thousands of Words, through what mankind refers to as 'Revelations', have been delivered in appropriate ways, so the individuals putting Them into script could pass Them on to millions more. It was The Father's Will it be done accordingly.

Children at this time are not being instructed properly on the Importance of human life, because in human life there is a Soul, and this Soul is a Portion of The Creator of All Things. Very few words are mentioned regarding this Gift of Divine Love. So much humanism and relaxed values on important actions of human life seem to be acceptable, instead of rejected by those who are of the years to know better.

There is so little instruction on what human life has been endowed with, and of course, the Purpose for This Divine Love that each birth of human life is the recipient of. We hear many loving remarks at a birth. Never

do We hear, 'I can imagine the Soul is Beautiful, because It is a Portion of God that this infant has absorbed, is the custodian of, and will be responsible for.' No mention of such a Gift.

Very little is thought about this Gift, even by the clergy who should be the ones to remind those involved, that This Portion of that life is a Gift of Divine Love, and must be remembered as such from that time on. As soon as the infant appears to be understanding words, it should be clearly stated openly that: 'There is a Soul, and That you must take care of, honey, because you belong to God, and He created you, giving to us this Great Gift of His Divine Love to share our life with you, for we, too, have a Soul, and we, too, must be ever mindful of the Soul that unites Itself with yours, and All are united to The One Who created each of us.'

These Statements to some, may sound a little out of context, but I promise you, the importance of Them nothing can replace, and no more love can be shown than to remind a child that the Soul, as a Portion of The Creator, is a Gift of Divine Grace."
